Carter's position hit

LEXINGTON, N.C. - Allan Grant, the California farmer who is president of the nation's largest general farm organization, said here yesterday (Friday) that Jimmy Carter's endorsement of United Farm Worker proposals for unlimited access to California farm properties by labor union organizers, "amounts to open betrayal of all American farmers - and a callous - if not unconstitutional disregard for property rights...." Grant, who heads the 2,500,000 member-family American Farm Bureau Federation, said that although the issue is on the November ballot only in California, the state has become a testing ground for unionization of all U.S. agriculture.

Elsewhere in his hard-hitting speech, Grant said Carter's endorsement appeared consistent with the Democratic Party platform's already "Chilling disregard for personal rights" in seeking repeal of Section 14-b of the Taft-Hartley Act, which allows states to enact right-to-work laws. Twenty states, including North Carolina, now have such laws.

The farm leader challenged the Democratic Party and George Meany, head of the AFL-CIO, to let workers decide for themselves whether or not they wish to join a union. In view of the union-shop party plank, Grant said it was "small wonder that Mr. Meany has pledged to deliver his vote to the Democratic Party this fall. Apparently he feels that the chance to extend union compulsion and at the same time to help decide this nation's farm and foreign policy is too good to pass up.

"With identical wage scales, labor costs in a union shop are now between 25 and 35 percent higher than in a non-union shop. Redundant workers, cumbersome and costly work rules, slowdowns, work stoppages and strikes, bring those greater costs. With such a record Mr. Meany dares criticize farmers - with our unmatched productive output - and says he is concerned about the higher costs labor union members must pay for what they buy," Grant said.

"Mr. Meany's words do

[Continued on Page 15]

York Fair had it all

YORK - More than 1700 head of livestock, and a record number of entries in amny other exhibition categories were shown here at the York Fair, which ends today (Saturday).

The nine-day Fair is one of the biggest in the state and in amny respects rivals the State Farm Show in Harrisburg. Despite nearly constant rain from Wednesday evening through Thursday night, exhibitors kept up their good spirits and went about their activities in normal fashion.

As in previous years, this - the 109th York Fair - hosted 4-H and FFA contests, as well as open classes. There were horticultural displays, homemakers' projects, animals, rides, entertainment, and unusual contests. Among the more unique events was a tobacco spitting contest which was judged on the basis of accuracy and distance. A youngster, who did quite well in the contest, reportedly has been chewing since age three. Donald Lewis, 6, is the young champion tobacco spitter and he has even lobbied for tobacco in front of the Maryland Senate!

Another unusual event was grape stomping, the first ever at "The Great York Fair." There's also a wine tasting contest held here annually.

Over in the livestock barns, the familiar names of Knight, King, Rutter, Welsh, Strawbridge, Bankert and others dominated the scene. Cindy Knight, subject of a special feature within the front section of this paper, had all but one of the champions in the 4-H Holstein show. Carl Anderson III had three animals entered in the open Holstein show and walked off a winner with each one. Wayne Bankert excelled in several classes of livestock, primarily sheep and hogs. John Strawbridge possibly took home more champion ribbons for his hogs than he brought hogs to the Fair in the first place.

And so it went. Competition, excitement, fun, and the satisfaction of winning.

Detailed results on the 1976 York Fair may be found throughout the 116 pages of this week's issue of Lancaster Farming, with more to come next week.

Fair visited in rain

QUARRYVILLE - For the second year in a row, it drizzled on the opening day of the Solanco Fair. However, few people seemed to mind because the parking lot was filled to capacity. Don Trimble, Solanco Association president commented that in his estimation the turnout for the whole day was larger than any other Wednesday in previous years.

Regardless of the rain, people still lined up to view the countless entries in the Fair tents, and wandered over the grounds to enjoy the opener of the local fair season.

One particular item of interest was a 255 pound pumpkin exhibited by Bob Ford. One spectator remarked on seeing this mammoth creation of nature, "Mmm, boy, that's over 200 pumpkin pies, there."

The Fair did not officially begin until 7:00 p.m., however. Prior to the opening, dairy and sheep judging took place, and a traditional baby parade was scheduled for 6:30 p.m. Due to the rain, however, the parade was cancelled and reset for Friday morning.

Don Trimble officially opened the Fair with a brief note of welcome to the visitors at 7 p.m. Immediately following Trimble's opening, a bake sale was held for the radiology department of the Lancaster General Hospital. Not all the proceeds went to the hospital, however. Half went to the Fair fund. In total, $265 was raised.

The final scheduled event on the day's agenda was a log sawing contest, which was to take place rain or shine.

During the afternoon, the fair was honored by the visit of a foreign dignitary. Juan Manuel Fernandez, coordinator of general training for people in rural areas of Venezuela through the Instituto Nacional De Cooperacion Educativa de Venezuela, was at Solanco to get a first hand look at a Lancaster County agricultural Fair. Presently, Fernandez is working with Penn State on a cooperative program to implement techniques of agricultural education into his country.

Mike Lynch, coordinator of staff development for the Penn State extension staff, explained that the program being worked on is part of the Penn State College of Agriculture's international program.

After spending some time at the Solanco Fair, Fernandez remarked this kind of agricultural development is the greatest training for the "younger people." He expressed the sentiments that with so many youths of today turning to drugs because they have no purpose in life, this type of agriculture program is needed to instill pride and a sense of worth in them.

After his tour of the Solanco Fair, Fernandez went on to tour other Penn State facilities such as the Southeast Field Research Laboratory near Landisville.

By the close of Wednesday, the afternoon's drizzle had turned into a heavier

Delmarva Poultry

Wednesday, Sept. 15, 1976

Ready to Cook movement - continues fairly good though less aggressive in some quarters than yesterday. Slaughter schedules generally remain heavy at most plants. Todays LTL asking prices held unchanged on both plant and US grade A. Live supplies fully adequate at weights tending heavier than desired in instances. Undertone unsettled.

Negotiated trucklot prices 2-3 lb. ready to cook Broiler-Fryers for delivery this-next week: plant grade 40-41.

Current Broiler-Fryer negotiated prices for immediate includes mostly multiple-drop shipments to New York City from Delmarva.

RANGE: US Grade A 43¾-44; Plant Grade 42-43; Premium X US Grade A 45-50; Premium X Plant Grade 44-48.

WTD. AVG.: US grade A 43.93; Plant Grade 42.79; Premium X US Grade A 48.38; Premium X Plant Grade 47.85.

X-Includes special services, selected competitive brands, etc.

Eastern Pa. & N.J. Poultry

Wednesday, Sept. 15

Prices unchanged farm offerings of light type hens barely adequate for a fair processor interest. Offerings of heavy type adequate for an improved demand for the upcoming Hebrew Holidays.

Prices paid at farm: Light type hens 12-14½mostly 14-14½ in Pa., mostly 14-14½ in N.J.

Heavy type hens TFEWR.

Philadelphia Eggs

Prices unchanged to lower on Mediums, unchanged on balance. Cartoning demand fair for adequate offerings of larger sizes and light for ample Mediums. Undertone steady but cautious.

Prices to retailers: sales to volume buyers, consumer grades.

White eggs in cartons, delivered: Store Door.

A Extra Large 75-76½; A Large 74-75½; A Medium 64-67½.

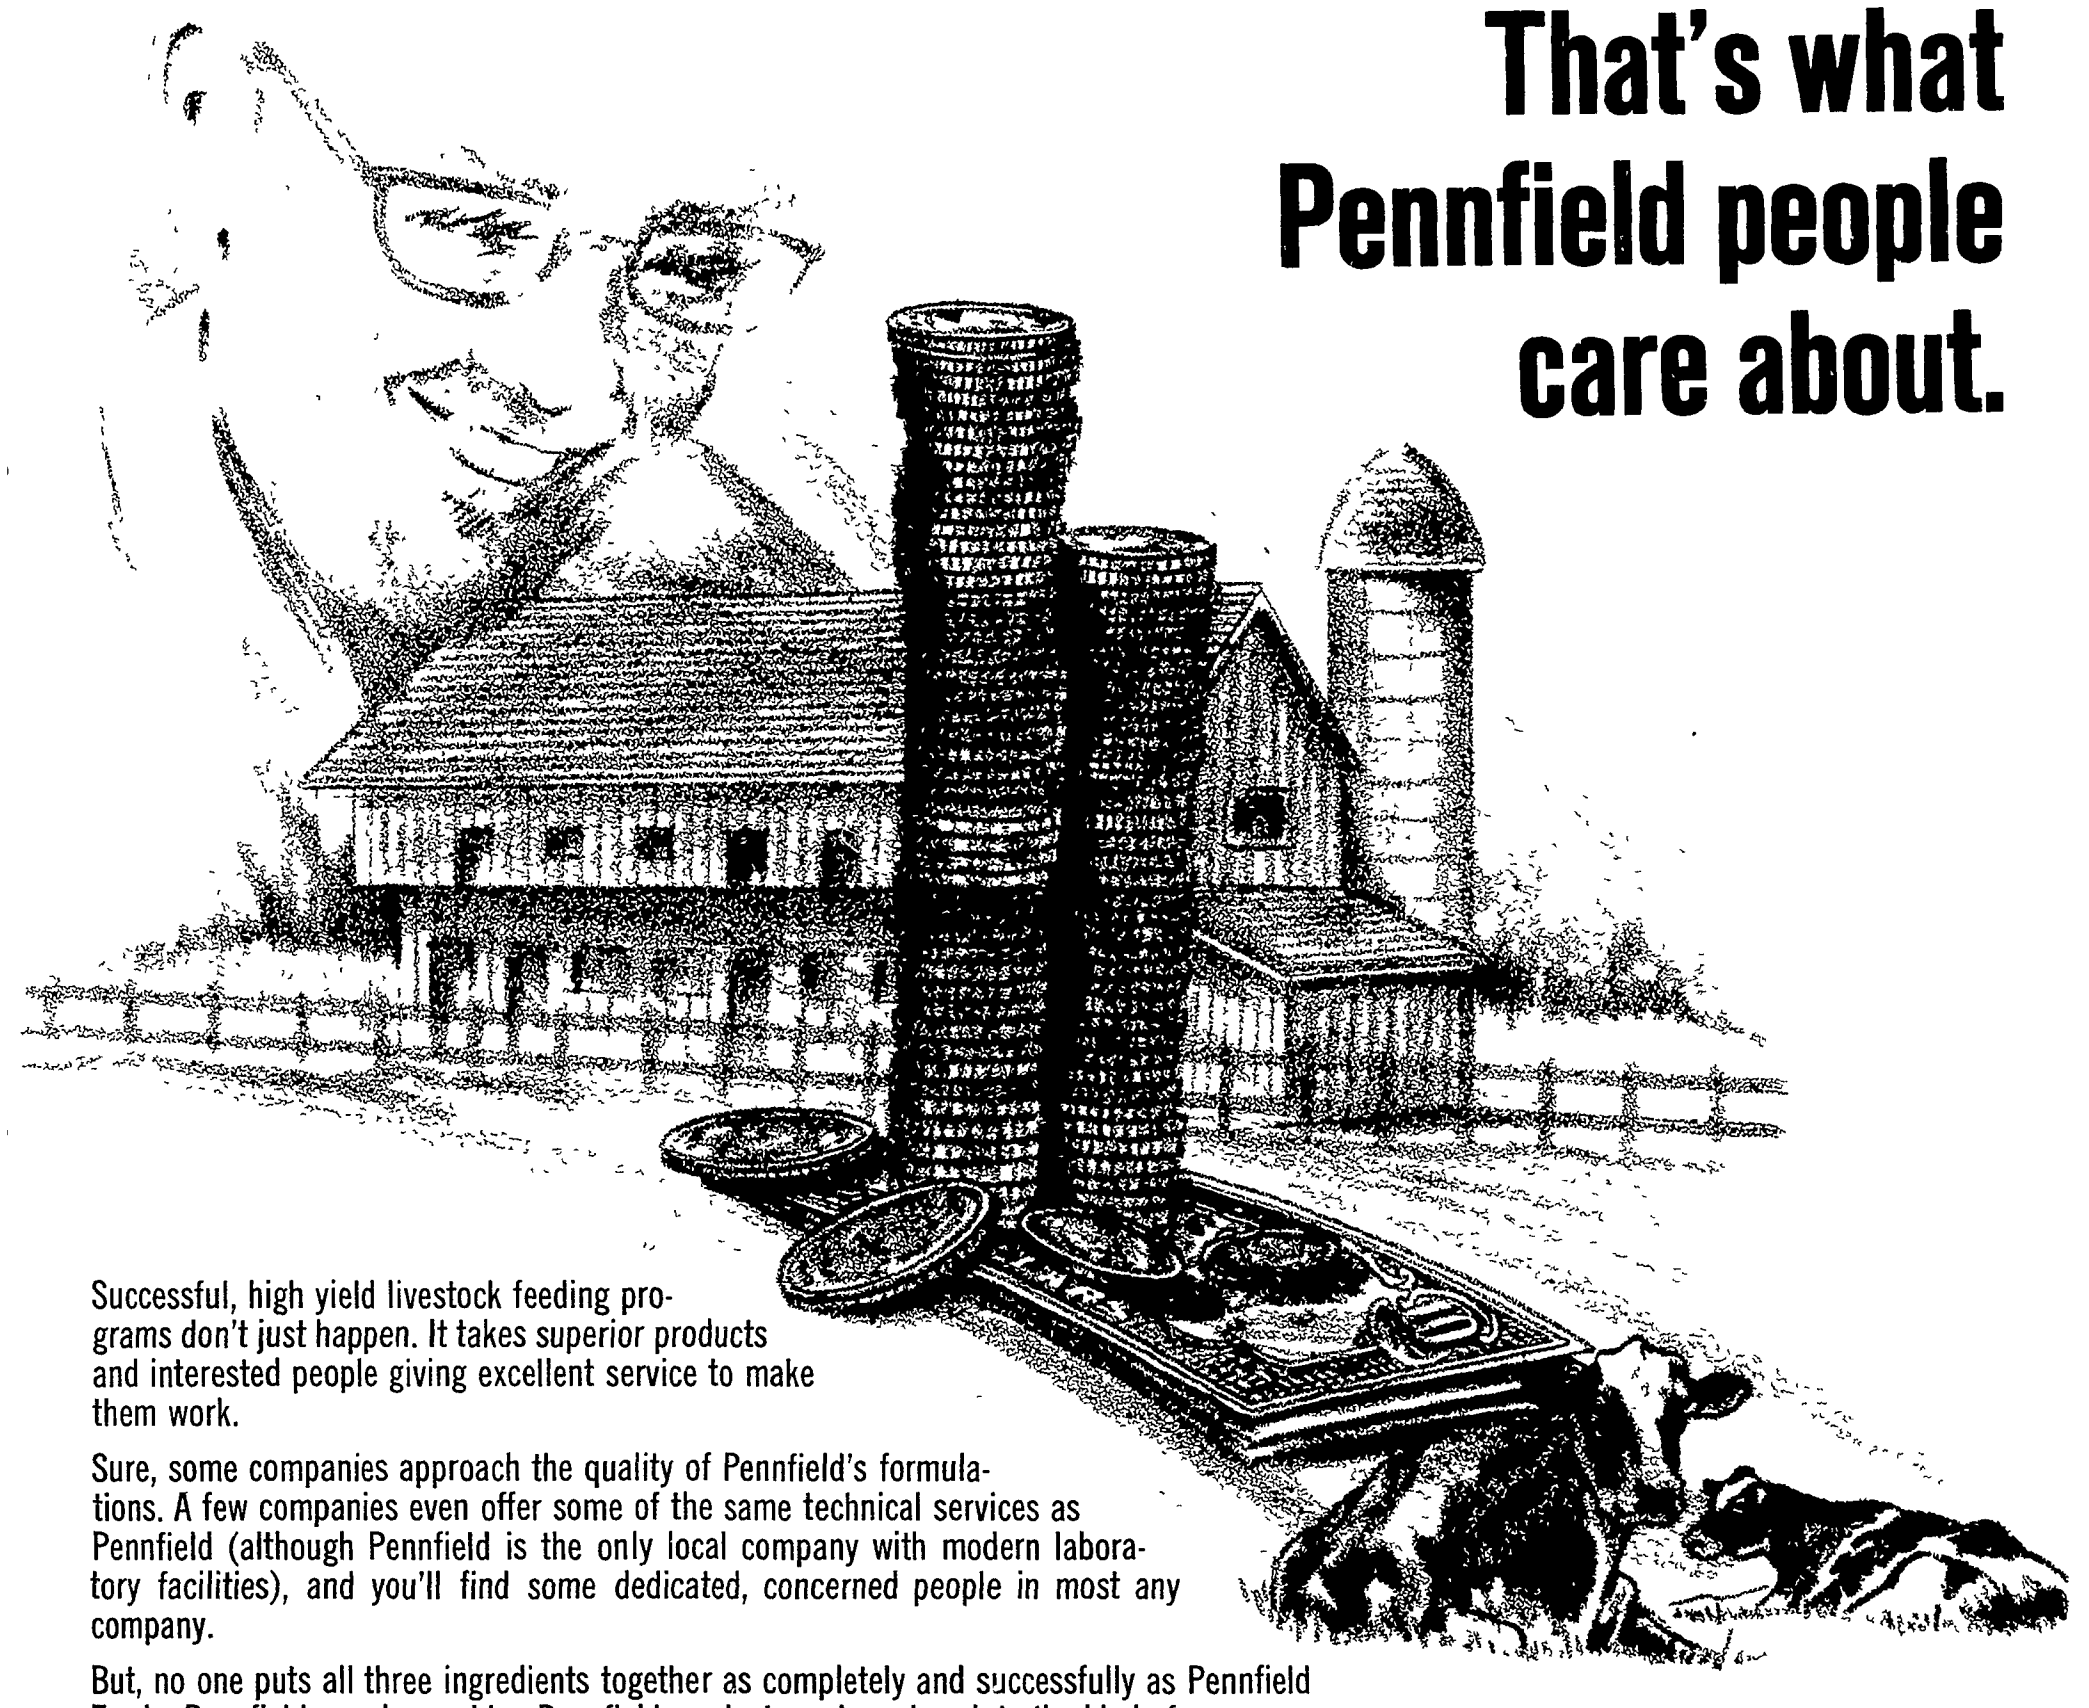
HUBBARD WHITE MT. BROILERS

The foundation is the most important part of any structure. The ground floor of our new plant expansion is now finished and ready for the main floor construction.

We'd like to provide you with the secure foundation you need for a profitable layer flock - Moyer's grown, DEKALB Profit Pullets. You're assured of ready-to-lay pullets of proper weight, health status, and maturity.

On what type foundation are you building your next laying flock?

Your LIVESTOCK PRODUCTIVITY, your PROFITABILITY.



That's what Pennfield people care about.

Successful, high yield livestock feeding programs don't just happen. It takes superior products and interested people giving excellent service to make them work.

Sure, some companies approach the quality of Pennfield's formulations. A few companies even offer some of the same technical services as Pennfield (although Pennfield is the only local company with modern laboratory facilities), and you'll find some dedicated, concerned people in most any company.

But, no one puts all three ingredients together as completely and successfully as Pennfield Feeds. Pennfield people combine Pennfield products and services into the kind of complete livestock feeding and farm management programs that result in higher yields, planned growth, and increased profit for Pennfield customers.

Chemists, nutritionists, production personnel, veterinarians, computer technicians, business and marketing analysts, deliverymen, quality control specialists, financial experts, and more . . . led by your Pennfield Area Manager who can put them all together to develop and service a customized, profit-oriented program for you. These are Pennfield people. And, Pennfield people make Pennfield Feeds a better buy!

HORSE SALE
New Holland
Sales Stables, Inc.
Sept. 10, 1976

235 Head.

Mostly Standard Breds and Saddlebred Driving Horses.

Market very active and sale well attended.

1 load Kentucky Saddlebred Horses 550 to 750, several top horses 900 to 1275.

Several loads of Standard Breds 500 to 650 with a few better horses 850 to 1030.

Omaha Cattle

Omaha
September 16, 1976

Weekly 51 - Cattle - compared with the previous weeks close.

Closing prices on Slaughter Steers and Heifers were mostly weak to 25 cents lower, instances 50 off, some 3-5 1250-1450 lb. Steers 50-1.00 lower. Cows were 50-1.00 higher and Bulls firm to 1.00 higher.

Four day receipts 17,600 as compared 13,800 previous week and 18,200 a year ago. Fed Cattle prices ruled steady on a Monday outlay of 7,200 head, but prices weakened later under the pressure arising from liberal Slaughter and lowered carcass quotations. However, demand was generally good except for the several loads 3-5 1300-1450 lb. Steers which met narrow inquiry. The 26th annual T-Bone Special from the Audubon, Iowa area consigned more than 30 loads predominantly Choice Steers and Heifers for sale on Thursday. The overall finish of the Steer and Heifer supply was attractive with a liberal percentage Choice, and there was some increase in the number of new crop Steers and Heifers. Steers made up approximately 40 per cent of the weeks total and Heifers 37 per cent. Cows comprised 11 per cent and Feeders 10 per cent.

STEERS: Load Choice with end Prime predominantly 3 1075-lbs. 38.75 early, few loads 2-3 1050-1150 lbs. 38.25. Choice 2-4 1000-1300 lbs. closed 36.75-38.00; four loads Choice and Prime 3-4 1221-1248 lbs. 37.15-37.50, and two loads predominantly 4 1200 lbs. 36.50, several loads 3-5 1225-1350 lbs. 34.00-35.50 and three loads 4-5 1300-1447 lbs. 31.00-32.00. Mixed Good and Choice 2-3 975-1225 lbs. 36.00-37.00. Good 2-3 950-1325 lbs. 32.50-36.00. Standard and Good 2-3 31.00-32.00.

Average of LS-214, detailed quotations, for Choice 900-1100 lb. Steers this week 37.25, Choice 1100-1300 lbs. 37.00. Average weight steers first three days 1122 lbs. as compared 1115 lbs. previous week. Average weight heifers first three days 959 lbs. as compared 970 lbs. previous week.

HEIFERS: two loads Choice and Prime 3-4 985-1025 lbs. 37.50, moderate volume same grade 3-4 891-1036 lbs. 36.50-37.00. Choice 2-4 875-1100 lbs. 35.50-36.75, some 3-5 1100-1200 lbs. 33.50-34.00. Mixed Good and Choice 2-3 850-1000 lbs. 34.50-35.50. Good 2-3 31.00-34.50. Standard and Good 2-3 30.00-31.00.

COWS: Utility and commercial 2-4 22.50-26.00, few High-Utility and commercial 26.25-26.50. Canner and Cutter 18.50-23.00.

BULLS: 1-2 1400-1800 lbs. 28.00-32.00, few 1 1600-1800 lbs. 33.00-34.00. MGI.

St. Louis Cattle

September 16, 1976

FEEDERS: including around 1800 at Thursdays auction. Feeder Steers steady to 1.00 higher steady to 1.00 lower, Feeder Heifers steady to 1.00 higher. Supply mostly Good and Choice 450-800 lb. Steers and 375-600 lb Heifers.

STEERS: Choice 450-700 lbs. Z35.25-36.50; 700-825 lbs. 34.50-35.75; Mixed Good and Choice 400-700 lbs. 32.25-35.00. Good 350-600 lbs. 30.00-32.50. Few lots Standard 650-935 lbs. Holsteins 26.00-27.50. Lot Utility 475 lb. Holsteins 24.25.

HEIFERS: Choice 450-675 lbs. 29.50-32.25. Lot High Choice 559 lbs. 33.75. Mixed Good and Choice 375-600 lbs. 27.50-29.50. Good 375-600 lbs. 24.50-27.00.

Carlisle Auction

Carlisle, Pa.
September 14, 1976

CATTLE 211. Compared with last Tuesday's market, slaughter cows steady to 75 cents lower. Few High Choice and Prime 3-4, 1190-1230 lbs. slaughter steers 37.85-38.10, individual Choice at 37.00, Good 33.00-34.75, Standard 31.00-32.35, few Utility 28.00-30.25. Steam and hot air power "The Peanut" as it spins around in whatever direction its engineer wishes.

Revolving political machine

***"I would like to have complete authorization to reorganize the executive branch of government, giving me as much authority as possible."*— Jimmy Carter**

The remarkable thing about Jimmy Carter is that he continues to be able to talk out of both sides of his mouth, with much of the electorate allowing him to do so.

The former Georgia governor is apparently exceptionally shrewd — perhaps reasoning that many Americans' assessment of politics is so shallow that he can get away with his double-talk. When you get right down to it, it's a behavior pattern which insults both the public and the system.

Like a locomotive on a turning platform, Carter is perfectly willing to spin his views around in what ever direction he pleases. Mostly, however, he tends to swing to the left or liberal position.

The Democratic presidential candidate has become widely known during the past several months, and no one can deny that one of the traits he's known for is his "fuzziness on the issues." Carter has been trying to hide his vagueness behind that big smile, undoubtedly his best known trademark.

If the real Jimmy Carter has actually emerged by this time, then what we have, basically, is a candidate who embraces liberal, socialistic policies. But when confronted with an audience which might not accept this line of thinking, Carter carefully tailors his talk to suit voters at the other end of the political spectrum That tactic was highly evident at the Democratic National Convention when he gave his acceptance speech. With one breath he'd make statements which would appeal to conservative Republicans. And with the next he'd expand on his "position" a bit and come close to contradicting himself. Quite often that is exactly what he has done.

One example of his boldness in saying one thing today and another tomorrow is his remark about there being too much power concentrated in Washington. We've all heard that from him many times. Yet, note this direct quote from the man who likes to engulf himself in the honest and practical image of the farmer:

"I would like to have complete authorization to reorganize the executive branch of government, giving me as much authority as possible."

Ironically, he criticizes Nixon for having had too much power in the White House.

And while referring to President Ford as a latent chief executive in one speech, he'll cut him down in the next as one who uses the veto too much.

Jimmy Carter may not be able to make up his mind on what he wants to say. But I've made up my mind on how I'm going to vote.

To possibly help the undecided make up their minds, Carter offers this advice:

"If I tell a lie, make a misleading statement, avoid a controversial issue, or betray your trust, don't support me."

Don't worry, Jimmy, I won't.

TO PLAN FALL FERTILIZATION

Alot of farmers are probably wondering whether or not they should fertilize their alfalfa this fall.

Well, you should think about this question like you do your own bank account.

We all like to keep our bank account balanced, and we should do the same to our soil "bank account."

For example, how much alfalfa did you remove this year?...Three tons per acre?...Four tons per acre?

Well, for each ton of alfalfa you removed, you also "withdrew" about ten pounds of phosphate and fifty pounds of potash from your soil "bank account." So if you harvested four tons per acre, you have removed forty pounds of phosphate and two hundred pounds of potash from each acre.

So, to keep your account balanced, you would have to apply about six hundred pounds of 0-10-30 per acre. If you don't apply these plant nutrients, you'll have reduced your soil "bank account" by the amount removed.

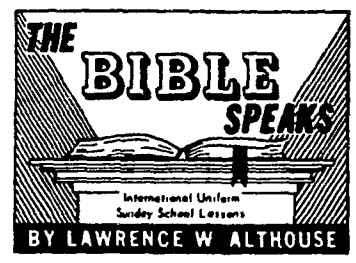
xxx

TO BE SAFETY MINDED

The busy fall season always brings an increase in farm accidents. This is caused by farmers using a lot more equipment and by rushing through one job to get to the next one. I would like to give you a few suggestions to help you prevent your next accident.... First, be sure your equipment is on good working order; also be certain all protective shields are in place before you start the engine. When you feel tired and sleepy, stop for a glass of ice tea or cold water and walk around your equipment several times; you may even spot a loose bolt or belt.

Never allow anyone to ride on the open cab with you, and when traveling on the highway, be sure to use the slow-moving vehicle emblem and flashing lights. The most important factor is to be

[Continued on Page 11]



THE YOKE

Lesson for September 19, 1976

Background Scripture: Galatians 4:8 through 5:12.

Devotional Reading: I Corinthians 6:12-20.

I have read that in the first few months following India's independence from Great Britain thousands of people in India attempted to ride the railways without paying. They had assumed that when at last they were granted their freedom, those things that had been owned and operated by the British would be free!

This experience has been repeated in many formerly colonial lands that have gained their independence. In many parts of black Africa, for example, the Swahili word **uhuru** (freedom) seemed to promise a liberty that political independence cannot deliver. When at last they would receive **uhuru**, they assumed, all their problems would vanish. But with **uhuru** they found that they had exchanged one set of problems for another.

Set Free of Freedom

Children also are likely to experience this as they grow toward maturity. They long for that day when there will be no one to tell them what to do, when they can do quite what they please. Yet, as they mature and gain more independence, they find that there is never a time when our freedom is complete. We always live within a system of some restrictions.

A little girl was observed by a neighbor as she circled the block several times with a small overnight bag. "What are you doing?" asked the neighbor with a smile. "I'm running away!" snapped the little girl as she hurried along. Minutes later she was back again from the opposite direction and her neighbor called to her: "If you're running away, why do you keep going around the block?" Fixing her with a look of threadbare forbearance, the little girl retorted, "Because I'm not allowed to cross the street!"

Concepts of freedom are often like that: often when we think we are quite free we are still very much in bondage. This was the situation with some congregations in the early church. Despite the liberating message of the Gospel of Jesus Christ, they were still in bondage to religious legalism. It was to these people that Paul exclaimed with such passion: "For freedom Christ has set us free, stand fast therefore, and do not submit again to a yoke of slavery" (Galatians 5:1).

Submitting Again

The problem with most "yokes" is that we are unable to see them when they are about our necks. We think we are free but in many areas of our lives we may be operating from unconscious compulsions: to eat too much, drink too much, spend too much, play too much, work too much, worry too much, etc. We may be in bondage to our own attitudes, habits, appetites, prejudices and emotions.

To put it still another way, what or who is in the driver's seat in your life? What drives you, what shapes your way of life, what controls what you think, do and say? It may well be that you whom Christ has set free for freedom have simply exchanged one yoke for another.

Livestock market and auction news

Middleburg

Middleburg, Pa.

TO INTRODUCE CORN SILAGE GRADUALLY

Dairymen can avoid corn silage feeding problems by gradually introducing their cows to corn silage. Both the rumen and the lining must adjust to a major change in ration such as the introduction of new corn silage. This may require a period of 2-4 weeks or more.

This means that corn silage should be fed in limited amounts when silos are first opened. Start with levels of 20-30 pounds per head daily and increase gradually to a full-feed at the end of several weeks. Less digestive problems and fewer production slumps may occur when this practice is followed.

Under normal circumstances silage is ready for feeding within 8-14 days after ensiling. One of the main problems that happens when feeding too early is that the silage is in the heating stage. This can reduce intake and may make the animals more susceptable to digestive problems.

TO WATER SHALLOW ROOTED PLANTS

The plants with shallow roots - such as azaleas, rhododendrons, mountain laurel and flowering dogwood need frequent waterings. And it's a good idea to continue watering these plants on a regular basis until the ground freezes in the fall.

A shallow-rooted plant has most of its root system in the upper three to five inches of the soil. Since this is the first layer to dry out, it's very important that the plants receive at least an inch of water each week throughout the season.

Also, the more water your plants can take up before the ground freezes, the better they will withstand the winter conditions. Keep in mind that when the ground does freeze, there will be no free water for the plants to take up. But even though the ground is frozen, the parts of the plant above ground will continue to lose water. For this reason it's important to have as much water in the plants as possible before winter sets in.

Sheep shown for second year at Solanco Fair

By JOANNE SPAHR

QUARRYVILLE — This was the second year for showing sheep at the Solanco Fair. Approximately 60 head were entered with the majority of exhibitors coming from York and Chester Counties. Only three competitors were from Lancaster County.

The results of the show were as follows:

OPEN CLASS
Market Lamb

Lightweight market — 1. Jimmy Jefferies, 2. Tom Muller, 3. Deb Lau; Heavyweight — 1. Linda Ebaugh, 2. Jimmy Jefferies, 3. Mark Ebaugh; (Dorset) Ram Lamb — 1. John Zander, 2. Rob Zander; Yearling ewe — 1. Robert Zander, 2. John Zander; Ewe lamb — Jim Jefferies, 2. Robert Zander.

BREEDING SHEEP
Hampshire

Yearling lamb — 1. Robert Ambler, Jr.; Ram lamb — 1. Tom Muller, 2. Robert Ambler; Ewe lambs — 1. Tom Muller, 2. Donna Stoltzfus; Pen of lambs — 1. Tom Muller; Flock — Tom Muller.

Shropshire

Yearling ram — 1. Ernest Barrett; Ram lamb — 1. Mark Ebaugh, 2. Ernest Barrett; Yearling ewe — 1. Mark Ebaugh, 2. Fred Keys; Ewe lamb — 1. Christine Ambler, 2. Mark Ebaugh.

Pen lambs — Mark Ebaugh; Get of sire — Mark Ebaugh; Flock — Mark Ebaugh.

Suffolk

Ram Lamb — 1. Linda Ebaugh, 2. Donna Stoltzfus; Yearling ewe — Linda Ebaugh; Ewe Lamb — Linda Ebaugh; Pen of lambs — Linda Ebaugh; Flock — Linda Ebaugh; Get of sire — Linda Ebaugh.

South Downs

Ram lamb — Deb Lau, 2. Sarah Lau; Yearling Ewe — Deb Lau.

4-H and VOCATIONAL SHEEP
Fitting and Showmanship

Third year fitting — 1. Fred Keys, 2. Deb Lau; Third year showmanship — Linda Ebaugh, 2. Fred Keys.

First and second year club fitting

1. Denise Ambler, 2. Ernest Barrett; First and second year showmanship — Pam Jefferies, 2. Ernest Barrett.

Market Lamb

Lightweight — 1. Jimmy Jefferies, 2. Tom Muller; Heavyweight — Linda Ebaugh, 2. Jim Jefferies; Pen of lambs — Jim Jefferies, 2. Tom Muller.

Breeding Sheep
Dorset

Ram lambs — 1. John

[Continued on Page 13]

Robert Ambler, Jr., Cochranville (left), took the top Hampshire honors at the Solanco sheep show on Wednesday. Tom Muller, Delta (right), had the reserve champion Hampshire.

Brothers John and Robert Zander took the grand champion Dorset ram and reserve grand champion Dorset ram of the Solanco sheep show. John, left, had the champion Dorset, and Robert had the reserve champion. Two of Lancaster County's three participants in the sheep show, they are from Kirkwood.

The champion Shropshire ram was shown by Ernest Barrett, Cochranville R1 (left). Reserve champion honors went to Mark Ebaugh, Delta R2.

[Continued from Page 12]

Zander, 2. Robert Zander; Yearling ewe — Robert Zander, 2. John Zander; Ewe lamb — Jimmy Jefferies, Pair ewe lambs — Jimmy Jefferies.

Hampshire

Ram lambs — 1. Tom Muller, 2. Robert Ambler, Jr.; Aged Ewe — Robert Ambler, Jr., 2. Tom Muller; Ewe lamb — Tom Muller, 2. Donna Stoltzfus; Pair lambs — Tom Muller.

Shropshire

Ram Lamb — Mark Ebaugh, 2. Ernest Barrett; Aged Ewe — 1. Ernest Barrett, 2. Christine Ambler; Yearling ewe — 1. Mark Ebaugh, 2. Fred Keys; Ewe lamb — 1. Christine Ambler, 2. Mark Ebaugh; Pair lamb — 1. Mark Ebaugh.

South Down

Deb Lau took all titles.

Suffolk

Linda Ebaugh took all titles.

The Champions

Champion showman — Linda Ebaugh; Champion fitter, Fred Keys; Dorset champion ram — John Zander; Dorset reserve champion ram — Robert Zander; Dorset champion ewe — Robert Zander; Dorset reserve champion ewe — Jimmy Jeffers.

Hampshire champion ram — Robert Ambler, Jr.; Reserve champion Hampshire ram — Tom Muller; Champion Hampshire ewe — Tom Muller; Reserve champion Hampshire ewe — Robert Ambler, Jr.

Champion Shropshire ram — Earnest Barret; reserve champion Shropshire ram — Mark Ebaugh; Champion Shropshire ewe — Mark Ebaugh; Reserve champion Shropshire ewe — Christine Ambler.

Champion Suffolk ram — Linda Ebaugh; Reserve champion Suffolk ram — Donna Stoltzfus; Champion Suffolk ewe — Linda Ebaugh; reserve champion Suffolk ewe — Linda Ebaugh.

Champion Southdown ram — Deb Lau; Reserve champion Southdown ram — Sarah Lau; Champion Southdown ewe — Deb Lau.

Michelle Stone, champion first year showman.

Martha Bates, champion junior showman.

Leigh Martin, champion senior showman.

Chester - Del. Co. lambs shown

WEST CHESTER - The Chester-Delaware County 4-H Sheep Show was held Sept. 10 at Rosetree Park, Media with approximately 35 4-H members exhibiting six breeds of sheep. Michele Stone, Pottstown, was named champion first year showman with Martha Bates and Leigh Martin, both of Delaware County named champion junior and senior showman respectively.

Robert Holmes, Oxford, exhibited the champion commercial ewe and John Arrell of Lincoln University showed the champion Cheviot ewe.

In the Dorset breed competition champion ewe was shown by Kathleen Baroni, Downingtown, with her brother Jeff Baroni showing champion Dorset ram and first place pair class.

In the Hampshire breed competition David Lytle, New London, exhibited the champion ewe and ram, as well as the first place pair.

In the Shropshire competition Allan Soulliard, Steeleville, exhibited the champion ewe while Martha Bates of Delaware County took the reserve champion honors. Champion and reserve ram were shown by Eddie and Andrea Connell of West Grove.

In the Suffolk competition, the champion ewe was shown by Susan Hastings with reserve going to Nancy MacCauley of Newton Square. In the ram competition, the champion ram was shown by Billy MacCauley of Newton Square, with reserve champion shown by Mimi Martin of Delaware County.

A blocking contest for junior and senior members was held as the concluding event of the day, with 13 4-H members participating. First place junior blocker was Martha Bates with Karen Blumenthal of Chester Springs taking the senior honors.

Judge for the show was Robert Herr of Narvon. All blue ribbon winners of the day will be eligible to compete in a regional show on Sept. 25 at Kimberton Fairgrounds in which 4-H members from Chester, Delaware, Bucks, Montgomery, Berks and Lehigh Counties will be participating.

Cindy Knight

She likes Holsteins and farm life

By DIETER KRIEG

YORK - Cindy Knight isn't overly enthused about turning 19 years of age soon. A part of her life which she has enjoyed greatly over the years is coming to an end.

An enthusiastic member of the York County 4-H organization for the past nine years, Cindy will have to give up her membership at her next birthday.

One of the primary reasons the 18-year old daughter of Mr. and Mrs. George Knight, Woodbine, has enjoyed 4-H so much is because it has allowed her to develop skills in cattle showing and judging and she has had opportunities to meet lots of people who share her interests. The part she likes best about showing cattle is, in fact, the competitive factor and seeing how her animals stack up against those of friends and neighbors.

Cindy Knight ends a memorable part of her life this year. Soon to be 19, she'll be ineligible for 4-H dairy show competition next season, but she says enthusiastically "I'm not going to quit showing cows."

Cindy Knight is probably one of the most accomplished 4-H dairy club members York County ever had. She has won her share of trophies and ribbons, to say the least, but on Wednesday she really outdid herself.

That was the day of the 4-H dairy show at the York Fair. Cindy exhibited the grand champion, reserve grand champion, and junior champion all in the same show. That was the best she has ever done in the 4-H show at the Fair, here.

"I've always liked cows and love showing," the dark-haired young lady commented with a smile. Although she will soon be ineligible for 4-H competition, she proclaimed "I'm not going to quit."

One would think that with such enthusiasm for dairy cattle that Cindy would love farm life - and she does. "I would not live anyplace but on a farm," she affirmed. "I sure could not live in a city, there's nothing I don't like about the farm."

A distinguished judge on York County's dairy cattle judging team for three years in a row, and with some first-places to her credit, Cindy owns 20 registered Holsteins on her father's farm. On weekends she might be found in the parlor helping to do the milking and related chores. During the week, however, she travels back and forth to Red Lion, where she is employed as a secretary at the Red Lion Transport Co.

not match his actions. Perhaps that is why even with considerable compulsion, only about 23 percent of the eligible American work force has joined a labor union of any kind."

Grant condemned as "silly" union make-work practices and prohibitions against improvements in machinery or methods. "Where would this nation be if farmers and ranchers insisted upon driving food prices up by using oxen or horses instead of tractors; hand sickles and flails for harvest instead of combines? This country would be a nation of peasants. We would be buying grain instead of selling it, as is true in Russia."

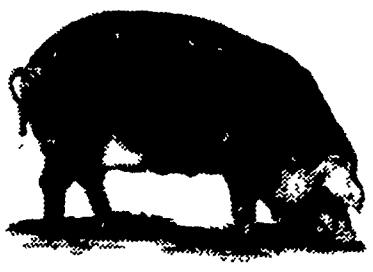
Grant told his audience that George Meany, along with other labor union leaders, have nothing to fear from allowing unions and their leaders truly represent the workers' best interests.

"That this is questioned by many workers is revealed by a nationwide study showing that 75 percent of all people in this country say they feel a worker should be able to hold a job whether or not he belongs to a union," Grant said.

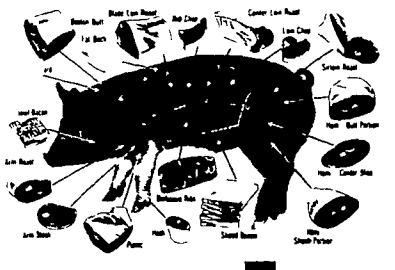
He added: "We hold that the Constitution of the United States guarantees to each individual the freedom to engage in worthwhile work, and that this freedom is not contingent upon paying homage in the form of union dues...."

The farm leader said that farmers and ranchers oppose the repeal of Section 14-b, and that states should have the right to enact legislation respecting and protecting the individual's freedom to join or refuse to join a union.

Longevity - and the successful farmer



HOGS ARE MONEY MAKERS



Hog production has returned a profit more consistently over the years than any other enterprise in the field of animal agriculture. While the hog industry has experienced up and down cycles as a result of producer response to market situations, the production of slaughter hogs has been profitable on the average in 16 of the last 20 years. Pigs have long been recognized for their ability to efficiently convert grains into a marketable end-product of greater value. Pork production has been a major source of income on many U.S. farms.

Pork production remains a sound, money-making farm enterprise that has potential for future expansion. Some of the major advantages of hog production compared to other types of meat animal production are as follows:

1. No other meat offers as many merchandising alternatives as does pork. This merchandising flexibility is a key to marketing large pork supplies.

2. A market hog will yield a high percentage of its carcass weight in high priced cuts. These cuts are the ham and loin which make up as much as 48 percent of a meat-type hog carcass.

3. Hogs are prolific animals, which means that their numbers can be expanded rapidly.

4. Hogs are efficient converters of feed into edible meat and can be profitably produced where adequate grain supplies are availalbe.

Many pork producers still have not reached the full productive potential of their hog operation and thus limit their hog production capacity and profit capabilities.

Go with the established leaders, who have the knowlege, experience, programs and expertise. We would like the opportunity in assisting you, accomplish your hog production goals

Anderson advances at Holstein show

There wasn't a bad one in this bunch. This is all Carl Anderson III entered in the York Fair's Open Holstein Show, and they all came up as winners. Anderson is the son of Mr. and Mrs. Carl Anderson, Jr. of Spring Grove.

Paul King and his grand champion of the Open Holstein Show at the York Fair.

By DIETER KRIEG

YORK — The odds were against Carl Anderson even winning one first place, if one figures strength strictly in terms of numbers. With just three animals at the Fair, and the best Holstein breeders in York County represented, one might think that an 18-year old student has little chance to come up with a winner.

Carl Anderson didn't come up with a winner. He came up with three — and in a big way.

The young man from Spring Grove had the first-place 2-year old, the first and second place 3-year olds, the reserve grand champion, the second-place dairy herd, and the cow with the second-best udder.

The son of Mr. and Mrs. Carl Anderson, Jr., Carl is currently a student at Penn State's York campus. With animal sciences as his major field of study, he hopes one day to enter a career in either dairy farming or veterinary medicine. In addition to his studies, young Anderson helps out at his home farm regularly. Even while attending college, he milks the family's herd of 50 cows morning and evening. Furthermore, he helps out with field work whenever he can.

Cows and dairy farming are Anderson's main interests, which might explain why he's such an accomplished showman. "I like registered Holsteins a lot, I enjoy farming and working with cows," he remarked Thursday night. Asked if there might be anything he does not like about farming, Anderson grinned broadly and answered "no," and with the same smile added, "I guess when you have good cows like that, it makes it a little better."

Anderson's reserve grand champion, a daughter of "Round Oak Rag Apple Elevation," placed second to a cow exhibited by Paul and Cathy King of Delta.

The junior champion of the show belonged to Cindy Knight, while the reserve honors in that division went to Rodman Thompson.

More than 1700 head of livestock were at the York Fair this year, with registered Holsteins strongly represented.

Following are more detailed results of the Open Holstein Show, held Thursday at the York Fair:

Junior Calf

1. Phillip Laughman, Thomasville; 2. Leroy and Joyce Bupp, Seven Valleys; 3. David King, Delta; 4. Rodman Thompson, East Berlin; 5. Kevin Laughman, Thomasville; 6. Jeff and Brett Ritter.

Intermediate Calf

1. Woodbine Farms, Woodbine; 2. Tom Boyer, York; 3. Clarence and Ray Kramer, Mechanicsburg; 4. Russell Miller, Tamaqua; 5. Tom Welsh, East Berlin; 6. Beverly Brown, Delta.

Senior Calf

1. Rodman Thompson, 2. Braden King. Boonesboro, Md.; 3. Kevin Laughman, Thomasville; 4. Woodbine Farms; 5. Marion Benedict, 6. Leroy and Joyce Bupp.

Junior Yearling

1. Peter King, Delta; 2. Paul and Cathy King, Delta; 3. Tom Boyer, York; 4. Clarence and Ray Kramer; 5. Kelly Sue Krebs, 6. Russell Miller.

Senior Yearling

1. Woodbine Farms, 2. Tom Boyer, 3. Paul and Cathy King, 4. Leonard Greek, Delta; 5. Ellis Crowl and family, Airville; 6. Patricia Greek, Delta.

Best Junior Female

1. Woodbine Farms, 2. Woodbine Farms, 3. Tom Boyer, 4. Philip Laughman, 5. Tom Boyer, 6. Leroy and Joyce Bupp.

Junior Champion

Cindy Knight, Woodbine Farms.

Reserve Junior Champion

Rodman Thompson.

Jr. Get of Sire

1. Woodbine Farms, 2. Tom Boyer, 3. Russell Miller, 4. The Philip Stambaugh family, 5. The Ellis Crowl family.

3 to 4 year old Dry Cows

1. Rodman Thompson, 2. Leroy and Joyce Bupp, 3. Paul and Cathy King, 4. Paul and Cathy King, 5. Woodbine Farms, 6. Braden King.

Aged dry Cows

1. Paul and Cathy King, 2. Woodbine Farms, 3. Philip Stambaugh family, 4. Clarence and Ray Kramer, 5. Woodbine Farms, 6. Philip Stambaugh family.

Two Year Olds

1. Carl Anderson, 2. Philip Laughman, 3. Leroy and Joyce Bupp, 4. Woodbine Farms, 5. Leroy and Joyce Bupp, 6. Woodbine Farms.

Three Year Olds

1. Carl Anderson, 2. Carl Anderson, 3. Paul and Cathy King, 4. Paul and Cathy King, 5. Clarence and Ray Kramer, 6. Rodman Thompson.

Four Year Olds

1. Paul and Cathy King, 2. Leroy and Joyce Bupp, 3. Rodman Thompson, 4. Leroy and Joyce Bupp, 5. Dennis McWilliams, 6. The Philip Stambaugh family.

Aged Cows

1. Paul and Cathy King, 2. Woodbine Farms, 3. Paul and Cathy King, 4. Woodbine Farms, 5. Ann Miller, 6. Leonard Greek.

Best Senior Female

1. Rodman Thompson, 2. Paul and Cathy King, 3. Woodbine Farms, 4. Paul and Cathy King, 5. Woodbine

Juan Manuel Fernandez, visiting dignitary from Venezuela, was escorted to the Solanco Fair by Jay Irwin, (left), county agent, and Mike Lynch, (right) coordinator of staff development for Penn State's extension staff.

Cindy

Continued from Page 15)

Cindy is a 1975 graduate of Kennard-Dale High School and vied for the York County dairy princess title last year. In addition, she was named captain and outstanding volleyball player of her high school's team, was the prom queen, has held just about every office in the York County 4-H organization.

Having shown her prized Holsteins at every level, including the Nationals, Cindy might have an idea as to what to look for in a cow. According to her, it's the "big, upstanding, powerful cow, displaying a lot of dairy character and having a beautifully attached udder" which makes the grade. Futhermore, the animal should stand on a good set of feet and legs.

Not all of the Airville 4-H'ers moments have been illustrious and happy. Her first 4-H project, for example, turned out to be a grand champion, and as is the case with all her animals, she fell in love with it. This one, she remembered was her favorite. The experience came to an unhappy ending when, at age 8, her cow wouldn't breed. Weighing 1950 pounds, Cindy reluctantly agreed to part with her.

Most of Cindy's experiences and recollections are happy and memorable, however, and she has an optimistic outlook for the dairy industry as a whole.

The dairy industry will always have a good place in this world because milk is Nature's most nearly perfect food, she agreed.

Fair

(Continued from Page 1)

downfall, and by Thursday morning it was pouring.

Regardless of the inclement weather, the day's agricultural events went on as planned. The cattle tents became the show rings for the colored breed judging and the evening baby beef show.

The show to suffer the most from the drenching was the swine show. That particular tent was situated in a gully and the runoff from the higher elevated areas created a steady stream through the middle of the tent.

But, by evening the rain had slacked off enough for a large crowd to gather for the exhibition of the 4-H and FFA Baby beef show.

On Friday, the rescheduled baby parade went on "rain or shine."

ANTI-POLLUTION PRODUCTS

ORGANIC FERTILIZER is coming into prominence fast because of necessity. Without it there is too many bugs, blights, soil compaction and bad effects of poisonous sprays in the consumer including your livestock. Organic farmers with many older and newer products have more nutritious crops at less overall cost.

A natural mineral with enzymes and amino acids, mined in Oregon is both a terrific soil balancer and excellent livestock feed. A very little manure or nitrogen with it works wonders for big healthy crops. Great for healthy livestock and poultry-cage fatigue, mortality, vent picking, (no debeaking needed) swine diseases (no medication needed), afterbirth retention, etc. Saves about 15 percent to 30 percent on feed consumption, no kidding.

A new stabilized enzyme sprayed on the soil greatly and quickly improves poor soil, clay and wet soggy soils which bake later. Dries up swamps, yet makes soil hold moisture; a miracle but so is nature. Dealers wanted for above products.

Electronic seed treatment is also a crop improver, especially roots, protein, feed value. Done at Edgar M. Martin's farm near New Holland. Phone 717-354-9917 for appointment.

Lactobase and Agriserum are excellent and proves seed treatments for big roots, more nutrition and protein in crops, soil improvement. Multiply precious soil life and earthworms fast at very little cost.

With only Lactobase and Agriserum and trace minerals as fertilizer for 5 years, I got from 10 acres, over 600 bushels Triticale, a cross between wheat and rye. I cleaned it and sell for $6.00 a bushel. A vigorous grower, tall straw and extra high protein for livestock feed.

Organic produce companies are co-operating for a large Organic produce buying center possibly in New Holland next year. To qualify, keep the chemicals off the land and the children on the land where they belong and not take away jobs from town people. You can raise high quality with my products especially if applied earlier than planting time.

AGWAY

Get the Rigid-Rib® extras at Agway

There's more than one reason why Agway offers Republic Rigid-Rib steel roofing in its line of building supplies.

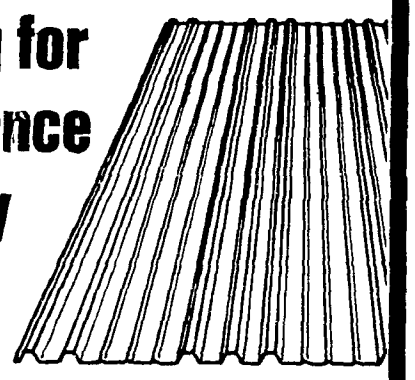
It's extra dry, with a positive, self-draining channel design that prevents moisture seepage.

It's extra easy to install too, available in long, wide strips that makes the job go more quickly and easily.

And it is extra attractive.
The distinctive Rigid-Rib design looks good on almost any style of farm building.

You'll find Rigid-Rib and a most complete line of other building supplies and barn fittings at Agway.

You can't beat Alcoa® Super Temper Rib® in agricultural roofing and siding for
- performance
- durability
- cost



Super strong . . more walk-on strength. Beam strength design supports heavy snow and wind loads

50% higher ribs . . . snug fit at the laps. Anti-siphon design discourages leaks, even in driving rain

Easy handling. lightweight so one man can handle it Easy forming, cutting and fitting speeds up construction

Fast nailing and fitting. embossed satin design and strong high ribs minimize denting, dimpling and bulging when nailing

Reach-across cutting convenient 36" width makes cutting or sawing a breeze No long stretches to fatigue workers

Super Temper Rib

Purlin spacing (in.)	Allowable uniform load (lb/sq ft) (1 95 safety factor against failure)	
	Single sheet covering one or two spans	Single sheet covering three or more spans

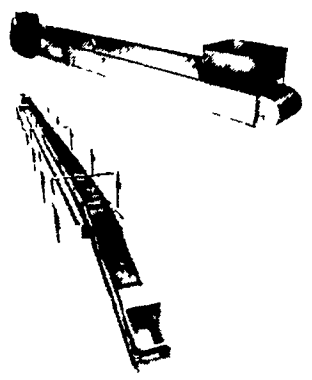
PATZ

MODEL 101 FEEDER AND CONVEYOR

Here's why the 101 is becoming Patz most popular feeder

- Feed can be deposited anywhere along the feeder
- Feed is distributed along the bunk from above by a conveyor with a tapered bottom
- Can be used inside or outside
- Chain and flites move at 117 feet per minute delivering up to 56 bushels of feed to the bunk each minute
- Can elevate, feed, and convey with optionals
- To fit your requirements, the 101 can feed in one or two directions, convey and feed in one or two directions, or just convey



Feature for feature that's why farmers are selecting the Patz model 101 feeder and conveyor

Introducing "LE-DEL"

LE DEL" is our highest proven Bootmaker son and out of an Ex-ellent cow with records to 23,000 lbs. milk. Le-Del daughters are harp, dairy and average in stature. The fore udders are strong and rm in attachment, and the rear udders are medium in height with a ug attachment. Some dairymen call "Le-Del" udders similar to se sired by Bootmaker.

How to improve Silage Mileage

The nutritive value of Corn Silage

The two most important factors in determining value are the stage of grain maturity at harvest and the efficiency of the storage system. Both contribute significantly to the amount of dry matter per acre, digestibility and palatability of silage fed and degree of preservation of silage from field to feeding.

Corn Silage Maturity

All field, storage and feeding factors considered, the ideal harvest stage for corn silage is 65% moisture and lower. The plant has reached 90% to 95% of its potential dry matter yield and near maximum grain yield. However, harvesting your entire crop at the ideal moisture content is not always possible. With the Harvestore System you have the flexibility to harvest somewhat more mature silage and pick up the extra grain yield with minimal loss of other nutrients. Remember, with Harvestore you fill and refill any time to make full use of the growing season and full use of your Harvestore System!

Harvest management

It is very important to fine-chop corn to cut losses in silage feeding potential. A controlled length cut from ¼ to ⅜ inch is desirable. Knives need to be sharp and the shear bar adjusted to proper clearance for maximum cutting efficiency. Fine-chopped silage ferments quickly and is more completely digested by cattle.

Minimize storage losses

Even if you harvest efficiently and fine-chop your silage, you can still experience substantial losses in the storage of silage.

Dry matter and nutrition losses from excessive fermentation, heat, oxidation and seepage are highest in bunker or trench silos, as much as 30%. This means 30 acres out of every hundred are being wasted! While a conventional silo is somewhat more efficient, it still allows too much air to reach the stored silage resulting in substantial losses in the area of 12%.

That's why every livestock producer who values his silage should consider a Harvestore System. The oxygen-limiting "breather system" and bottom unloading features of Harvestore allows for maximum use of the growing season, maximum TDN fed to cattle and optimum silage quality Fermentation losses are in the 2% range. This is necessary for the production of lactic and acetic acid. In a Harvestore System this is where fermentation normally stops This is before the production of unwanted acids that "sour" the silage and before the mold growth begins. This is why Harvestore silage is "sweet"

Master Mix
Beef Starter Feeds
because travel's no fun for a steer!

Master Mix starter feeds are designed to provide the correct levels of medication from the first day your truck unloads. High palatability and carefully-balanced nutritional content help assure fast, trouble-free recovery from shipping stress.

And, because of the wide range of Master Mix beef starter feeds available, you don't have to adjust your way of doing things to our feeding program. Whether you feed in drylot or pasture, concentrate or complete feeds, top dress or grind and mix, shelled corn or corn-and-cob mix, there's a Master Mix starter program designed for you.

So make your feeders feel welcome and well; put them on a Master Mix medicated beef starter program — **because travel really is no fun for a steer.**

Let us show you the complete Master Mix feeding and animal health program soon!

French IFYE appraises America

By SALLY BAIR
Feature Writer

Therese Guyot is a petite dynamo of goodwill. Her accent is lilting and her blue eyes twinkle as she speaks. Her enthusiasm is immediately evident.

Therese hails from Brittany in northwestern France, and is living in Lancaster for two weeks as a participant in the International Four-H Youth Exchange (IFYE) program.

She is staying with Mr. and Mrs. Kenneth Greider, Conestoga R2, and is enjoying the peaceful quiet of rural Lancaster County after some hectic traveling prior to her arrival here.

Her understanding of English is good and she communicates her feelings with ease, with only occasional lapses into French as she searches her mind for the right translation. There is also infrequent thumbing through a well-used French-English dictionary which helps her choose just the right word.

Therese hails from a 15 hectare dairy farm in France where her parents milk about 15 black and white cows. They raise wheat, barley, sugar beets, cabbage and maize, but only enough for the cattle and themselves. She has a brother, 25, who lives at home and a sister, 23, who lives in Paris. Therese is trained to work with the mentally retarded and shares an apartment with a friend near the boarding center where she works.

Therese said she became an IFYE because she wanted to travel.

"I had worked for five years, and when you work with the retarded, it is very difficult; so I wanted a break," she explains. She met a friend who had been an IFYE and she attended a French national IFYE meeting. It was then that she decided to try to become one.

To get started she wrote to the national IFYE president, and even though the age limit is 25 and she is 26, they accepted her. But there was not enough money to pay her way. Since she had been working for five years, she had saved for the purpose of travel and had the necessary funds - about 3600 French francs.

Therese arrived in this country on June 26 and spent the first half of her visit in Montana, which she said was in great contrast to her home in France. She lived on a ranch near the Rocky Mountains and near Yellowstone Park. She said, "It was very new - the landscape and the people were so different." She also found the people in Montana "more friendly" than in Pennsylvania, but quickly added with emphasis that her host families here were "really warm." People in Montana also seem "laugh and smile more.

I really liked their mentality. They are very proud of living in Montana, and its bigness," she relates.

Nevertheless, she said she felt "a little alone" when she first arrived there because she was far from a large town and did not see many people.

Before coming East, Therese had eight days of free time in which she traveled in a camper with one of her Montana families to Seattle, where they stayed with relatives.

Then, she went alone to San Francisco. She said, "Before I left France I wanted to see San Francisco." In her opinion, the city is "too big, but it is very interesting and very special. There are so many different nationalities there. I do not like high buildings because I am a country girl. But it was a great vacation. My free time was very nice and very busy."

In Pennsylvania, Therese first lived with an urban family in Williamsport. She enjoyed them and is planning to spend part of her free time at the end of the program with them.

But she is especially enjoying her visit with the Greiders now, because the pace has slowed down and she is having a chance to catch up on her letter writing. She keeps a daily travel journal of her adventures.

While in Lancaster she is planning to visit an Amish family in Honeybrook where her French IFYE friend stayed. She is looking forward to the visit, and said she finds the Amish a most interesting group.

"They are so in contrast to what one expects to find in the United States. This country is very modern, yet they do not want these things," she commented." I do not understand how they can keep their traditions and religion. It is difficult for me to understand, but it is very beautiful and nice for them that they can be how they want and keep their way of life," she continued.

When asked about differences between French and Americans, she got out her dictionary which had been used once by her IFYE girlfriend and mentor, and searched out the word prejudice.

She said, "The people of France have many prejudices about the American people; they think Americans have much money, and drive big cars and live a very fast life."

Therese characterizes Americans as "humane." She said she has met families who are different and want to find other things in life than material wealth.

The American people, she said, "are very friendly, very generous and very open." She continued, "You like to know other people. It is very important that you are tolerant and respect others and try to accept them. The people here come from all different countries and different cultures, yet everyone can live how he wants."

She was very surprised to find so many different religions. And that people live their religions. To explain herself she commented, "You accept different thinking and are very tolerant. I am a Catholic, but only because my parents are Catholic."

Therese is also impressed with the forests in Pennsylvania.

She said, "The forests are very clean. You do so much to protect the environment. You try to respect the natural, and people here are concerned." She added that there are rivers in France so polluted that the fish are gone, and was impressed that even though a problem exists in this country, at least people are working on it.

One thing she was definite about is that American people "eat too much." Furthermore, she said, "Everyone in America thinks that French people all drink. Some drink and some don't."

She said she missed fresh vegetables and fruits during her Montana visit, but has eaten some very good food, especially in Pennsylvania.

She said she has also seen a lot of waste in food. With great expression she announced, "I never saw such big women as in this country." She was quick to add, "I have also seen many beautiful, slim women, but many heavy ones. I think they don't have anything to do but watch TV and eat."

Therese added, "We do not eat a big breakfast; usually only bread - toast, coffee, milk or tea. Lunch is the most important meal during the day. There is an entree with meat and vegetables and dessert. We eat supper much later than here - usually between 7:00 and 7:30 p.m. In my home my parents eat 8:00."

Therese spent two years learning to work with the mentally retarded, and she has plans to visit an Intermediate Unit 13 class here. In Williamsport she saw a special education class and said, "I find your system good. Here the retarded can go with normal children and have special classes in the same building. We don't have classes in the same school; almost all of them are in boarding centers."

While Therese formerly belonged to a Catholic Young Farmers Club, she said there is no exact equivalent of 4-H clubs in France. She is impressed with 4-H here, noting that it teaches responsibility. She added that she had seen 4-H dress revues as nice as Paris shows.

The IFYE program is sponsored by the National 4-H Club Foundation. Two youths from France came to the United States this year, and Therese mentioned a fact that is not well known to many here. Whereas IFYE's from this country can travel to nearly 40 countries, IFYE's in other countries come only here. Therese said she thinks it would have been interesting to travel to South America, the Orient, or India. But, "I am very happy to be here," she admitted.

Therese feels that IFYE is a good program. She is glad to be an IFYE.

"For me, being an IFYE has been a good experience," she says. "I've always wanted to travel. To me, the best way to know a country is to live with families, to understand people, to communicate with people to learn something." Here she added, "I have learned a different way of life." She plans to share what she's learned through slides when she returns.

Therese has traveled throughout Europe, but she said, "I never met the people - tourists just don't meet people."

Although she is not anxious to return to France so soon, her IFYE prgram experience is finished on October 21. From Lancaster she goes to Palmyra in Lebanon County and then she has 10 more days free time. Part of that time will be used to visit Janice Yaple, a Pennsylvania IFYE to France who lives near Altoona. With Janice she hopes to travel to the Niagara Falls.

Mrs. Greider, who is a 4-H leader for the Penn Manor 4-H club, said, "It has been delightful having Therese visit. She is not an IFYE; she is a daughter."

There are six Greider children: Cindy, 21, and Karen, 19, both living away from home: Kenny, 14; Missy, 10; Joan, 7½; and Krista, 5. Therese is very popular when she reads to the young ones from children's books. And a "Welcome Therese" sign in the front window expresses their pleasure in playing host to her.

Summing up her life over the past few months, Therese said, "Yes, I am different now. I think I have changed." As an ambassador of peace and understanding, her warm smile and keen interest changed other lives as well.

HOMESTEAD NOTES

Therese takes advantage of the solitude of the Greider home near Conestoga and writes in her journal.

Joan (left) and Krista listen attentively as Therese reads from a child's book.

Ida's Notebook

Ida Risser

It is just natural, I suppose, for dairy farms with a large livestock population to have more than their share of animal health problems. A cow is sick and, despite visits from a veterinarian, it dies. Then some calves die or are stillborn.

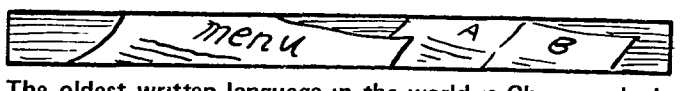
But lately, we've had pet problems. Just going to a small animal veterinarian's office is an experience. You sit there and wait your turn and then hear "Buster Risser" called for or "Kitty Kat Kauffman." They are then examined as carefully as children. Our puppy apparently got tetanus or lockjaw and was quite stiff and couldn't eat. This disease perplexed the doctor as he told us dogs don't usually get this disease. So, Buster spent one week in the animal hospital.

Late one Sunday night, someone from town brought us a 'Holstein' cat. I just call it that because it is black and white. Cindy calls it "Muffin." This is a friendly cat but it spends most of its time on the porch roof or high in a spruce tree meowing for help to come down. Usually, Cindy opens her bedroom window and gets it that way but I tell her that only encourages it to climb again. The other day she got a wasp sting on the lip while helping it off the roof.

xxx

My back porch is so full of baskets of fruit and vegetables that I almost don't know which ones to process first. Then, to add to the accumulation, our son Kenneth brought a bushel of Concord grapes from a friend in Chester County.

Well, it took me one day to turn them into grape juice, grape sauce, and grape jelly. Of course, I also had to cook meals for seven people, as most of our children came home to help their Daddy fill silo. Actually, it turned out to be a 'repair the machinery' day.



The oldest written language in the world is Chinese which is over 3,300 years old!

Society 10

Society of Farm Women 10 met at the home of Mrs. Abram Miller with the president, Mrs. Jay Habecker, presiding.

Doris Thomas, extension home economist, spoke on the subject of "Safety in the Homes."

A donation will be given to the International 4-H Club.

The Society will sew at the General Hospital on Thursday, October 14, from 9 to 2 o'clock.

Society 23 will entertain Society 10 at the Mountville Brethren-in-Christ Church on Tuesday, September 14, at 7:30 p.m.

The next meeting will be held at the home of the president on October 2 at 1:30 p.m. This meeting will include the annual auction.

Some people once believed that the first farmer to feed his cattle on New Year's Eve would have healthy animals all year long.

Know Where the Activities Will Be?

Maryland 4-H'ers score at Timonium

TIMONIUM, Md. - Upper Bay area teen-agers swept virtually all of the top placings in mechanical skill contests which closed out a week of 4-H activities at this year's Maryland State Fair here.

Walter Johnson, 17, of Forest Hill won the twenty-ninth annual 4-H tractor operators competition on Sept. 3, marking the second successive victory by a Harford county resident. Last year's winner was David Stewart of Whiteford.

Kenneth Dudkewitz, 16, of Elkton placed second in both the 1975 and 1976 statewide 4-H tractor-driving events. But he placed first in the senior division of this year's second annual 4-H garden tractor contest on Sept. 2. The event was held in the dairy judging pavilion at the fairground because of inclement weather.

Junior division winner in the garden tractor competition was Gary Swope, 13, of Conowingo.

Edsel Crouse, Jr., 17, of Bel Air was the top boy contestant in this year's 4-H automotive care and safety contest, held Sept. 2 at the Maryland State Fair. Janet Hofler, 19, of Phoenix was the first-place girl contestant.

Miss Hofler teamed with Steven L. Wilson, 17, of Parkton to win the team title for Baltimore County.

Individual senior winners in the statewide tractor operator, garden tractor and automotive contests will represent Maryland in the Eastern U.S. 4-H Engineering Event on Sept. 28. That competition will be held at Richmond, Va., in connection with the Atlantic Rural Exposition.

Harford County's David Stewart won last year's regional tractor operator contest at Richmond, marking the eighth time in 25 years that a Maryland 4-H member had won that event.

TIMONIUM, Md. - Baltimore County continued as a powerhouse in 4-H consumer judging competition last week (Sept. 3) at the Maryland State Fair here. But two southern Maryland counties - Anne Arundel and Charles - made inroads into the traditional domination of this event by central Maryland teams.

Representatives from Baltimore County won top team honors in the senior division for the fourth consecutive year. They were the only repeat champions from 1975 competition.

Members of Carroll County's junior champion team from last year moved into the intermediate division this year, on the basis of age categories, and again captured their divisional championship.

Total number of teams and contestants was down markedly from previous years, but the number of boys participating appeared higher. Best showing by a boy was John Huffington, 14, of Churchville, who placed eighteenth in the intermediate division - outscoring his sister, Pam, 15, who participated in the senior division.

Purpose of the consumer judging contest, as in past years, was to help 4-H members learn to make wise decisions and become better buyers through recognition of good and poor standards, according to Mrs. Karen S. Wootton, a state Extension 4-H and youth program leader at the University of Maryland in College Park.

Top teams and individuals in each age bracket were as follows:

JUNIOR DIVISION
(9 to 11 year-olds)
(65 contestants from 15 counties)

Teams - 1. Frederick County; 2. Charles County; 3. Baltimore County.

Individuals - 1. Lisa Mangiafico of Myersville; 2. Kristi Wierer, Myersville; 3. Lisa Rudy of Gaithersburg; 4. Leah Knode of Hagerstown; 5. Anita Murphy of Ijamsville.

INTERMEDIATE DIVISION
(12 and 13-year-olds)
(70 contestants from 17 counties)

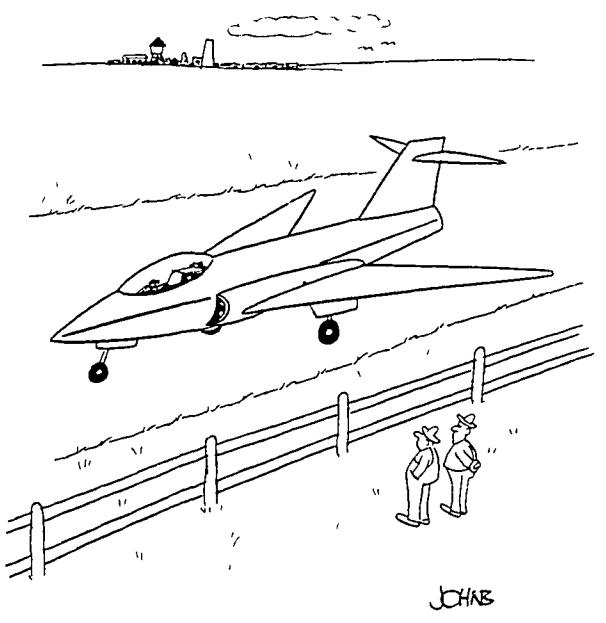
Teams - 1. Carroll County; 2. Anne Arundel County; 3. Montgomery County.

Individuals - 1. Kathy Young of Westminister; 2. Maria Giglio-Tos of Churchville; 3. Carol Conley of Centreville; 4. Glori Stifler of Glenarm; 5. Terry Rappoldt of Manchester.

SENIOR DIVISION
(14 to 19-year-olds)
(66 contestants from 16 counties)

Teams - 1. Baltimore County; 2. Howard County; 3. Washington County.

Individuals - 1. Robin Fritter of Catonsville; 2. Denise Bradfield of Parkville; 3. Vicky Huffman of Hughesville; 4. Lori Kelley of Clear Spring; 5. Jenny Schwanke of Abingdon.



" I DONT KNOW HOW BIG HIS RANCH IS, BUT THATS WHAT HE USES JUST TO DUST HIS CROPS "

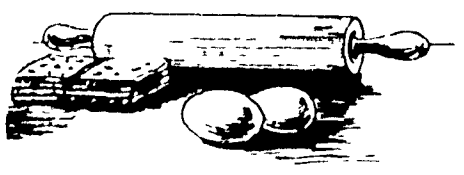
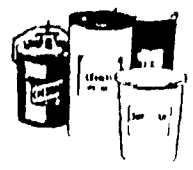
Home on The Range





This week is a clean-up of garden vegetable dishes. Now that summer is drawing to a close, several different types of recipes will be needed. The most obvious is apple recipes. So far, only one has reached our files and we are almost certain that there are many old fashioned and new fangled apple recipes out there that are family tested and delicious. If you have any and would like to share them with other LANCASTER FARMING readers, mail those recipes in care of LANCASTER FARMING, Box 266, Lititz, Pa. 17543. Recipe Department. Thank you and have a nice day.

Tomato Cake

½ cup margarine
2 cups sugar
2 eggs
2 teaspoons vanilla
2 cups fresh tomatoes
1 cup raisins
1 cup nuts
2½ cups flour
2 teaspoons soda
1 teaspoon salt
2 teaspoons cinnamon

Cook tomatoes; add raisins and let cool. Combine ingredients and beat. Bake in 9 x 13 inch pan for 35 - 40 minutes in a 350 degree F. oven.

Mrs. Elmer Wenger
Manheim, Pa.

xxx

Tomato Paste

8 quarts peeled, cored, chopped tomatoes
3 chopped sweet red peppers
2 bay leaves
1 tablespoon salt
1 clove garlic - optional

Combine ingredients. Cook slowly one hour. Press through sieve, continue cooking until thick enough to round up on a spoon - about 2½ hours. Stir often to prevent sticking or scorching. (You could also put this in an enamel roast pan uncovered or pyrex dish in a 275 degree oven until it is thick enough. There's less chance of sticking. This method can also be used to reduce catsup or apple butter.) After it is thick, pour into hot half pint canning jars. Top with hot canning lids, adjust caps and process in boiling water bath for 45 minutes. (Yield: about 9 half pints)

Extension Service

xxx

HOMEMADE CREAM OF TOMATO SOUP

4 cups cooked tomatoes (fresh or canned)
1 medium onion, chopped
2 ribs of celery - chopped fine
2 tablespoons butter or margarine
3 tablespoons flour
½ teaspoon sugar, if desired
4 cups milk, heated
1 teaspoon salt

Cook vegetables together till tender - about 30 minutes. Press through sieve or food mill. Melt butter, blend in flour and sugar - gradually add sieved tomatoes. Cook on low heat until thickened, stirring constantly. Gradually add hot tomato mixture to the hot milk, stirring constantly. Heat to serving temperature rapidly. Add salt. Serve at once. Makes six servings. NOTE: never add milk to tomato mixture. It will curdle immediately. Some folks add a pinch of baking soda to the tomatoes to reduce the acidity. Please realize that the added baking soda will destroy the Vitamin C in the tomatoes.

Penn State
Extension Service

xxx

Squash Skillet

1 lb. ground beef
1 cup chopped onion
¾ cup green pepper
1 clover garlic, minced
1½ teaspoon salt
¼ teaspoon pepper
1 teaspoon chili powder
5 cups sliced squash
2 large tomatoes, peeled and chopped
1¼ cup fresh corn
3 tablespoons chopped pimento
¼ cup chopped parsley

Saute beef, onion, green pepper, and garlic in 12-inch skillet until well browned. Add remaining ingredients. Cover and simmer 10 to 15 minutes or until vegetables are tender.

Ella Kanagy
Mattawana, Pa.

xxx

Corn Relish

12 ears corn
4 peppers
1 bunch celery
1 cup sugar
1 cup water
½ head cabbage
1½ tablespoons salt
1 cup vinegar
1½ dry mustard

Cook corn on cob till tender. Cut off. Chop cabbage, celery, and peppers into small pieces and cook till tender, but not soft. Drain. Mix vegetables together and add sugar, salt, vinegar, and mustard. Bring to a boil and put in jars. Seal.

Mrs. Edwin Rissler
New Enterprise, Pa.

xxx

Harvard Beets

½ cup sugar
½ teaspoon cornstarch
¼ cup water
2 teaspoons butter
About 12 small cooked beets
¼ cup vinegar

Mix sugar and cornstarch Add vinegar and water and boil five minutes. Add beets, cut into slices, to hot sauce

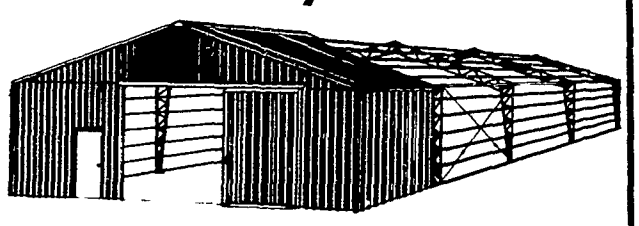
This new farm building costs 40% less!



Yes, it costs 40% less than conventional steel buildings!

- It comes in a complete package . . . steel columns and trusses, wood purlins and girts.
- You get unobstructed floor space . . . no poles.
- You put it up yourself . . . the average building takes two men only two weeks or less to construct.

It'll be worth your while to get the complete story about this AGRICONOMY building.

GUTSHALL SILO REPAIR
RD1 Womelsdorf, PA 19567
PH: 717-933-4616

In reverent memory of our faithful co-laborer and Brother Amos M. Hess. Born June 16, 1914 and departed this life September 9, 1976. Aged 62 years. May this short note remind all of us of the uncertainty of life, and the expediency of serving the God who created us and daily provides our natural and Spiritual sufficiency. Let us walk daily in the Light of His Presence; ever looking for that Blessed Hope and Glorious Appearing of our Lord Jesus Christ.

James R. Carpenter, Walter B. Groff, Ralph E. Greenawalt, Edith M. Hess, Marshall E. Hess, Paul Spangler, John P. Thompson.

Groff Equipment: formerly of Quarryville, Pa.

Home On The Range

(Continued from Page 46)

Let stand at least 30 minutes. Bring to boiling point again just before serving and add butter.

xxx

Glazed Carrots

1 bunch tender young carrots, scraped and boiled until tender
¼ teaspoon salt
¼ cup molasses
1 tablespoon boiling water
1 tablespoon butter and margarine

Drain carrots, place in a greased shallow casserole or baking dish. Sprinkle with salt. Drizzle the molasses and boiling water combined over the carrots. Dot with butter, slip under broiler until glazed and brown, turning if necessary.

xxx

Lightning Creamed Potatoes

one-third cup water
1½ teaspoons salt
4 cups pared potatoes, cut in bite-size pieces
one-third cup finely chopped onion
½ cup light cream

In pressure pan, combine water, salt, potatoes, and onion. Cover; bring to 15 pounds pressure. Immediately remove from heat and let pressure go down normally. Add cream. Snip parsley over. Serves six

xxx

Kidney-bean Casserole

Include this in an oven-going meal.

2 (1-pound) cans (4 cups) kidney beans
8 slices bacon
½ cup chopped onion
one-third cup chili sauce
Salt and pepper

Drain beans, reserving three tablespoons liquid. Cook bacon till crisp; drain, reserving two tablespoons dripping. Crumble bacon. Cook onion in reserved bacon drippings till tender but not brown. Add beans. Pour into ungreased one quart casserole. Cover. Bake at 350 degrees F. for 20 minutes or till heated thoroughly.

Makes four to six servings.

xxx

Red Beet Relish

20 red beets, peeled
20 green peppers
8 onions

Grind all the above toegther, then add:

4 cups vinegar
5 cups sugar
1 teaspoon pepper
1 cup water
4 teaspoons salt

Boil for 20 minutes or until pepper and onions are tender. Pour into hot, sterilized jars and seal. This can also be jarred and put directly into your refrigerator and kept for several months.

This is a tasty relish, especially for those who do not like beets.

Mrs. Charles Biehl
Allentown, Pa.

Indian summer, with its glorious, balmy days and cold, frosty nights, is a phenomenon of the Northern Hemisphere. It's called "after summer" in Germany, "peasant women's summer" in Russia, and the ancient Greeks called it the "halcyon days." No one knows why Americans use the term Indian summer, but it was in our vocabulary in the Northeast in the late 1700's and Webster's Dictionary made it official by listing it in its 1841 edition.

who finances bushels?

We do. The Farm Credit System. Millions of bushels of corn, wheat, oats, fruits, other foods. All the way from production on the farm to storage or processing in farmer cooperatives. NATIONAL PORK

Producers Council®

Over the last few years, the image of pork and the producer has changed. Today, producers are proud of their product. And, through the NPPC, producers have proven to consumers that pork not only tastes good, but it's good for them, too.

The NPPC was formed and is funded and directed by producers. NPPC promotes pork to consumers in a vigorous year-round advertising campaign The NPPC also funds research on key production problems indentified by producer-members

Our work promoting your product has just begun We want to do more We need your help If you would like to join your fellow pork producers in supporting these worthwhile programs, contact

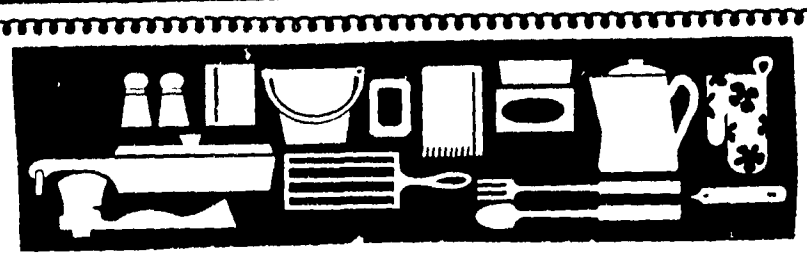
We will direct you to the proper state leaders. Remember, our job has just begun



Junior Cooking Edition

Well, peaches are over, and now we're into apple season. To herald the new arrivals, we are going to feature apple recipes this week. Although there are two apple crisps, both are different, so both were printed.

Don't forget that now with Fall approaching, we will need pumpkin recipes of all kinds.

Have a good day.

Apple Brown Betty

3 cups tart apples, diced
1½ cups soft bread crumbs
two-thirds cup brown sugar
¼ cup butter, melted
¼ teaspoon salt
1 teaspoon cinnamon
2 tablespoons lemon juice
one-third cup water

Add melted butter to bread crumbs. Combine apples, sugar, salt and cinnamon. Place a layer of buttered bread crumbs in bottom of a greased casserole. Add a layer of diced apples and another of crumbs. Continue with alternate layers, having bread crumbs on top. Combine lemon juice and water and pour over mixture. Bake at 350 degrees F. for one hour. Makes six servings.

xxx

Apple Goodie

¾ cup sugar
1 tablespoon flour
⅛ teaspoon salt
½ teaspoon cinnamon
2 cups sliced apples
FOR TOPPING:
½ cup oatmeal
½ cup brown sugar
½ cup flour
¼ cup butter
⅛ teaspoon soda
⅛ teaspoon baking powder

Sift sugar, flour, salt, and cinnamon together and combine with sliced apples. Mix together well and place in the bottom of a greased casserole. To make topping, combine dry ingredients and cut in butter to make crumbs. Put crumbs on top of apple mixture. Bake at 375 degrees F. for 35 to 40 minutes. Serve hot or cold with rich milk. Makes six servings.

Curvin Zimmerman
Fleetwood, Pa.
Age 9

xxx

Apple Crisp

Slice four or five medium apples in buttered casserole.
1½ cups flour
¾ cup brown sugar
1 teaspoon baking powder
¾ teaspoon salt
1 egg
one-third cup shortening

Mix ingredients together and spread on apples, then sprinkle with cinnamon. Bake 45 minutes at 375 degrees F.

Verna Mae Lapp
Coatesville, Pa.
Age 13

xxx

Apple Crunch

1 quart sliced apples
1 cup sugar
1 tablespoon flour
1 teaspoon cinnamon
⅛ teaspoon salt
TOPPING:
¾ cup oatmeal flakes
¾ cup brown sugar
¼ cup melted butter
¼ teaspoon soda

Mix sugar, flour, cinnamon, and salt. Sprinkle over apples. Put in greased baking dish. Mix dry ingredients for topping. Add melted butter and make crumbs. Place on top of apple mixture. Bake at 350 degrees F. for about 40 minutes.

Shirley Wenger
Manheim, Pa.

xxx

Apple Crisp

8 baking apples
1 cup brown sugar
1 teaspoon cinnamon
¾ cup flour
½ cup butter
½ cup water

Wash, pare, quarter, and core apples. Cut each quarter lengthwise into three or four slices. Put sliced apple in bottom of buttered baking dish. Add water, combine sugar, cinnamon and flour and cut butter into mixture to make crumbs. Spread over top of apples, patting them down evenly. Bake at 375 degrees F. for 40 minutes. Leave uncovered. Serve with cream. Makes 6-8 servings.

Susan Wenger
Manheim, Pa.

xxx

Dutch Apple Dumpling

4 apples
1¾ cups flour
½ teaspoon salt
2 teaspoons baking powder
1 tablespoon butter
1 egg
¾ cup milk
SAUCE:
1 cup sugar
2 cups water
3 teaspoons cornstarch

For dumplings, cut the butter into the flour. Beat egg and milk together. Add to flour mixture, mix into dough. Spread part of dough (½ inch thick) in a buttered baking pan.

Peel and slice four apples on top of dough. Sprinkle with two tablespoons sugar. Put the remaining dough on top.

To make sauce, mix all sauce ingredients and boil for three minutes. Stir in one tablespoon butter. Pour sauce over top of the pudding before baking. Bake in a quick oven for 20 minutes. Serve with milk.

Lizzie R. Martin
Narvon, Pa.
Age 17

xxx

Apple Rolls

Sliced apples
4 cups flour
2 tablespoons lard
2 tablespoons sugar
1 tablespoon baking powder

Beat one egg in a cup, fill with milk. Mix all together. Roll out and put sliced apples on dough. Roll it together. Cut roll and place in pan. Boil together for a few minutes:

1 cup cold water
1 cup sugar
1 tablespoon flour

Pour over rolls and bake for one hour.

Lena R. Martin
Narvon, Pa.

Tomato Catsup

1 peck ripe tomatoes
4 large or six small onions
3 red peppers
¾ cup vinegar
3 cups granulated sugar
2 tablespoons salt
1 tablespoon pickling spice
¼ teaspoon ground red pepper
¼ teaspoon ground tumeric

Cook tomatoes, onions, peppers and strain. To this juice, add vinegar, granulated sugar, salt, and pickling spice tied up in a cloth and kept in the juice while boiling down. Boil to ½ volume and add red pepper and tumeric. Bottle and seal well.

A farmer has an investment of $2,294 in physical assets in that average 5 acres that grows food and fiber.

When a chicken lays an egg, the egg travels down a slight grade to a conveyor belt and is carried to the inspection and packing room. There the eggs enter a machine that looks like a toy carwash where they are doused with water, dried and coated with mineral oil to prevent them from drying out.

Ladies Have You Heard?

By Doris Thomas

Lancaster Home Economist

T-SHIRTS ARE POPULAR

The "T" or tee shirt has become the most readily accepted clothing item in the present fashion scene. The T-shirt is no longer an undershirt or worn strictly for sportswear, but is high fashion. Most of the major fashion designers are showing variations of the T-shirt idea. It can be worn from morning to evening, for sun or sleep, for sport or for dress. It's a style for men, women, and children. The popularity of the T-shirt is due to its comfort, versatility, easy care, and economy.

Women's T-shirt variations come in all lengths from the traditional shirt to tunics, to street length to ankle wear for evening.

Necklines may be high round, or scooped or V, or with a front neck placket or some other variation. They are sleeveless, short sleeved or long sleeved. But they are all made with a soft, comfortable, lightweight, single knit fabric. The fiber may be cotton, polyester, or a blend.

The T-shirt has a certain sameness in appearance so it has become the background for artwork, political creative statements, comment, or advertising. You can add your own creation with press-on appliques, press-on decals, or textile paint. You can find a wide assortment of "art" work in ready-to-wear or choose your own design for application while you wait. If you make your own, some fabric designs are spaced for use on front or back of a T-pshirt.

The T-shirt comes in all colors to team with pants or skirts, shirts or jackets. It can be accessorized with necklaces or neck scarves. T-shirts are easy to make, too. Neck edge finish will vary and may be faced or bound with self fabric or banding sold for this purpose. Study your pattern for suggestions.

RICE IS GOOD BUY

The outlook for rice supplies can be summed up in one word - plentiful. The 1975 U.S. crop was a record one - 14 per cent above the previous year and almost a third greater than the 1972-74 average.

During almost every month throughout the past year the national average retail price of rice has declined. This is in contrast to the gradual rise in prices of most other food products. The cost of a half-cup serving of cooked rice today is just over three cents.

In addition to its low basic cost, other factors make rice a good buy: Uncooked rice, properly stored, keeps almost indefinitely. There is no loss of quality, flavor, or nutrients, and there is never any waste due to deterioration. The entire product is edible.

Little energy is required to cook rice. Top-of-the-range method requires 15 minutes for regular milled rice - 25 minutes for parboiled and 45 minutes for brown rice - while oven method takes about 10 minutes longer for each form or rice.

Cooking a large quantity of rice at one time rather than the usual one or two cups provides extra savings in energy and time.

Cooked rice, covered and refrigerated, can be kept for as long as a week without loss of quality or nutrients.

Rice can be served alone or in combination with almost any other food.

Rice is an excellent source of carbohydrates. Carbohydrates furnish energy, conserve protein for growth, maintenance, and repair, and aid in the utilization of fat. A half-cup serving of rice supplies 82 calories.

Rice contains only a trace of fat and is cholesterol-free.

Dauphin Co. Society 1

The Dauphin County Society of Farm Women Group 1 held its monthly meeting on September 8 at 7:30 p.m. at the Sand Hill Lions Club Building.

Hostess for the evening was Kathy Moffatt and co-hostess was Barbara Fisher. The theme for the evening was "School Days."

The business meeting was conducted by Bertha Kennedy, president. Several items were discussed. The county convention will be held on October 9, at the Chambers Hill Fire Hall. It was also announced that there is going to be a statewide essay contest. All members are encouraged to write an essay.

Following the business meeting, Mrs. Judy Stare co - owner of REM Hobby House, 5 South Water Street, Hummelstown, gave a demonstration on the most popular crafts on the market today. Topics covered were macrame, pine cone and pipe cleaner crafts, quilling, and wood fiber flowers.

Refreshments were served in keeping with the "School Days" theme. Each lady prepared her own brown bag lunch with the food provided.

Drawings were made for five door prizes. Each lady was also given a handmade favor.

The next meeting of the Dauphin County Society of Farm Women Group 1 will be at the home of Dolly Pickel on October 11, at 6:30 p.m.

Berks Co. Society 1

The September meeting of Berks County Society 1 was held at the home of Marian Haas. For entertainment, Lloyd Hartman showed slides of the United States.

Twenty members answered roll call by telling of their hobbies, talents, or work.

Final plans were made for the trip to Valley Forge Music Festival on October 28.

Twenty members will attend the county convention on October 2. Four Group One members will be ushers. Ellen Snyder and Joan Haas will have charge of the memorial service. The women are urged to wear Bicentennial dress and reminded to bring items for the bazaar.

Action was taken to again purchase Christmas gifts for the Hamburg State School. Joanne Penkauskas and Linda Levan will have charge of the purchasing.

The next meeting will be held at the home of Pauline Hartman.

Society 5

Farm Women Society 5 will meet at the home of Mrs. Martha Weidman, Manheim R1, on September 25 at 1:30 p.m.

Doris Thomas, home economist of Lancaster County, will be the speaker.

Nat'l Grange sponsors women's events

WASHINGTON, D.C - Both Grange women and non-Grange women, alike, have been taken into consideration in two new Grange contests and a new publication by the organization

Cookbook

Toad-in-the-hole, Joe Froggers, Aebleskiver, Crabby, Pleasers, Gougere, Woodchuck and Rollamopes are only a few of the unusual recipes in the National Grange Bicentennial Year Cookbook.

Over 1200 recipes from appetizers to desserts and many over 100 years old are included in the 304 page book. Mrs. Jenny Grobusky, director of women's activities for the National Grange, reports sales have gone over 130,000. The book may be purchased from any local Grange or by sending $5 to National Grange Cookbook, 1616 H St. NW, Washington, D.C. 20006.

One recipe from that cookbook is "Toad-In-The-Hole" which follows

TOAD-IN-THE-HOLE
(recipe over 100 years old)

8 pork sausages
1 cup all-purpose flour
¼ teaspoon salt
¼ teaspoon pepper
2 eggs
½ cup milk

Melt small amount of fat in an ovenproof dish in preheated 400 degree oven. Add sausages, prick each sausage several times on top; bake for 10 minutes or until lightly browned, turning once. Sift flour, salt and pepper into bowl. Make well in center and add eggs. Beat until smooth, adding enough milk to make batter thick. Pour over sausages and bake for 35 to 40 minutes or until brown. Serve at once. Yield: 4 servings.

Needlework Contests

There have also been over 75,000 entry blanks for the 1977 National Grange Needlework Contest distributed to local Granges across the country. The contest is for people interested in crocheting, knitting, and embroidering. Co-sponsored by Coats & Clark, Inc., it is the largest needlework competition offered annually and involves thousands of men and women of all ages. It is open to both members and non-members of the Grange.

Prizes are awarded on local, state, and national levels. Grand award winners on the national level in the crocheting and knitting divisions receive $1000 and in embroidery, $500.

Additional information may be obtained by contacting any local Grange or the National Grange. The contest period ends Aug. 31, 1977. Items entered must have been made between Sept. 1, 1976 and Aug. 30, 1977.

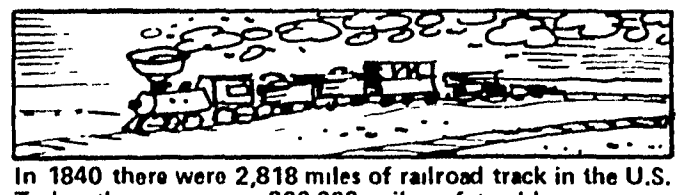
Stuffed Toy Contest

The National Grange and Fairfield Processing, makers of Poly-fil, have also announced a national Stuffed Toy Contest with all entries to be given to children's homes and hospitals.

Mrs. Jenny Grobusky, director of women's activities for the National Grange, said the contest is open to both members and non-members of the Grange. It is divided into three age categories: Class A, ages 5-14; Class B, ages 15-21, and Class C, 22 and over.

"Anything that qualifies as a stuffed toy, qualifies for the contest," said Mrs. Grobusky. Entries must not exceed 24 x 24 inches and may be machine or hand stitched, crocheted or knitted. The toys must have been made during the contest period, Sept. 1, 1976 to May 30, 1977.

Prizes will be awarded on local, state and national levels. First place national winner in Class A will receive a $500 savings bond and Classes B and C, $1,000 savings bonds. Additional information and entry blanks may be obtained from local Granges or by writing to Fairfield Processing, P.O. Box 1157, Danbury, Ct. 06810.



In 1840 there were 2,818 miles of railroad track in the U.S. Today there are over 200,000 miles of track!

Society 19

The Society of Farm Women 19 met on September 11 at 1:30 p.m. in the home of Mrs. Henry Tennis, Lititz. Twenty-six members attended the dessert meeting. In the absence of the president, the program was led by Mrs. Harold Saylor, vice president.

During the business session, a vote was taken on contributions for Multiple Sclerosis and the Lancaster Association of Retarded Citizens--as well as the Society's foster child in Bogota, Columbia.

Martha Gregory and Cathryn Brubaker were giving their $25 savings bonds which they received from the Society during 4-H Achievement Day.

The afternoon's speaker was James Beissel, a member of the Toastmaster's Club, who spoke on "Enthusiasm."

The county convention will be held at the Farm and Home Center on November 6. Luncheon tickets are available at $5 a piece. The entertainment for the convention will be James Ball, pantomimist.

Socity 19 will celebrate their 30th anniversary on October 9 at 6:30 p.m. in the social room of the Landisville Church of God. A covered dish meal is scheduled, and the program will be Amos Herr, a retired high school teacher of the Hempfield school district. Music will also be provided.

Society 27

Farm Women Society 27 of Lancaster County will hold a garage sale on September 24 at 9 a.m. to 7 p.m. and on September 25 beginning at 9 a.m. and ending at 3 p.m. The location is on the Mount Joy - Manheim Road across from the Elm Tree Dairy.

Handcrafted items and baked goods will be available as well as hot dogs and drinks. Some of the sale items will be two Hi-fi sets, a refinished Victorian bureau and wash stand, antique coffee tables, a small kitchen cabinet, picture frames, a 10 gallon fish aquarium with accessories, clothing, and many other items.

Sewing entries had Bicentennial flavor

YORK - The York Interstate Fiar took on a special Bicentennial flavor this year with many exhibitions and contests held around the revolutionary theme. Several of those contests were sponsored by needlecraft department. This department held competitions of handmade Bicentennial costumes, both ladies' and men's with prizes of $5 and $4 each. Bicentennial quilts and handmade flags were also judged. The quilt competition was open to adult groups, youth groups, and individuals.

Set off in a special section at the front of Exhibition Building 1, the results of these contests were outstanding.

Edna Seitz, superintendent of the clothing department, remarked that many of the quilts and Bicentennial costumes were remarkably well handcrafted, and that, in general, her department was so crowded with entrants that much of the beautiful work on the projects was covered over.

"Some of the owners of the costumes have been asked to sell their work," she commented in answer to a question about the demand for this type of clothing.

In the ladies' costume division, Mrs. C Richard Steckler, York, won first prize and Mrs. Arthur Weigle, Jr., Dover, took the second place slot.

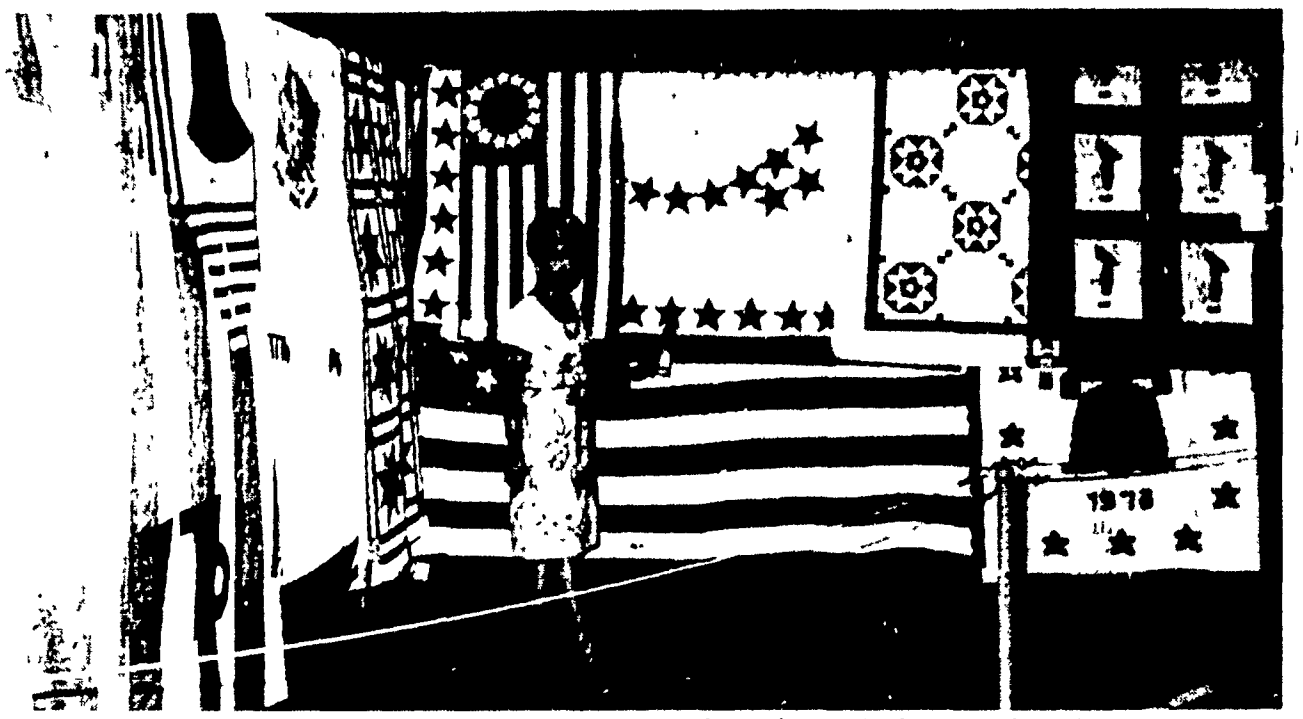
In the men's division of Bicentennial costumes, Mrs. Richard S. Martin, York, took first place and Mrs. C. Richard Steckler took second.

In the special Bicentennial quilts area, St. James Lutheran Church, York, took first place in the adult groups division, and St. Paul's Wolf's UCC, York, took second.

The youth group under 18 to have the prize winning Bicentennial quilt was entered under R. Bruce Bainbridge, Mt. Wolf. Second place was under Larry Nickol, York.

Nancy Kearns, York, was the individual which the judges picked to have the top placed individually made quilt, and Ruth Thoman, Glen Rock, had the second place quilt made individually.

Mrs. Willis M. Hoover, York, had the top Bicentennial flag, and Thelma Snyder, Red Lion, had the second place flag for the nation's 200th bridthday.



There was a large response to the Bicentennial quilt contest at the York Fair. Here, Edna Seitz, superintendent of the needlecraft department, points out a top prize winner.

Bulb course available

UNIVERSITY PARK — It may be difficult now to think about early Spring flowers popping through the snow, but the time is approaching when autumn-planting bulbs must be planted.

A correspondence course from Penn State on Bulbs for Your Flower Garden presents the propagation, culture, disease and insect controls, harvesting, and storage of popular flowering plants grown from bulbs, corms, rhizomes, and tubers. Dahlias, gladioli, and other frost-tender flowers for Spring planting as well as tulips, narcissus, and other winter-hardy bulbs for autumn planting are included.

By properly selecting varieties, you can have continuous bloom during Spring, Summer and Autumn for this group of hardy, semi-hardy and frost-tender plants. If you'd like more information about these popular flowering plants, send $4.00 to Bulbs, Box 5000, University Park, Pa. 16802. Make your check payable to Penn State.

BICENTENNIAL AMERICAN REVOLUTION 1776-1976

My Thoughts and Welcome to Them

(With apologies to James Thurber)

It's 'fat season' again

By JOANNE SPAHR

Fair season has begun, or at least I think so, but I really couldn't tell you because I'm so dazed by the whole ordeal Really, though, in my case, it ought to be called "fat season" instead of "fair season" because there is no way in the world I will be able to keep my hands off those midway goodies, and that's not "fair" by any means

Polish sausage, cotton candy, ice cream cone sundaes, French fries, cokes, rootbeer, hot dogs, funnel cakes, and ice cream waffles — besides being part of the culinary fare, it's also what I managed to put down last Tuesday between the hours of 3 and 6 p m Can you imagine what I'll look like by the middle of October when our season more or less officially comes to an end? By that time, I'll fondly be referred to as the blimp from LANCASTER FARMING, instead of the reporter from LANCASTER FARMING.

But, seriously, this fair season is going to take its toll, I can see it already. I have visions of waking up in a cold sweat from dreaming that a man-eating pig is taking his revenge out on me for some reason or other and is chasing me around the food stands

This, of course, will result from the combination of eating polish sausage before I go to bed and trailing some 4-H swine raiser around the fair for his picture Oh, yes, no doubt about it, fair season is going to take its toll

But, there is one thing that is going to make it all worthwhile — the people I meet and talk to and get to know After my first two fairs, I have a whole repertoire of names and stories to go with them My readers aren't just readers, anymore, they are living, laughing, working individuals who stand out for one reason or another Hope you all enjoy meeting me as much as I enjoy meeting you.

And, I hope most of you seasoned fair veterans will not succumb like I do to "fat season," or if you do, I hope you can do it without a guilty conscience.

Society 21

Farm Women Society 21 met on September 9 at the home of Mrs. Wilmer Black, Peach Bottom R2 with co-hostess Mrs. Edward Brown and Mrs. Sam Groff.

Twenty members were served an elegant Hawaiian dinner.

After the dinner, president Hazel Aument conducted a short business meeting. Roll call was answered by giving a health tip.

The county convention will be held at the Farm and Home Center on November 6th with Mr. John Bell as speaker. Society 21 is to serve as ushers.

A day trip is being planned for October 23. Definite plans will be announced at the next meeting.

Mrs. Joan Rohrer is ordering tickets to a dinner show at the Red Fox Inn on October 16th. "The Odd Couple" will be playing.

Esther Black and Connie Groff showed slides and a movie of their trip to Hawaii.

The next meeting will be held at the home of Mrs. Frank Aument, Holtwood R1.

Horticulture building has several 'firsts'

Farm products and garden goodies galore at the York Fair.

Donald Lanius, manager on charge of Horticulture Hall, poses with the largest pumpkin of the York Fair, which weighed in at 130 pounds.

By JOANNE SPAHR

YORK - A tour around Horticulture Hall at the York Fair last week revealed some fascinating specimens and facts. Probably the most intriguing agricultural specimen was a 130 pound pumpkin sitting among a large display of its kind.

"Last year's largest pumpkin only weighed 34 pounds," commented Donald E. Lanius, manager-in-charge of the horticulture building.

Not only were pumpkins larger in size this year, but they were also more popular, according to J. W. Arnold, seasoned veteran of the fair and the person responsible for the vegetable department of the horticulture display. Arnold described the amount of pumpkin entries as "coming out our ears."

Lanius also pointed out with a twinkle in his eye that peanuts were a lot more popular this year, for some reason. And, in the vegetable line, it was evident from the large display of Indian, field, and sweet corn, that York is having an excellent crop this year.

In the fruit division, there were several indications of the type of season each different specimen was enjoying. For instance, this year there was a very small amount of peach entries because the season was so short, whereas apples were abundant and of top quality.

Also in the horticulture building were the products of a special "Happy Birthday America" cake decorating competition. There were approximately 25 Bicentennial cakes displayed. According to Melvin Haines, who set up the display and was in charge of overseeing it, the only problem with the whole display was restraining inquisitive youngsters from succumbing to the temptation to touch.

This was also the second year for the homemade wine exhibit and, according to Lanius, the display tripled itself from the year before. There has been a steady increase in the interest of winemaking in the county recently, according to various spectators, and one reason may be the promise of wineries coming to the area. Jouko E. Savolainen, treasurer of the Southeast Grape Industry Association, also noted that only recently has home winemaking and homemade wine competition been allowed.

Held in conjunction with the winemaking contest was a grape stomping competition sponsored by the grape growers association, which, according to Lanius, was quite a success.

"The people went wild," he commented. "If I would have known that having people stomp two bushels of grapes would have caused this much of a sensation, I wouldn't have believed it," he added. In all, four bushels were stomped, since the procedure was done twice.

Another "first" for the fair was an indoor fountain separating the flower display. Brought to the Fair by Dean Gise, who also displayed other smaller fountains from his place of business, Ornamental Concrete Products, the fountain had an eight foot diameter bowl holding 135 gallons of water, and had a changing sequence of 12 colors. Gise commented that it is the same type of fountain found at Sea World.

All the firsts, however, did not diminish the importance of all the "old regulars." For instance, this year there were over 500 more entries in jellies and preserves. That display lined one whole wall of Horticulture Hall. And, there was a huge display of delicious-looking tomatoes.

The Grange also returned with four Bicentennial entries. Eureka Grange from Dillsburg took top honors with a display called "Agriculture, The Seed of America."

While these are only a few of the displays that were on exhibit in Horticulture Hall,

Society 14

Farm Women Society 14 met this month at the Fulton Opera House to tour the building. The group then walked to Ellicot House where they saw slides of old Lancaster.

During the business meeting, Mrs. Christian Landis reported on the County Board meeting she attended in the absence of the president. She reminded the group of the county convention to be held on Nov. 6. The nominating chairman, Mrs. Melvin Stoltzfus, gave the list of new officers who will be installed at the county convention. They include Mrs. J. Paul Hostetter, president; Mrs. Harold Groff, first vice president; and Miss Miriam Leaman, second vice president.

October 13 is the date of the next regular meeting. Members with names beginning with the first half of the alphabet are to bring something for a miscellaneous sale. Mrs. Liller from LARC will be the speaker. The group will meet at the home of Mrs. Ellis Esbenshade.

"You've got to remember that an egg is just an egg," says Eugene B. Pickler, part owner of Springdale Farms Inc., an egg farm in New London, N.C. "There's no brand preference for eggs, so it doesn't make sense for individual producers to advertise.

4-H children's program on television

UNIVERSITY PARK — An appealing show which is both entertaining and educational, will soon go on several area TV stations to help young Americans and others appreciate and understand why what they eat is important to their health and well being.

Called "Mulligan Stew," the show is in six parts and aimed at the 9 to 12-year-old group. However, the information is presented in such an entertaining fashion that it can have value and appeal to all age groups.

It will appear on WHYY, Channel 12 in the Philadelphia viewing area, each Wednesday at 10 a.m. starting September 29 and ending November 3.

This 4-H TV production is part of a special nutrition program in cooperation with the United States Department of Agriculture and the Cooperative Extension Service of The Pennsylvania State University.

"Mulligan Stew" learning materials are available from county Extension offices or by writing to 4-H TV, Agric. Administration Bldg., University Park, Pa. 16802.

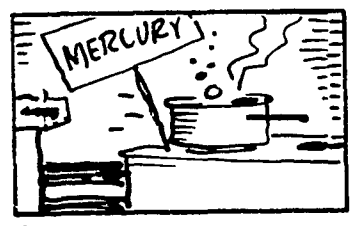
The best bushel of apples out of Horticulture Hall at the York Fair was presented to the president of the Board of County Commissioners to pass along to Pleasant Acres hospital. The exhibitor of the best bushel was Goodling's Fruit Farm.

Horticulture

(Continued from Page 54)

their size and excellence are an indication of all the displays found in the building last week.

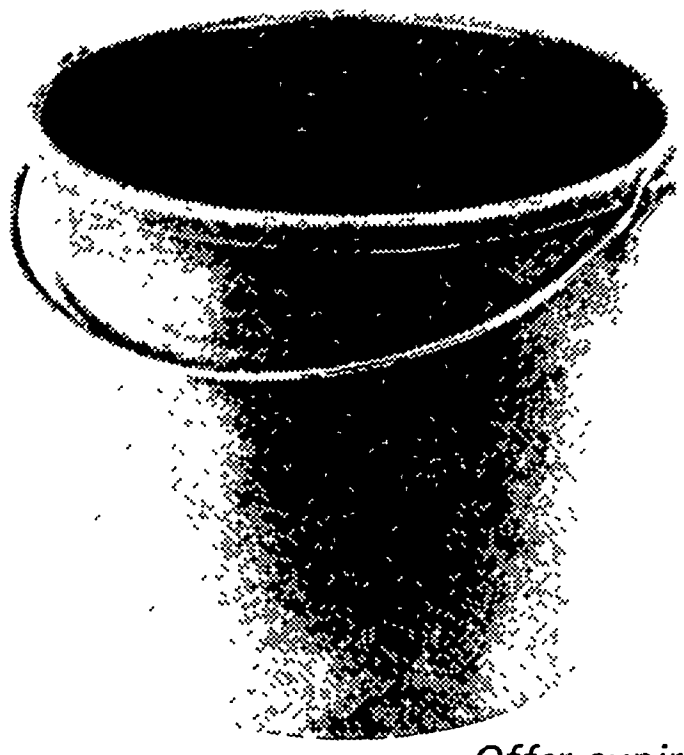
Dr. Christiaan N. Barnard, the heart surgeon, says heredity is the most important cause of heart disease and dismisses those who recommend low-cholesterol, low-fat diets. "They make your life miserable, but they don't know what they're talking about," he says.



At room temperature mercury is a liquid but it will not wet your fingers if touched.

FREE

THIS 10-QUART PLASTIC PAIL WITH EVERY 100 LBS. OF BEACON MILK REPLACER YOU BUY.



This offer's a 3-way winner. You get a sturdy plastic pail. Your calves get the nutrients they need for good health and quick growth. And you make more money by selling your milk.

Offer expires October 16, 1976.

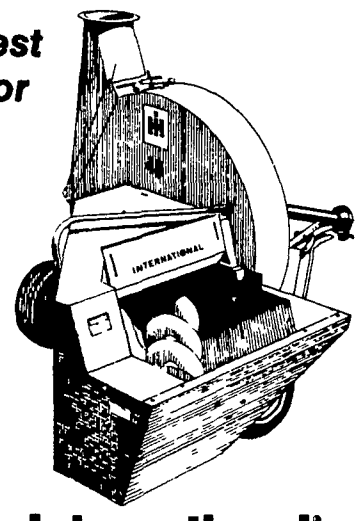
Your best angle for filling silos



International® Forage Blowers

Want to fill your silos fast? Start with an International blower with a 45° feed system. It's more direct than a conventional 90° right angle feed system. Result: bigger capacity, less wear, more plug-free feed, and more efficient use of power.

- Two models: 48 and 56, both with huge capacities
- Big 48 and 56-inch rotors have adjustable, replaceable paddles for top capacity, long life
- Reversible rim sheets last twice as long without replacement; rotors easily accessible for service, hinged outlet swings clear
- Transport wheels adjust for ground clearance, height, leveling to meet unloading requirements

See us for details. Finance plans available.

Small livestock display largest in five years

A display of the grand champion pigeon winners at the York Fair drew attention from spectators who had never had a close look at some of the fancier birds.

YORK - According to the small livestock managers, this year's poultry, pigeon, rabbit, and cavy exhibit at the York Fair was the largest in five years. Over 2000 pigeons, 1500 chickens, 300 rabbits, and 325 cavies were on display for all to see.

Not only that, but the judging took two days, instead of one, to complete.

Mrs. Mary Myers, department manager, was proud of the way things had shaped up.

"We sat down all through Winter and brought the book up to standards," she explained. The "we" she is referring to are F. V. McConkey, Jr., Rudolph Hershey, and herself.

As a result of their work, there has been a return of several types of poultry. One of these is the turkey, which hadn't been at the fair for four years.

This year, also, rosettes were handed out for the top specimens in the various classes, and a grand champion large bird and reserve champion large bird were chosen. Grand champion bantam and reserve champion bantam were also chosen.

Large Fowl Poultry Champions

The grand champion large bird was a Single Comb White Leghorn Cockerel owned by Basil D. Smith, Zionsville. The reserve champion large bird was a Buff Cochin Pullet owned by Russell W. Minnich, Kutztown.

Those special variety best birds to receive rosettes from the judges were: Champion American Class - Rhode Island Red Pullet, owned by Norwood A. Reed, Wrightsville; Champion Asiatic Class - Buff Cochin Pullet owned by Russell Minnich, Kutztown; Champion English Class - Speckled Sussex Pullet, owned by Basil D. Smith, Zionsville; Champion Mediterranean Class - Single Comb White Leghorn Cockerel, owned by Basil Smith; Champion Hamburg Class - Black Hamburg Hen, owned by Big L Farms, Dillsburg; Champion Continental Class - Golden Campine Pullet, owned by Robert F. Hofstetter, Jr., Coopersburg; Champion Polish Class - Bearded Buff Laced Polish Pullet, owned by Basil D. Smith; Champion French Class - Salmon Faverolle Hen, owned by Harry M. Waltemyer, New Freedom; Champion Game Class - Red Pyle Old English Game Cock, owned by E. E. Stitely, Glen Rock; Champion Oriental Class - Black Breasted Red Malay Cock, owned by E. E. Stitely, Glen Rock; Champion Miscellaneous Class - Silver Phoenix Cock, owned by Lewis Kuhns, Allentown.

Bantam Poultry Champions

Grand Champion Bantam - Black Cochin Bantam Hen, owned by Minnich Brothers, Kutztown; Reserve Champion Bantam - Brown Red Modern Game Bantam Cock, owned by E. E. Stitely; Champion Game Bantam Class - Brown Red Modern Game Cock, owned by E. E. Stitely; Champion Single Comb Clean Legged Bantam Class - Black Ompington Bantam Cockerel, owned by Donald E. Flory, Red Lion; Champion Rose Comb Clean Legged Bantam Class - Partridge Wyandotte Bantam Cock, owned by Basil Smith; Champion all Other Combs Clean Legged Bantam Class - White Cornish Bantam Hen, Donald Flory, Red Lion; Champion Feather Legged Bantam Class - Black Cochin Bantam Hen, owned by Minnich Brothers, Kutztown.

Others

Grand Champion Duck Class - Grey Call Old Duck, owned by Basil Smith; Grand Champion Goose Class - Tou louse Gander, owned by Norwood Reed, Wrightsville; Grand Champion Turkey - Royal Palm Old Tom, owned by Earl Illyes, Manchester; Grand Champion Pheasant - Reeves Old Pair, owned by Kenneth M. Green, Hagerstown; Grand Champion Guinea - Pearl Guinea Cock, owned by Earl Illyes.

Joseph Kennedy, Frederick, Md., took the best of breed in the New Zealand rabbit class. His rabbit was chosen from among approximately 50 head.

You never know what you'll encounter when you make the rounds of a fair. You may even run into a skunk. In this case, it's a pet skunk belonging to Megan Shaub. Megan, a busy York 4-H'er, captured her pet only a year and two months ago. She seems to have little problem with its wild nature, for even at the busy York Fair, it was more tame than a kitten.

from HISTORY'S SCRAPBOOK

DATES AND EVENTS FROM YESTERYEARS

September 17, 1787-The Constitution of the United States is completed and signed by a majority of the 55 delegates attending the Constitutional Convention in Philadelphia.

With you, Eastern can speak out for you.

Eastern urges dairy farmers to consider the importance of cooperative membership

The New York New Jersey Federal Milk Marketing Order is in jeopardy due to declining cooperative membership Dairy farmers in this market could lose one to two dollars per hundred weight of milk and face an influx of mid west supplies Eastern and its members are committed to keeping the Order in force

As the number of independent milk handlers declines, so does the number of available milk markets Eastern is finding new markets for distressed dairymen and maintaining the supply of fresh milk to consumers

Eastern is working to preserve the efficient northeast dairy industry which is vital to our area's economy This election year, Eastern's 8,000 members are strongly urging governmental leaders to pass legislation benefiting all Americans, dairy farmers and consumers alike With you, Eastern can and will speak out in support of stable markets, fair prices and responsive government

.Food reserves vanished

UNIVERSITY PARK - Research scientists must find ways, by the year 2000, to produce one-third more food than available now to feed 100 million more people in the United States alone, according to Dr. James M. Beattie, Dean of the College of Agriculture at Penn State University.

Beattie claimed that worldwide demands for agricultural production will nearly double because the world population is increasing by 80 million a year.

He made his comments in the opening article of a special Bicentennial issue of 'Science in Agriculture," the quarterly magazine of the Agricultural Experiment Station at Penn State.

For more than 40 years, he pointed out, the very large North American food reserves have been a hedge against substantial starvation anywhere in the world. Now, in the last few years, these food reserves have disappeared.

"The problem for today, and for the balance of this century, is basically how to feed the world's hungry people until world and national leaders can find a way to stabilize human population," he stated.

The Penn State Dean of Agriculture said the ability to increase farm production in America on drastically reduced acreage can be credited largely to achievements from research. Much of this new knowledge, he indicated, has flowed from the agricultural experiment station system at the state universities, the largest agricultural research organization in the world with more than 10,000 scientists.

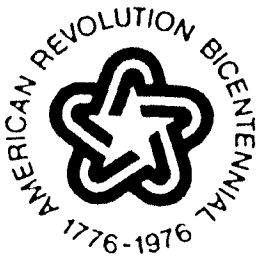
"The Agricultural Experiment Station at Penn State is part of this system which has operated so successfully to bring practical knowledge to farmers and others in search of a better life," Beattie observed.

He claimed that a fundamental quality of landgrant university research is its ability to respond to the needs of people with practical solutions to daily problems.

Americans would do well, he suggested, to make a "Bicentennial Pledge" in 1976 to reaffirm faith in agriculture by giving continued support to its programs and institutions.

The special Bicentennial issue of "Science in Agriculture" summarizes several major accomplishments within the Pennsylvania Agricultural Experiment Station Free copies are available from the Agricultural Mailing Room, 112 Agricultural Administration Building, University Park, Pa 16802 Some county offices of the Cooperative Extension Service may also ave copies

Beattie concluded that practical solutions and compromises must be developed to conserve and to protect the total environment.



TROJAN HYBRIDS

TO HELP YOU TO HIGHER CORN PROFITS IN 1977

TXS103
100-105 Day

A single cross with broad, dark green leaves. A good looker in the field and bin. It has hard textured grain and combines and picks easily. This is a real stress and drouth tolerant hybrid, with outstanding stalk quality and outstanding seedling vigor.

NEW T1090
110 Day

This hybrid represents the true Trojan brand, ripe ears on green stalks' breeding. T1090 has excellent stalk strength, ear retention, and disease tolerance. T1090 will fit any management system and most all soil types, especially those heavier soils. For best results use moderate populations with this hybrid in your area. Don't miss this hybrid in 1977.

NEW T1120
112 Day

A new super star for 1977! T1120 has had an excellent performance record in our research program. This hybrid was the highest yielding hybrid in its maturity in the 1975 Western Area Research tests. The ear type is similar to that of the 113 series, with large deep kernels that have a very high shelling percentage.

TXS113
113 Day

If you're looking for a good hard working hybrid, this is it! Combines high yield with fast, vigorous growth, bright green color, and outstanding tolerance to disease. TXS113 is the talk of the cornbelt ... terrific stalk strength, beautiful combine hybrid with excellent test weight. We often use TXS113 as the "tester" in our TST plots because of its consistent high performance.

TXS119
120 Day

Biggest yield kick you ever saw. Once again TXS119 shows its total performance capability and wide adaptability with top places nationally in NCGA competition with good sized ears and high shellout.

NEW T1210

A new 120 day hybrid T1210 is a very attractive hybrid with dark green, wide leaves. The semi-erect leaf habit allows for greater utilization of sunlight. Fast dry down, heavy test weight and bronze colored kernels make T1210 a pleasure to harvest. This hybrid is a must for all corn growers where the maturity fits.

As well as 30 other outstanding varieties to help you accomplish this in PA, MD, VA, NY, DE, & NJ

More acres were planted to Trojan Hybrids in the Atlantic Division in 1976 than ever before, so join the switch to Trojan Hybrids

Md. farm economics summarized

ANNAPOLIS, Md. — Maryland farmers in 1975 made more money but had to work harder and invest much more to do it," is the comment of State Secretary of Agriculture Young D. Hance on a report issued jointly by the Maryland Crop Reporting Service and the ERS section of USDA showing that net farm income for the state increased by 34 percent last year.

"Figures can be misleading," Hance cautioned. "At first glance some people would believe farmers had increased income substantially last year. To be certain, farmers made more money because they were blessed with good crops of corn and vegetables and a stronger market for dairy products and broilers, but they had to risk much more money than ever by increasing production to do it.

"The gross figures show that net farm income for the state in 1975 totaled $188.3 million, up some $47.3 million, or 34 percent from the year beofre. Worked out on an average basis, the average farm had $9,423 in net income, an increase of 14 percent from the year before.

"However, to do this, farmers had to up their production expenses considerably due to inflation and the demands of increased costs. This is the side of the ledger sheet that is most often overlooked. Farmers who are dependent on market conditions after they produce their crops and animals, must constantly risk great amounts of money in advance of marketing. The risk is taken not only against market conditions at the time of sale but also against weather.

"In 1975, Maryland farmers had a total of $578.8 million in production expenses, an increase of $26.3 million over 1974. So while 1975 was a good year, it was a more risky investment of over one-half billion dollars.

"Other figures released with the production expense and income report make interesting reading," Hance commented. "They show that Maryland is 6th in broiler production, 8th in tobacco, 18th in corn, 19th in soybeans, 20th in dairy, and 36th overall, viewed nationally, when it came to agricultural production and value in 1975. This is quite a tribute when you consider that the State is 42nd in size and is one of the most urbanized states in the nation."

Base milk: $10.33

ALEXANDRIA, Va. - A base milk price of $10.33 per hundredweight for August 1976 was announced Monday by Joseph D. Shine, Middle Atlantic Order market administrator. The Order No. 4 excess milk price for August is $9.06 and the weighted average price is $10.17. The base milk price is up nine cents from July and is $1.16 higher than the August 1975 price. The August butterfat differential is 12.2 cents. Order No. 4 prices are announced for 3.5 per cent milk, f.o.b. plants located within 55 miles of Philadelphia and also within 75 miles from the nearer of Washington, DC or Baltimore. There is also a six cent direct-delivery differential applicable to producer milk received at plants located within 55 miles of Philadelphia.

A total of 459.4 million pounds of milk was pooled in August, 0.7 per cent more than July. Class I producer milk totaled 252.4 million pounds and accounted for 54.93 per cent of total producer deliveries. This is the lowest Class I utilization percentage on record for this market. The average daily delivery per producer was 1,840 in August, compared to 1,820 in July and 1,627 last August. Base milk accounted for 87.91 per cent of total August production.

Class I sales reported by Order No. 4 handlers averaged 6.83 million pounds per day within the marketing area, a 4.3 per cent drop from July and 5.9 per cent below the comparable figure for last August.

York Fair hosts

If these sheep could talk, they'd tell you that the activities in the show ring were very interesting . . .

By DIETER KRIEG

YORK - Scores of 4-H'ers from all over York County brought their finest animals to the York Fair this week to compete for ribbons When it was all over, almost all of the names were familiar ones, and some individuals captured a number of championship ribbons

In the Holstein show, for example, Cindy Knight turned in championship animals in every category except one. And that one went to her brother, James. The two are the son and daughter of Mr. and Mrs. George Knight, Airville R2.

Cindy's 7 year old granddaughter of Osborndale Ivanhoe stood as senior and grand champion. In addition, the young lady from Woodbine Holsteins had the reserve senior champion and junior champion which went on to become reserve grand champion. James showed the reserve junior champion

In the Guernsey show, it was Cindy Rutter who came away with the top banner Although she did not have as many champions in one show (at least not this one as Cindy Knight,) she has made her mark in the show ring over the years. And with the same cow oftentimes.

Now 17 years old, Miss Rutter has been showing dairy cattle since age 5, and she claims to have had a love for them since she learned how to walk into the barn. Her grand champion Guernsey at this year's York Fair is a 7 year old daughter of Housleys J. Champion." Some of that name must have rubbed off on the cow, because this stylish bovine has made it four in a row at this show. Cindy, as owner, was at the halter each time. In addition to showing here, Miss Rutter has also competed on the district, state and national level She was to the National show two years ago with this cow

As York County's dairy princess for 1976, Cindy keeps herself active within dairy circles She not only shows cattle, but promotes milk as well. She has been a 4-H member for nine years and has plans on attending college after graduation from high school. She would like to major in animal science and has no objections to continuing her close association with the farm. She owns 10 Guernseys and brought three to the York Fair.

Following is a more detailed report of the 4-H dairy show, presented by breeds and classes:

HOLSTEIN

Junior Calf

1. Roy Thompson, East Berlin; 2. Jeff Stambaugh, Spring Grove; 3. Kathy

(Continued on Page 59)

Owned and exhibited by Cindy Knight, "Woodbine Kate Milke" was the reserve grand champion of the 4-H Holstein show at the York Fair this week. Her brother, James, is at the halter.

Red Lion, K-D dominate hog show

YORK - FFA students from Red Lion and Kennard-Dale high schools dominated the FFA hog show, held here on Wednesday. Following is a list of champions and reserve champions by breeds:

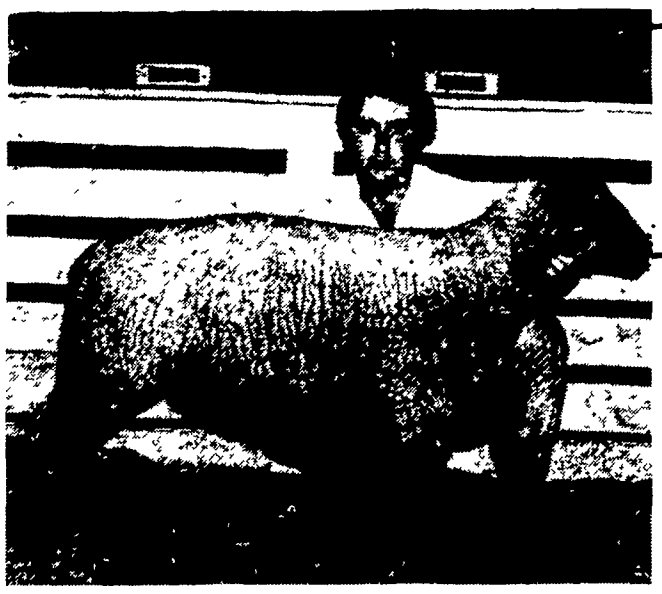
Berkshire - Randy Kilgore, Red Lion, champion; Steve Wilson, Kennard-Dale, reserve; Hampshire - Wayne Bankert, Red Lion, champion and reserve; Yorkshire - Steve Krick, Kennard-Dale, champion; Wayne Bankert, reserve; Spotted Swine - Eddie Ailes, Kennard-Dale, champion and reserve; Market Pigs - Leon Crowl, Red Lion, champion; Wayne Bankert, Red Lion, reserve.

In the market class competition, the winners, by classes, were as follows:

Class 1 - Claude Warner, South Western; Class 2 - Claude Warner; Class 3 - Phil Kimmel, Northern; Class 4 - Wayne Bankert, Red Lion; Class 5 - Leon Crowl, Red Lion; Class 6 - Wayne Bankert; Class 7 - Claude Warner; Class 8 - Claude Warner.

In other breeds exhibited at the show, Becky Aults from Red Lion showed her Duroc to champion honors, while South Western's David Leese exhibited a Chester White to the reserve champion spot.

The champion showman of the show was Wayne Bankert; the champion fitter was Randy Kilgore.



Wayne Bankert of Red Lion R3 had a big week at the York Fair. He excelled in both the sheep and hog shows and is shown here with his grand champion market lamb over all breeds. In addition, he had the grand champion ewe and lamb for Suffolks and Hampshires, and several winning animals in the hog shows.

Eddie Ailes, Delta, showed this spotted Poland China to champion honors for the breed. Ailes, 17, is a senior at Kennard-Dale High School and noted that this was his first grand champion ever. The gilt was born in March out of a sow he had purchased at the Farm Show earlier this year.

4-H dairy show

(Continued from Page 58)

The grand champion showman of the 4-H dairy show is also a good student. LANCASTER FARMING's editor found him slumped over a trigonometry book Wednesday night. Unpretentious and modest of his honors, John Mummert has been showing dairy cattle for eight years. This was the first time the 17-year old student from Dover was chosen as the grand champion showman of the entire 4-H show

Rauhauser, Dover, 4 Michele Trimmer, Lineboro, Md., 5 Beverly Brown, Delta, 6 Kevin Laughman, Thomasville

Intermediate Calf

1 James Knight, Woodbine, 2 Tommy Welsh, East Berlin, 3 Beverly Brown, 4 Barbara Kilgore, Airville, 5 Gary Welsh, East Berlin, 6 Tim Eisenhart, Thomasville

Senior Calf

1 Roy Thompson, 2 Kevin Laughman, 3 Paul Knight, Woodbine, 4 Scott Cooper, Delta, 5 Gary Crowl, Airville, 6 Cathy Arnold, Red Lion

Junior Yearling

1 Peter King, Delta, 2. Barbara Kilgore; 3. Kelly Sue Krebs, Codorus; 4. Abbe Johnson, Airville; 5. Glenn Crowl; 6. John Mummert.

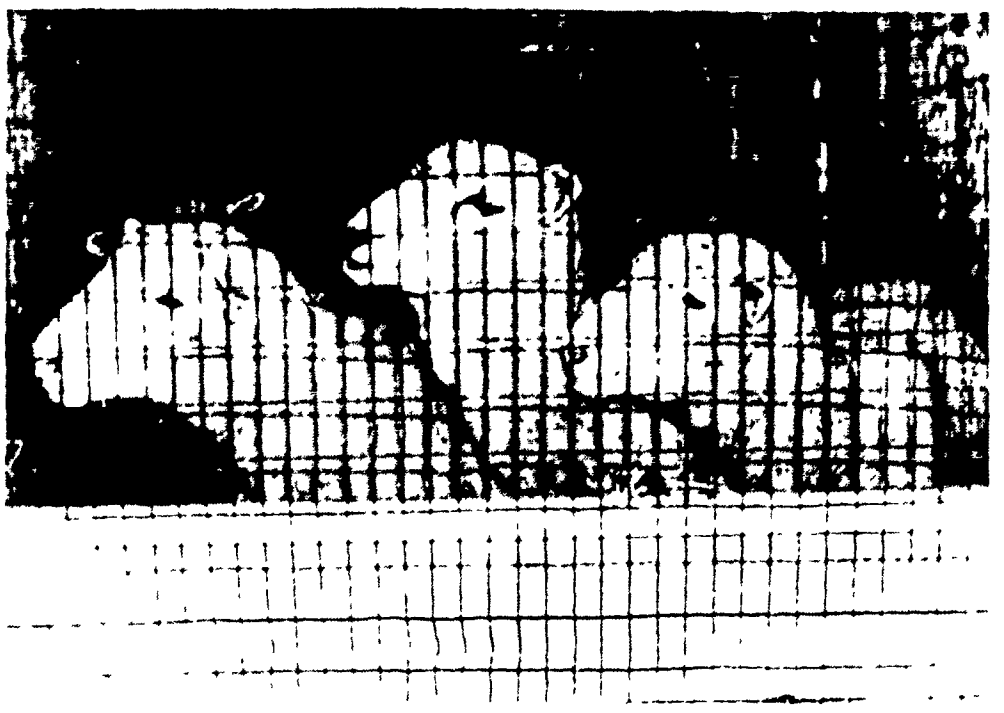
Senior Yearling

1. Cindy Knight, Woodbine; 2. Leonard Greek, Delta; 3. Patricia Greek, Delta; 4. Gary Crowl, 5. Glenn Crowl, 6. Jonathan Miller, Seven Valleys.

Two Year Olds

1. Paul Knight, 2. Dana Doll, Glen Rock; 3. Leonard Greek, 4. Carl Anderson, Spring Grove; 5. Dennis McWilliams, Seven Valleys; 6. Jeff Stambaugh.

(Continued on Page 62)



. . they should know because they had a ringside "seat" for much of the activities, and they watched with complete attention.

Glen Crowl showed this 215-pound Duroc to grand champion in the market hog division of the FFA hog show at the York Fair. He won't be cashing in on anything, though, because the gilt belongs to his brother, Leon, who couldn't be present for the show. The brothers are from Airville.

Michelle Bankert showed both the champion Southdown ewe and ram at the York Fair this week.

Marvin Krone filled in for his sister at the York Fair. He's holding the champion 4-H Brown Swiss animal, owned by Nancy Krone, who is a student at Gettysburg College.

WAYNE Pig Balancer

Wayne's

. . . takes the guesswork out of feeding hogs

Behind Wayne Pig Balancer is a reputation and record of performance that make it a standard for comparison. There's a sound basis for this record. The research behind its development makes Pig Balancer formulation superior to other commonly used supplements or soy–premixes.

Some of the reasons that account for Pig Balancer's predictable performance are:

- quality ingredients
- proper balance of available amino acids
- ample vitamin fortification
- ample fortification of available minerals

Recent results on 7000 hogs from commercial operations like your own, showed that with Wayne Pig Balancer, it took only 3¼ pounds of feed on the average to grow and finish each pound of market hog.

7,000 hogs. 3.24 average feed conversion. When it happens 7,000 times, Wayne Pig Balancer is hardly a gamble. These are the kinds of records you can trust.

Waynextra for Swine No. 1

A concentrated formula of medication and nutrition for the prevention and treatment of certain diseases of swine of all ages.

- Promotes growth in the presence of broad spectrum gram negative and gram positive organisms
- Assures more than adequate vitamin levels in hogs during bacterial stress
- Special carrier assures that hogs receive correct amount of medication.

WAYNE DRY DOG FOOD

Paul Knight is at the halter of Cindy Knight's grand champion 4-H Holstein at the York Fair. She's classified Excellent-91

Cindy Rutter and her grand champion Guernsey.

York Fair

(Continued from Page 59)

Three Year Olds

1. Carl Anderson, 2. Roy Thompson.

Four Year Olds

1. Mark McWilliams, 2. Dennis McWilliams.

Aged Cows

1. Cindy Knight, 2. Cindy Knight, 3 Jeff Stambaugh, 4. Leonard Greek, 5. Ann Miller.

GUERNSEYS

Junior Calf

1 Deborah Lehman, York; 2. Timy Rutter, York.

Intermediate Calf

1. Darryl Rohrbaugh, New Freedom; 2. Todd Rutter, York.

Senior Calf

1. Cindy Rutter, her animal became junior champion.

Junior Yearling

1. Cindy Rutter, 2. Darryl Rohrbaugh, 3. Tina Rutter.

Senior Yearling

1. Timy Rutter, 2. Brian Lehman.

Two Year Olds

1. Brian Lehman, 2. Tina Rutter, 3. Todd Rutter.

Three and Four Year Olds

1. Tina Rutter, 2. Tina Rutter, 3. Barry Lehman.

Aged Cows

1. Cindy Rutter, her entry became grand champion and senior champion.

Reserve Champions

The reserve junior champion belonged to Cindy Rutter, the reserve senior and grand ribbons went to Brian Lehman.

JERSEYS

Michael and Joey Welsh, East Berlin, cleaned up in Jersey competition, having the grand and reserve grand champions, respectively. The same animals also stood as junior and reserve junior champions.

AYRSHIRES

A 4-H member from New Freedom, Rose Clubb, took the top honors in this show, winning the prize with a 6 month old calf Placing as reserve grand champion was Sharon Cress with a 6 month old calf.

BROWN SWISS

Nancy Krone of Glen Rock outscored Tommy Welsh of East Berlin to win the championship in this breed. Miss Krone's animal was the junior champion, as well as grand Welsh was placed as reserve junior and reserve grand. The senior champion was exhibited by Greg Fantom of Delta.

About half of the championship ribbons were won by the Rutters at the Open Guernsey Show at the York Fair this week. Cindy Rutter, who is York County's dairy princess as well as an accomplished showman, holds Rutter Brothers' grand champion, right. Her sister, Tina, left, holds Cindy's reserve junior champion, while brother Tim is at the halter of the junior champion.

Open Guernsey show held at York

YORK - Guernseys from Rutter Brothers Dairy, located just a couple miles from the York Fairgrounds, here, took most of the top championship ribbons in the Open Guernsey Show, held Wednesday, but competition was stiff. Competing for the ribbons were Guernseys from the Benedicts, Rohrbaughs, Lehmans, Hobaughs, and other well-known names among Guernsey breeders. Quite often they captured first place. Following are the top placings of each class:

Junior Calf
1. Marian Benedict, 2. Timy Rutter, 3. Debra Lehman, 4. Brian Lehman.

Intermediate Calf
1. Todd Rutter, 2. Daryl Rohrbaugh, 3. Rutter Brothers.

Senior Calf
1. Cindy Rutter, 2. Rutter Bros., 3. Fred Hobaugh.

Junior Yearling
1. Tina Rutter, 2. Cindy Rutter, 3. Daryl Rohrbaugh.

Senior Yearling
1. Timy Rutter, 2. Brian Lehman, 3. Debra Lehman, 4. Marian Benedict, 5. Fred Hobaugh.

Best Three Junior Females
1. Rutter Brothers, 2. Rutter Brothers, 3. Marian Benedict.

Junior Champion
Timy Rutter

Reserve Junior Champion
Cindy Rutter

Jr. Get of Sire
1. Rutter Brothers, 2. Fred Hobaugh, 3. Marian Benedict.

3 or 4 Year Old Dry Cow

By

Dieter Krieg,

Editor

One of the worst things that can happen to a dairyman is to have to milk his cows by hand That happened to us two mornings in a row during the late summer of 1962 — just two days before we were going to move to a place of our own

A severe thunder storm had struck one of the huge maples in front of the house during the night and nearly a third of it dropped across the power lines

There were more than 80 milking cows in the herd at that time, and milking them became a family affair. All seven of us had our finger and arm muscles exercised a little more than usual that morning. Even Friederike, my youngest sister, eight years old at the time, was sitting by some of the more gentle cows and filling her bucket with milk.

Without an alternative power source for electricity, we had no lights, other than flashlights, and the headlights of a tractor which stood outside. The vacuum pump, which normally powered the milkers, was useless to us. And none of the tractors on the farm was equipped with a vacuum valve on the intake manifold.

Heaviest producers were milked first, and some of the cows which only gave a few pounds per milking were skipped Nevertheless we came up with the usual amount of milk for the pick-up that morning

By mid morning the power company had fixed everything and we were happy to hear the pulsing of the milking machines that afternoon Not one of us wanted to go through another milking by hand — but another severe thunderstorm came up again during the night The same tree was hit, leaving only about half of it standing

Cows usually look forward to being milked — if for no other reason than to come to the barn and eat and relieve themselves of pressure in the udder. But most cows are only used to being milked with machines. The touch of human hands isn't always appreciated. Consequently we occasionally ended up with half a bucket of milk, plus one big foot swimming in it. This situation was especially likely to happen if the cow was a relatively hard milker and a person had to squeeze fairly hard to bring out the white fluid.

Times have changed since then. Not the thunderstorms — but the facilities which a dairyman has to work with. Most farmers, especially those with large herds, have stand-by generators in case of power failures.

How to dispose of containers

Proper disposal of empty pesticide containers is the final act in using a pesticide safely The first step in safe handling of such containers is to follow label instructions from the manufacturer and then check with local authorities for existing disposal regulations

The following procedures for disposing empty combustible containers are listed in order of preference

- Burn empty containers in an open fire at the site of use if permitted by local authorities
- Burn empty containers in a supervised public or private dump Notify the dump supervisor of the nature of the containers so that necessary precautions may be taken
- Burn empty containers in a commercial incinerator
- If unable to burn empty containers in any manner, thoroughly crush them and bury the pieces where permitted by state or local authorities

Non-combustible containers holding liquids should be rinsed and drained immediately after emptying. The following procedures are recommended:

- Empty containers into spray or mix tank and drain in a vertical position for 30 seconds
- Add a measured amount of rinse water (or other diluent) so containers are one-fourth to one-fifth full
- Rinse containers thoroughly, pour into tank and then drain for 30 seconds Repeat this procedure three times Puncture only one- and five-gallon steel containers near the pour spout to allow for complete drainage of third rinse

Farm labor reviewed

HARRISBURG - Farm workers in Pennsylvania during the survey week of July 11-17, 1976 were estimated at 165,000, an increase of 4,000 from a year earlier. The increase occurred in the family sector, now estimated at 120,000 compared with 115,000 in July 1975, a four per cent increase. Hired workers on Keystone State Farms totaled 45,000, a decrease of 1,000 from a year earlier. Field and livestock workers comprised 36,000 of the 45,000 hired workers this July.

Pennsylvania farm operators averaged 47.7 hours during the survey week while hired workers averaged 43.6 hours. The average work week for other unpaid family members during the survey period was 42.6 hours.

The Pennsylvania wage rate for all methods of pay converted to an hourly rate averaged $2.33 during the survey week. This compares with $2.26 per hour last July.

Poultry judge is T.V. actor

By JOANNE SPAHR

YORK - The chickens in the poultry building at the York Fair last week were privileged - they had a movie star in their midst No, neither John Davidson nor Tennessee Ernie Ford accidentally wandered into the small livestock building by mistake Instead, the movie star in mind was a paid judge

Actually, Richard Holmes of Washington, D C doesn't claim to be a big name entertainer, but he does attest to the fact that he's a professional actor and teacher of drama at the Maryland Academy of Dramatic Arts in Bethesda, Md

And, while he can be seen on T.V this Monday night in a movie entitled, "Airport 1975", he still got a thrill last week from riding in an elevator with Tennessee Ernie Ford

"He was a very courteous man," says Holmes "He was also a very sleepy man as he made his way to breakfast with a friend"

Holmes says Tennessee Ernie, one of the big name attractions at the Fair, politely thanked Holmes for his compliments and made his way for some bacon and eggs the morning following his appearance at the Fair

Holmes, a man who travels all over the country pursuing his hobby of poultry raiser and judge, stopped off at the York Fair last week for two days of poultry judging in what has been called the largest poultry display at the Fair in five years He commented on seeing some exceptionally high quality poultry specimens this year and said it is always a pleasure to return to York, the 'heart of the American Poultry Fanciers Industry"

How did a man who has a Bachelor of Arts degree from The American University in Washington D C and a history of acting on Broadway, T V, and films get interested in poultry?

"My father, who was likewise a poultry breeder and also a national poultry photographer, took me to the famous Madison Square Garden Poultry Show in 1943, and I've been hooked ever since," he explains Holmes breeds and shows Brown Leghorn Bantams

But, isn't judging poultry a little hot and dirty with awfully low pay for an articulate man of the arts?

"Oh, no," says Holmes nonchalantly. "Besides, it gets me all around the country at minimum cost." Usually, the fee paid a judge is just enough to cover costs for Holmes.

Holmes has been a licensed judge for both the American Bantam Association and the American Poultry Association, for 12 years and has judged and shown all over the United States and Canada.

According to Holmes, getting his two licenses for poultry judging was as intensive as getting a Masters Degree.

"There's a written part to the test, and a practicum," he explains. "Sometimes the written area takes people as long as seven hours to complete," he adds. So this poultry judging is not kid's stuff.

But, getting his license was really worth it for Holmes. "Some people play golf," he says, "But I raise and judge poultry."

He manages to squeeze this hobby in between acting assignments and his job as Artistic Director of the Maryland Academy of Dramatic Arts.

Perhaps this Monday on his travels he will stop judging poultry for a minute to watch himself on television playing the part of Dr. Charles Weiner of Jefferson Memorial Hospital in "Airport 1975."

Richard Holmes, a licensed poultry judge employed by the York Fair this year, is also a T.V. and Broadway actor. He can be seen this Monday night on the movie of the week.

Atlas offered

NEW YORK, N.Y. - American Map Company, Inc. announces publication of its 1976 Cleartype Business Control Atlas of the United States and Canada. One hundred and twenty-four pages hard cover, spiral plastic bound, the book consists of individual full page maps for each state of the U.S.A. and each province of Canada with full page index for each map, each index facing its corresponding map. Indexes give names of towns, counties in which located, populations, coordinate locations of maps. Maps show all counties, towns of 1000 population and over classified by symbols as to populations groupings. All county seats listed. Separate maps covering Chicago and New York Metropolitan areas. Populations based on the latest interim state reports up-dated from the census of 1970. Map of Canada. Fold-out county-town map of the U.S.A. Price $8.95 at most map and stationery stores or $10.05 postpaid from American Map Company, Inc., 1926 Broadway, New York, N.Y. 10023.

Two schools dominate FFA dairy show

YORK - It was all Red Lion and Kennard-Dale when the list of champions was made up for the FFA Dairy Show, held here on Wednesday at the York Fair Following is a break-down of the results

In the Holstein show, James Knight of Airville captured the grand championship with "Pleasant Site Ivan King Pride," a 7½ year old granddaughter of the famed "Osborndale Ivanhoe" Knight, 14, is the son of Mr and Mrs George Knight and attends Kennard-Dale High School In addition to his grand champion ribbon, the young dairyman also picked up trophies for senior champion, reserve senior champion, and dam-daughter pair

Barbara Kilgore, daughter of Mr. and Mrs C Robert Kilgore, Airville, exhibited the junior champion - which was later chosen to be the reserve grand A dedicated enthusiast of Holstein showing, Miss Kilgore was also presented with top honors of the show for fitting. She attends Red Lion High School.

The other championship ribbon in the Holstein show went to Glenn Crowl, also of Airville, for reserve junior champion.

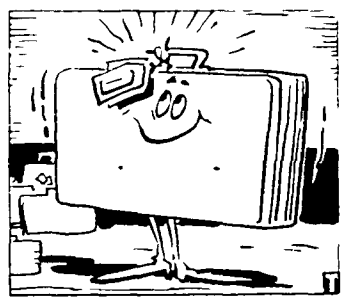
Patty Greek, Delta, was chosen as the champion showman of the show, which featured more than 30 animals in four breeds.

Fourteen-year old James Knight with "Pleasant-Site Ivan King," the grand champion of the FFA Holstein show at the York Fair. The young man from Woodbine also had the reserve senior champion and first-place dam-daughter pair.

George Knight had no trouble showing his Ayrshire animals to highest honors, a feat the young man has accomplished consistently. Better known for his accomplishments with Holsteins, Knight stepped into the Ayrshire show ring a year ago when a fine animal with a reasonable price tag crossed his path. George is the brother of James Knight.

Two Red Lion girls, Tina Taylor and Cathy Arnold, were champion and reserve champion, respectively, in the Brown Swiss show.

Jersey competition, with nine animals entered, was the biggest of the colored breeds represented. Barbara Snyder checked in with the champion animal, while Jeff Rexroth came in second. Both are enrolled in the Red Lion FFA program.



The X-ray devices some airlines use on luggage may not be good for your camera film, so pack your film with your hand luggage and tell the airline people where it is.

Some restrictions lifted

DER standards modified

HARRISBURG - The Agricultural Advisory Committee to the Department of Environmental Resources (DER) has approved three proposed changes to the state's erosion and sedimentation control regulations and forwarded them to DER Secretary Maurice K Goddard for submission to the Environmental Quality Board

The Committee approved the proposals at its September 9 meeting

The proposals would.

-Indicate that a landowner is responsible for developing and implementing an erosion and sedimentation control plan and for notifying any tenant or lessee of his responsibility to adhere to the plan

-State that landowners who have applied to their conservation district for an erosion and sedimentation control plan or conservation plan would be considered in compliance with the mandated July 1, 1977 deadline for compliance with the regulations by agricultural activities.

-Provide that if implementation of a soil erosion and sedimentation control plan presents an "undue financial hardship" for the farmer, he would be allowed to delay implementation of those portions of the plan causing such hardship The proposal suggests that a financial criteria set yearly by the Agricultural Stabilization and Conservation Service be used to determine financial hardship

The Committee also accepted the principles contained in a draft manual on manure management for environmental protection It directed that final editing of the manual continue and asked that DER give it a policy review

It was pointed out that the manual would lift some existing restrictions while imposing no new limitations

The Department would consider the manual as a guide rather than a regulation Use of the practices cited in the manual would allow a farmer to avoid the usual DER permitting process

There would be no requirement that the practices be followed, however, and farmers could use their own practices after consultation with the DER regional office on needed permits

The Agricultural Advisory Committee's subcommittee on air pollution had suggested to the Department three possible approaches it could take in revising air quality regulations to exempt some seasonal agricultural activities

Although the Department has indicated it would not as a matter of policy want to prosecute such violations, the subcommittee felt it would be better to modify the regulations so the farmer would not be operating illegally

Crops booming

HARRISBURG - Pennsylvania's 1976 crop of corn for grain should set a record production based on conditions September 1 according to the Crop Reporting Service.

The indicated production of 100,320,000 bushels is 13 per cent over last year and the record 1974 crop. Prospects improved during August and yield is now expected to be 88 bushels per acre.

The U.S. forecast is now for a 5,892 million bushels crop, five per cent below the August 1 forecast but two per cent above 1975.

Pennsylvania oats production as forecast at 18,250,000 bushels is four per cent lower than last month and down five per cent from last year. Yield prospects declined last month by two bushels. The U.S. crop is forecast at nearly 564 million bushels, 14 per cent below last year.

Pennsylvania's 1976 tobacco crop is expected to produce over 23 million pounds, 17 per cent above last year. Yield is forecast at 1,850 pounds compared to 1,650 in 1975. U.S. production is forecast at 2,035 million pounds, down seven per cent from 1975. Both acres for harvest and indicated yield are below last year.

Pennsylvania grape production is forecast at 54,000 tons based on September 1 conditions, a prospective 13 per cent increase over 1975 production.

Area students guide Hort Show

UNIVERSITY PARK - "A Bicentennial Salute to Horticultural Pennsylvania" will be the theme of the 63rd Annual Horticulture Show being held here this weekend at Penn State University. Underway the weekend of the Ohio State-Penn State football game, the event will be held in the campus Ice Pavilion. A number of students from Lancaster Farming's prime coverage area are involved.

The show is the year's major project of the Penn State Horticulture Club, according to Kathy L. Bauer, manager. Each Horticulture Show is developed entirely by club members and attracts 15,000 to 20,000 visitors annually, the student from Pittsburgh added. Miss Bauer is a junior majoring in horticulture. Faculty and staff members cooperate in producing the event.

The assistant show manager this year is Scott D. Guiser of Phoenixville, a junior in horticulture. Co-managers of sales are Kim S. Myers of York, a senior in horticulture. Assistant sales managers are Mike R. Heffner of Lancaster, junior in horticulture, and Lara Siebert of Berwick, junior in horticulture

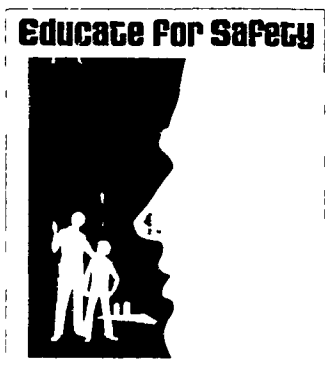
Joe S. Zagorski of Philadelphia, senior in horticulture, is the exhibit coordinator while Walter Kowalski of Ambridge, junior in horticulture, is in charge of construction along with Hugh S. Darlington of Berwyn, sophomore in horticulture. Heading up publicity is Sandra A. Potts of Indiana, senior in horticulture.

Managing the introduction-dedication section are Mark P Bridgen of Arnold, junior in horticulture and president of the Hort club, and Jim V. Consoli of Pittsburgh, junior in horticulture. Drawings for the Horticulture Show will be done by Charles J. McGovern of Yardley, sophomore in architectural engineering.

The floriculture exhibit is under the management of Bill C. Miller of Berwick, junior in horticulture; Frank D. Palombo of Pittsburgh, sophomore in agriculture; and Jeff E. May of Mechanicsburg, junior in art. The fruit division is under the direction of Gene H. Schramm of Pittsburgh, sophomore in horticulture.

Heading up the vegetable section is Marilyn L. Jezik of Natrona Heights, senior in horticulture. Robert A. Rave of Huntsville, junior in horticulture, and Dan J Kepich of Exeter, junior in horticulture, are managing the environmental plants section

The Penn State "Hort Shows" of today have changed greatly from the first event, manager Kathy Bauer pointed out. The first show was held during Farmers' Week in January 1908, in the attic of what is now Armsby Building. The featured exhibit was a 9-year-old York Imperial apple tree. Today, "hort students" work toward an aesthetically appealing exhibit, as well as an informative one, Ms. Bauer said.



E-Town Fair categories set

ELIZABETHTOWN — Sara Myer, chairperson of the Market Place Fair for the 1976 Elizabethtown Community Festival, has announced the categories for this year's fair, which will be held September 28 through October 2 at the old Kiwanis fairgrounds on the Elizabethtown College campus.

For the first time, the Market Place Fair will accept entries in a youth division as well as the senior division. Youth division categories, open to exhibitors under 19 years of age, are vegetables; corn, other grains, hay and tobacco; fruits; foods (baked goods); needlecraft; knitting and crocheting; art and handcrafts; home furnishings; and model-building.

FFA, FHA, and 4-H class entries will be accepted in the youth division which is under the supervision of Sallie Miller.

Categories for the senior division, open to all ages, are hay and grain, vegetables; fruits; home and dairy products (including baked goods); floral exhibits; needlecraft; art, photography, and crafts; and group exhibits.

Exhibits will be accepted at the Market Place Fair tent at the fairgrounds on Kiwanis Boulevard off College Avenue from 9 a.m. to 9 p.m. Monday, September 27 only. The entry fee is 20 cents per item.

Judging will take place Tuesday, September 28, from 9 a.m. to 6 p.m. The Market Place Fair will open to the public at 6 p.m. on Tuesday.

The baked goods entries will be auctioned off at 7 p.m. Tuesday evening with the proceeds going to the benefit of the community service projects of the Elizabethtown Jaycees, who are the prime operators of the festival.

Complete Market Place fair information will be found in the festival booklet.

Further information is available by calling Mrs. Myer at 367-3344.

Maryland 4-H'ers score at Timonium

TIMONIUM, Md - Livestock fitting and showing competition is one area where 4-H and FFA members, as well as their animals, must present a good appearance to the judges in order to score well The same philosophy applies to horse grooming and showmanship classes

Youngsters who impressed the judges at this year's 95th annual Maryland State Fair, held here earlier this month included

BEEF CATTLE

Angus - Robert Miller, 14, of Woodsboro

Hereford - Jeffrey Treadway of Ashton

Shorthorn - John Schmidt of Monkton

Other breeds & crossbreds - Bruce Bennett of Daisy

Grand Champion - Bruce Bennett

Robert Miller, top Angus showman, also exhibited the grand champion beef animal, a 1,120-pound purebred Angus steer His sister, Pam, had the champion Angus breeding heifer

DAIRY STEERS

Champion showman was Scott Wilson of Parkton He is the third consecutive 4-H member from northern Baltimore County to win this event

DAIRY HEIFERS

Ayrshire - Ralph Shank, Jr , of Hagerstown

Brown Swiss - Scott Drown of Westminster

Guernsey - Carroll Huston, Jr.. of Salisbury

Holstein - Robert Smith of Monkton

Jersey - Kevin Stiles of Boonsboro

Milking Shorthorn - Karen Kline of LaPlata

Kevin Stiles was named grand champion over all breeds in dairy heifer fitting and showing He had also been the champion Jersey showman at the 1975 Maryland State Fair

DAIRY GOATS

Teresa Mastrangelo of Cumberland was junior champion and grand champion in fitting and showing of dairy goats Her goat, "Ginger," was also named senior champion of the Toggenburg breed at the Maryland State Fair

SHEEP AND SWINE

Norma Cockey of Sykesville was named senior champion and grand champion in sheep fitting and showing Steve Martin of Smithsburg was her counterpart in swine fitting and showing

WESTERN HORSE GROOMING AND SHOWMANSHIP

Junior

Micki Huntt of Brookeville, riding "Hey Joe Bar", 2 Laurie Albert of Owings Mills, riding "Skipbar Count", 3 Bonnie Connelly of Dundalk, riding "Miss Kelli"

Senior

1 Christine Shipman of Elkridge, riding "Reno's Vaquero", 2. Stephanie Romadka of White Marsh, riding "Diamond Leo Boy"; 3. Jerry Sevier of Essex, riding "Susie Bouncer"

GRAND CHAMPION - Christine Shipman

RESERVE CHAMPION - Stephanie Romadka

Society 28

The September meeting of Farm Women Society 28 was held recently at the home of Mrs. Lloyd Denlinger, Clearview Rd., Lancaster.

The Ways and Means Committee announced plans for a hoagie sale for October 27. Orders must be taken by the next meeting on October 21.

The group decided to take three meals a week for four weeks to Mrs. Ervin Stoltzfus. Several members will also spend a day housecleaning for her since she is ill.

The speaker for the evening was Joyce Burkholder of Goodwill Industries.

The next meeting will be held on Thursday, October 21, at the home of Mrs. Melvin Zimmerman, Shenk Avenue, Strasburg. Doris Thomas will speak on "Safety in the Home."

Ag administrator with Ford's election committee

WASHINGTON, D.C. - Appointment of Edward J. Hekman, a former food industry executive and Agriculture Department administrator, to head an effort to enlist business and industry support for President Ford's election, was announced today by James A. Baker III, chairman of the President Ford Committee.

Hekman, a friend of the President from childhood when they lived across the street from each other in Grand Rapids, Mich., resigned September 3 as administrator of the Food and Nutrition Service of the Agriculture Department after seven years' service in that position.

Hekman will direct his efforts to working with industry, primarily the food industry in which he has broad experience.

Before joining the Agriculture Department in 1969, Hekman was president of the Keebler Company. During his business career, he served on the Board of Directors of the Grocery Manufacturers of America, the Nutrition Foundation, and the National Association of Manufacturers.

Hekman and his wife, Florence, are residents of the District of Columbia.

Lamb increases predicted

BOISE, Idaho - A turnabout in lamb production and consumption is anticipated by many industry leaders, according to John Miller, Des Moines, Iowa, chairman of the Lamb Committee of the National Live Stock and Meat Board

'Current lamb consumption is only about two pounds per capita, the lowest for any red meat," said Miller "But we are seeing renewed consumer interest in our product and we are taking action to boost consumer demand " He made his comments at a Meat Board meeting here this summer

A plus for the industry, according to Miller, are new, lower recommended temperatures for the degree of doneness for serving rare and medium lamb

"The lower temperatures enhance both the taste and appearance of our product," said Miller

"Of course, increased promotion requires increased industry support and we're very pleased with the lamb s industry's response to that need," said Miller

At the Meat Board's Winter meeting in February, the directorate adopted new per head investment rates for livestock, with lamb investment increasing from one cent to two cents per head The new rate was a "goal" to be reached as soon as possible

"Within a few months after the Winter meeting, virtually all lamb marketings in the country were on the two cent rate," the Lamb Committee chairman said

As part of the industry's total stepped-up promotion work, the Lamb Committee of the Meat Board, in cooperation with the Lamb Promotion Coordinating Committee, sponsored the production and distribution of a full-color lamb photo feature for newspaper food pages The feature, with recipe and editorial copy, was used by 80 newspapers with a combined circulation of 2 8 million readers

The LPCC is a joint program of U S , Australian and New Zealand sheep producers to conduct consumer promotion for lamb

'The lamb color feature was in addition to the regular promotion, merchandising and consumer education programs conducted through the Meat Board," said Miller

To coordinate total lamb industry efforts, including the American Sheep Producers Council's "Blueprint" for expansion, the Lamb Committee works closely with other major sheep and lamb organizations

"We can't boost consumption without the production to provide the product," said Miller. "The ASPC plan calls for the industry to have 50 per cent more ewes, save 25 per cent more lambs and increase carcass size by 15 per cent "

ASPC, the National Lamb Feeders Assn and the National Wool Growers Assn all are represented on the board of directors of the Meat Board and its Lamb Committee

Wheat loan announced

WASHINGTON, D C - Producers with wheat grading "sample" because of sprout damage are now eligible for recourse loans, the U S Department of Agriculture announced today

USDA explained that the recourse loan is the only type of loan available for sprout-damaged wheat and that the entire amount of the loan plus interest and a handling fee must be repaid

The loan rate will be 75 per cent of the loan rate for No. 5 grade wheat for the county involved with the moisture content limited to 13 5 per cent. The interest rate is 7.5 per cent and the maturity date is Jan. 31, 1977.

Producers who wish to participate in this program should contact their county Agricultural Stabilization and Conservation Service office or Agricultural Service Center.

FOOD BASKET

Prevent Curdling

Acid such as tomato sauce or lemon juice often causes hot milk to curdle To prevent this in tomato soup thicken the milk first and add the tomato juice just before serving

Imported Delight

The European anchovy is imported to the United States either only fillets or quality paste packed in small tins and old as hors d'oeuvre Most species of the fish silver colored fish are only about five inches long though some grow to nearly twice that length Only a few species are heavily fished commercially

Sherried Rice

Drain 1 small (6 to 8 oz) can of sliced mushrooms saving the liquid Add enough water to make two cups Add 1 bouillon cube the drained mushrooms 2 cups packaged precooked rice and 2 tablespoons of butter Cook according the package directions for the rice Stir in one-quarter cup dry sherry and 2 tablespoons chopped parsley Serve hot

Blueberries

Blueberries will not grow in normal garden soils They need acidity much higher than is found in the average garden and too high for the growth of most flowers and vegetables

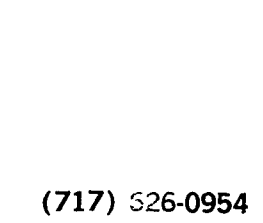
WEX



UNIQUE SURFACTANT assures superior results with ag-chemicals

WEX
- Makes water wetter
- Reduces foaming of ag-chemicals
- Helps suspend wettable powders
- Causes greater saturation
- Improves coverage and penetration
- Aids compatibility of specific ag-chemical combinations

Proven on millions of acres during five growing seasons

NUTRIENT RELEASE AGENT helps you feed your crops

Wex helps your crop achieve its genetic potential by
- Releasing more soil nutrients
- Increasing trace nutrient uptake
- Enhancing fertilizer activity
- Distributing nutrients throughout the root zone

Thereby increasing your real yield at harvest

Like all living things your crops should be fed properly

Seed supply and quality cautions noted

ANNAPOLIS Md Maryland farmers are advised to buy their small grain seeds for Fall planting early and to make sure the seed they buy is Maryland Certified

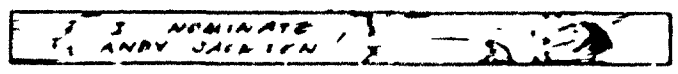
That's the advice from Ronald I Johnson, director of the Maryland Department of Agriculture's Division of Plant Industries, which oversees the state's certified seed program

Johnson says The supply of Maryland certified small grain seed is good and the quality of it is excellent This is because weather during seed harvest here was excellent resulting in a fine seed crop However, the national weather picture has not been as good as ours and, therefore, seed crops from other states this year are in short supply and not as high in quality

At the same time James R Fisher chief of MDA's Turf and Seed Certification, cautions farmers here in Maryland, Don't be tempted to hold over some of your own seed for use this Fall Despite the quality of your crops, the gamble of holding seed from your own fields for the next crop isn't worth the risk Certified seed is still the soundest investment a farmer can make

Another note of caution sounded by both Johnson and Fisher is seed treatment They say much of the seed offered for sale this Fall will be untreated and thus risky Day says, Seed treatment is important to all of Maryland We have only one satisfactory long-lasting seed treatment (a fungicide) and that is Vitavax or Vitavax 200 All of the others are poor at best Insist, whenever possible, on properly tested seed"

A rundown on seed quality and availability, as seen by the Maryland Department of Agriculture shows wheat and barley - a good local supply of high quality, while nationally, shorter supplies and great quality variations, alfalfa - fair supply, but a weak quality on best varities, grasses - supply good, prices high and quality as good as the buyer will demand; orchardgrass - good lots scarce for best Maryland growing varities, imported seed and Northwest varities good as far as supply; Kentucky 31 tall fescue - short supply and high prices; clovers - local red clover short supply and, in general, very short supply nationally, which is being aggravated by strong export demand.



The first presidential candidate to be nominated at a party convention was Andrew Jackson nominated by the Democratic party at their national convention which was held in Baltimore in 18[illegible]

Atlantic City hosts Grange

ATLANTIC CITY, N J — The 110th annual session of the National Grange will be held here on Nov 8-15 The Grange will be the first major farm organization to meet following the Presidential election

John Scott, Master of the National Grange, said the results of the election will not have an influence on the basic legislative philosophies of the Grange. "It will, however," said Scott, "give the Grange the first opportunity to address the major issues facing the next Administration and most importantly a major overhaul of farm policy legislation."

Scott said the Grange, which is the oldest and second largest farm organization, has always been non-partisan and will not be actively engaged in supporting either candidate. "This non-partisan position has served us well over the years," said Scott, "as it enables us to work free and clear with both Republicans and Democrats."

Delegates attending the national convention will represent rural-urban interests from 38 states. Over 500 resolutions dealing with agriculture, national welfare, conservation, foreign affairs, taxation, education and health and transportation will be acted on. These resolutions will come from local Granges all across the country.

MANAGING YOUR MONEY

Before investing in any stock or bond it's wise to look over the company's annual report It's free Simply write to the public relations director or the investor relations manager

you can find the names and addresses of these people in O'Dwyer's Directory of Corporate Communications' Not all libraries have it so call before you go The publisher, Jack O'Dwyer, is a former newspaper columnist whose office now is at 271 Madison Ave , New York, N Y 10016

Daily beef reports started

WASHINGTON, D.C. - The U.S. Department of Agriculture's market news reporting program is now releasing a computed carcass value based on the wholesale price of fabricated beef cuts.

Daily reports released from the Des Moines livestock and meat market news office will be based on average Chicago prices for fabricated Choice beef cuts and average industry yields for those cuts. USDA officials emphasized that the reported cut-out value will not include any adjustment for packers' processing costs.

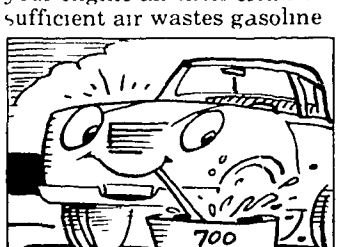
The report will be disseminated on USDA's leased wire teletype network that links market news offices from coast to coast. It will be carried daily shortly after the 1:30 p.m. fabricated beef cut report, and weekly averages will be published in the "Livestock, Meat, and Wool Market News National Weekly Summary and Statistics."

Officials of USDA's Agricultural Marketing Service (AMS), which administers the market news program, explained that the new quotation was developed because during the past few years carlot sales of fabricated beef cuts have substantially increased and sales of carcass beef have declined. The new figure will give an approximation of gross carcass value, based on the combined value of the trimmed fabricated cuts from the carcass.

Market news on livestock, meat, and wool is a service provided by AMS in cooperation with state departments of agriculture.

Energy Saving Tips

The average American car consumes well over 700 gallons of gasoline a year Yours can save some of that if you keep your engine air filter clean Insufficient air wastes gasoline



The experts who are part of International Paper's Badger Program, which stands for Better Actions Develop Greater Energy Reductions and which urges people to save energy at home, at work, at school and on the road, say you can save up to 10 percent on your family fuel consumption if you have your furnace serviced once a year

What's New

BREEDING GUIDE

CARY, Ill. - Curtiss Breeding Service, one of the nation's largest dairy and beef bull studs, claims to have released the most innovative holstein breeding guide in history. Curtiss' New 1976-77 Holstein Breeding Guide enables dairymen to select A.I. bulls with greater confidence in their individual breeding capabilities than ever before, say Curtiss officials.

Curtiss Holstein bulls are grouped into simplified "Breeding Strength" categories, matched to individual dairy cow needs. Called "Guidelines for Breeding Complete Cows," this new method gives dairymen the best opportunity available today for herd improvement through easy cow analysis and bull selection.

There are six "Breeding Strength" categories: 'Dairy"..."Tall"..."Flat Bone"..."Strong"..."Smooth"..."Style". All measure and easily define physical "type" and production-oriented characteristics.

For additional guidance, all official data on the bulls are reported...Total Performance Index, Predicted Difference for Type, photographs of the bulls, their dams and daughters, pedigrees, and much more.

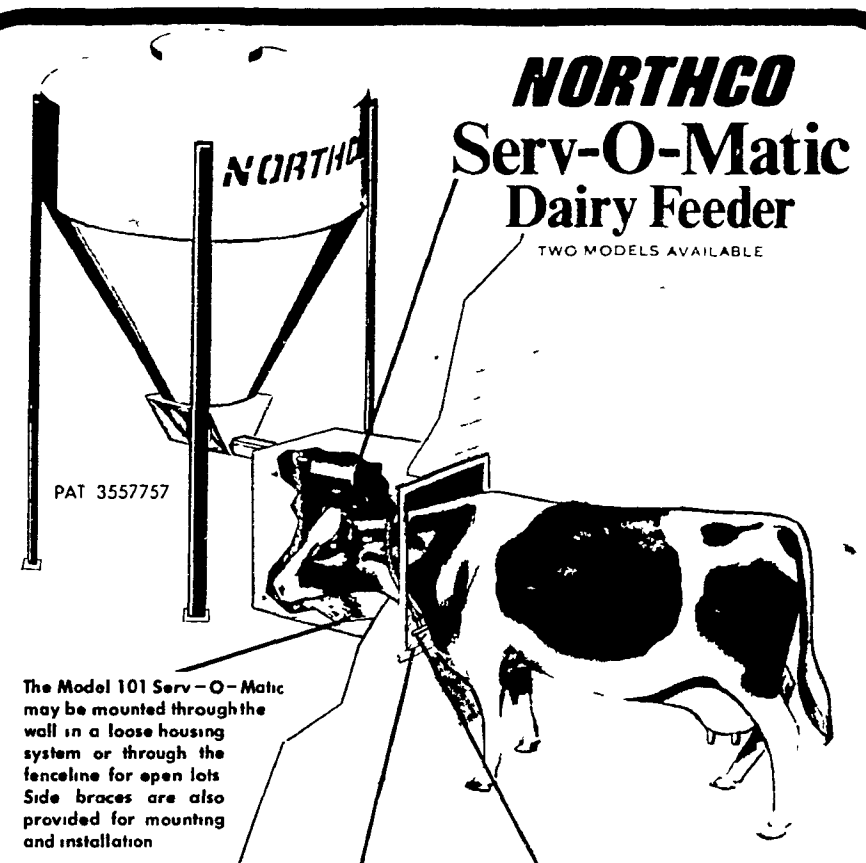
NORTHCO
Serv-O-Matic Dairy Feeder
TWO MODELS AVAILABLE



The Model 101 Serv-O-Matic may be mounted through the wall in a loose housing system or through the fenceline for open lots Side braces are also provided for mounting and installation

The feeder opening is designed to permit only one cow to eat at a time A 2 inch auger drops approximately 1 lb of concentrate per minute into the feeder this is the same rate the cow eats no feed remains in the feeder when she moves away

A simple magnet around the cow's neck will activate the feeder motor as she places her head into the feeder Cows without a magnet are unable to get feed

"Selectively" Provides More Feed to Top Producers

The Serv-O-Matic Dairy Feeder enables you to feed additional grain and concentrates only to the top producing cows in your herd! It eliminates the labor problem of separating the herd in a loose housing system to give individual attention to top producing animals.

The Serv-O-Matic is activated by a simple magnet fastened around the cow's neck. This way, only the cows you select can activate the feeder and receive additional ration . . yet all animals can still be housed togeiher.

Each cow producing 10 lb. or more over the herd average should receive extra feed In actual trials, cows on the Serv-O-Matic consume an extra 10 lbs. of grain per day [while eating some less in the parlor] Milk output shows an average increase of 1 lb of milk for each pound of concentrate fed through the Serv-O-Matic . some as high as 5 lbs. of milk per pound of feed!

One Serv-O-Matic will normally handle 20-30 cows in an 80-120 cow herd. Normal procedure is to put fresh cows on extra ration and remove the magnet when production drops to a predetermined level

Horsemen do well at districts

CARLISLE Lancaster County 4-H Horse Club members made an excellent showing in events on September 11, at the District 6 4-H Horse Show at the Ryegate Show Grounds near Carlisle.

Out of the 58 placing for eligibility to the State Show in November (11th and 12th) at the Farm Show Building in Harrisubrg, 17 Lancaster 4-H'ers captured 21 berths. There were 270 4-H members from the eight county regions vieing for these placings.

Leading the way was Ray Carmean, East Petersburg, with a first in pole bending horses and a first place in clover leaf barrel races horses, Leslie Sherman, Kayo Avenue, Lancaster, was second in saddle seat equitation senior division and second in saddle seat pleasure ponies; Doug Fellenbaum, Lititz R3, placed second in western pleasure ponies, Sharon Gernert, Manheim R4, won a second in pair class along with Donna Sammons, Neffsville, her partner; Debby Huber, Columbia, had a second in saddle seat equitation junior division, Ricki Buckwalter, Denver R1 had first in grooming and showmanship junior division, Natalie Immel, Lititz R3 took second in grooming and showmanship senior division and second in western pleasure horses, Heidi Baily, Quarryville R3 had second in hunter seat equitation over jumps - senior division; Cindy Petters, Lancaster, second in saddle seat pleasure horses; Carol Stinson, Strasburg R1 had second in hunter under saddle, ponies, and third in hunter seat equitation over jumps - senior division, Robin Tshudy, Manheim, first in western pleasure ponies, Stephanie Kurtz, Hershey, first in pleasure pony driving, Lyn Lenker, Hershey, first in hunter seat equitation, not to jump, junior division; Daryl Friedricks, Lancaster, third in saddle seat pleasure ponies; James Glick, Bareville, first in western pleasure horses; and Mike McCall, Columbia, second in pole bending - horses.

Other county 4-H members winning ribbons for their efforts were Lori Sammons, Neffsville, Pam Sammons, Neffsville, Paula Splain, Columbia; Brian Immel, Lititz R3; Daphne Immel, Lititz R3; Karin Risser, Stevens; Judi Anderson, Lancaster; Elizabeth Abel, Quarryville; Kim Bernhardt, Manheim; Sue Cassel, Manheim; Terri Mummau, Manheim; Sue Baker, Lancaster and Richard Hecker, Lancaster.

The classes at the district contest gave members an opportunity to display their skills in horsemanship and ability to groom a horse for showing.

The primary purposes of the 4-H horse program are to develop riding skills; gain self-confidence by competing in shows; receive training in leadership and citizenship; and learning the meaning of responsibility by caring for an animal.

To Make The Best Better

I Pledge...

- My HEAD to clearer thinking,
- My HEART to greater loyalty,
- My HANDS to larger service, and
- My HEALTH to better living, for my Club, my Community, and my Country.

A Cage isn't enough

It takes more than wire to make a cage system More than anything else it takes a feeder

Sure, other components are important. but mainly it's the feeder that makes the system. That's why the Big Dutchman Tri-Deck system outsells the others. Tri-Deck is equipped with our SPEED FEED chain feeder that feeds every bird the right amount at the right time, without waste.

When you compare poultry equipment remember that the real test of a cage system is its feeder. Big Dutchman is ready for the test.

Big Dutchman, where proven ideas are put into action.

Counting blessings

American consumers complain about high food prices, unit pricing, inadequate labelling, etc.; businesses decry inflation, and individuals want better, safer cars. Well, news from around the world indicates the U.S. has a lot for which to be thankful. Consider those:

Moscow's food stores, traditionally open seven days a week, have been ordered closed on Sundays - and not for religious reasons. Meat has already been removed from restaurant menus at least once a week. The disastrous grain harvest in 1975 and recent weather conditions around Moscow are blamed!

-Great Britain's annual rate of inflation is expected to take a slight dip below its 13.8 per cent June record.

-More than one of every three cars registered in Britain is owned by businesses. Such businesses buy about half of all cars produced in British factories.

Young cattleman says:

Farming not easier; farmers younger

DENVER, Colo. — It almost seems forbidding for a young person to get into the cattle business these days. Those are the words of Miles Culbertson, a young cattleman from New Mexico who serves as chairman of the Young Cattlemen's Council (YCC), a standing committee of the American National Cattlemen's Association (ANCA).

When the Young Cattlemen's Council was established nearly four years ago, said Culbertson, we knew it was difficult to get into the ranching business, but we also knew there were a lot of young cattlemen out there who needed information and assistance with their special problems."

The YCC is made up of persons 18 to 30 years old who are involved in one or more phases of the cattle industry. The major areas of council activity are vocational guidance, placement couseling, financial counseling, education and leadership development.

Culbertson pointed out that farmers and ranchers are getting younger. According to the USDA, in the past five years, the number of farmers under 35 years of age has increased from 260,000 to nearly 400,000. Young persons are getting into the farming and ranching business, but it's not getting easier, added Culbertson.

The great risk involved in farming and ranching is one of the greatest drawbacks. USDA estimates that today's farmer must invest $390,000 in the farm to equal the income of an urban worker.

"There's no way to avoid risk in the ranching business," said Culbertson. And I don't suppose we would want it any other way. We sure don't want strict government control. I think the best assurance for young cattlemen right now would be a sound stable cattle market.

Another important function of the YCC is to monitor legislation of particular concern to young cattlemen. Culbertson says the two items of greatest concern to young cattlemen right now are the estate tax reform, and the Young Farmers Homestead Act of 1975.

We of course are interested for family farms to be passed on from one generation to another, said Culbertson. We are opposed to the Young Farmers Homestead Act because we feel it is direct intervention by the federal government in the free market system.

The YCC operates, in cooperation with ANCA, a nationwide employee placement program aimed at getting college students and rancher employers together. Culbertson said the results have been positive. Many young persons who have shown an interest in the cattle business have had meaningful, practical summer work experiences on some of the best farming and ranching operations in the country.

Anyone desiring information about the YCC is encouraged to contact a state YCC member through his state cattlemen's association, or ANCA, Box 569, Denver, Colorado 80201.

USDA to conduct mail vote

ALEXANDRIA, Va. — The USDA will conduct a mail referendum to determine if dairy farmers approve an amendment to increase the rate of deduction for funding the Advertising and Promotion Program under the Middle Atlantic federal milk marketing order. The referendum will be concluded by October 1, 1976. Dairy farmers who supplied milk to the market during June 1976 will be eligible to vote. Two-thirds of those voting must approve for the change to be made.

The proposed amendment would increase the rate of deduction for funding the Order No. 4 Advertising and Promotion Program from the present five cents a hundredweight to seven cents a hundredweight.

Qualified cooperative associations of producers will be permitted to cast bloc votes on behalf of their members on all provisions of the proposed order.

A notice of the referendum, a copy of the order, and ballots have been mailed to all known eligible voters. No voting by proxy is permitted and each producer will be entitled to only one vote regardless of the number of farms he operates. Partnerships, corporations, and other business organizations which operate dairy farms will be entitled to only one vote regardless of the number of partners, shareholders, or others which make up the organization.

The proposed order was considered at a public hearing held May 20, 1976 in Maryland.

Dairy farmers who may not have received a ballot through the mail and who feel that they are eligible to vote may secure a ballot by calling the USDA Referendum Agent Joseph D. Shine at (703) 549-7000.

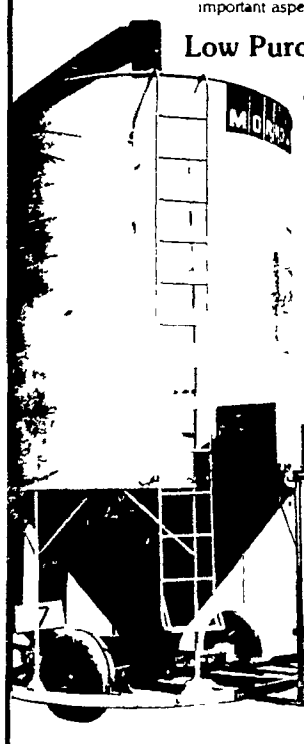
MORIDGE

the grain dryer that only needs a little understanding.

You don't have to be a grain drying expert to own operate and make money with a Mondge Grain Dryer. Here are three important aspects of our dryer we think you should understand.



Low Purchase and Operation Costs

Our purchase price is one of the lowest in circulating dryers. Good basic design allows us to power the 400 bu. Mondge easily with a 35 hp tractor. Combine tractor savings with an efficient burner–fan system–plenum chamber complex for some of the lowest cost per bushel drying figures you'll find anywhere.

Ease of Operation

Our round base levels quickly on any terrain. Add fuel and power supply, load grain into attached hopper, set controls, ignite burner and begin your own grain drying operation.

Handles Grain with Care

Mondge Dryers have been designed to minimize kernel damage wherever possible. We feed directly from loading auger flighting to the flighting of the recirculating auger; we measure grain temperature rather than air temperature; steeply angled walls of bottom cone increase flow of grain to base of the recirculating auger and we even added a 3 speed transmission* for varying speed during drying and load unload cycles.

*optional feature

The Moridge Grain Dryer can be seen at.

Pork promotion detailed

BOISE Idaho The new Pork Industry Group promotion program will target its efforts at every critical audience for the distribution and consumption of pork products consumers, retailers, food service operators and newspaper food editors

Details of the program were announced by Verlo Butz, vice president of the National Live Stock and Meat Board's Pork Program during the PIG session of the Meat Board's recent annual meeting here

Butz explained that several years ago, PIG decided that foodservice advertising was one of the most effective means to build pork sales because pork products had not been effectively promoted to the nation's restauranteurs

PIG has budgeted funds to prepare four full-color pork feature pages for the nation's newspaper food editors The pages will have photographs of appetizing pork meals and will be accompanied by recipes and editorial copy, with all work, including photography, recipe development and testing done at the Meat Board Chicago headquarter-facilities by the professional staff

"These full-color features are made available to more than 400 food editors of the nation's leading metropolitan newspapers," said Butz "The combined readership numbers in the millions"

To serve the nation's meat retailers, PIG plans to revise the "Merchandising Pork Loins" manual The updated manual will feature the newest cutting and promotion techniques to boost sales of the various pork loin cuts

"We are also preparing 'Merchandising Memos' for retailers on the correct technique for grinding and selling fresh pork," said Butz

Although fresh ground pork is not a new product Butz said the Meat Board has perfected the technique to assure consistent high quality ground pork product for retailers

Two new consumer pamphlets will be available from PIG this year One pamphlet, "Facts About Ham," was released during the annual meeting The second pamphlet, on barbecuing pork, will be available in a few months

Butz said that if additional funds become available during the year, PIG promotional efforts would be expanded with greater foodservice advertising and stepped up public relations work

Here's a way to store wet corn most anywhere

Yes, right on your farm, ready for feeding without spoilage, heating or mold. In sheds, barns, regular silos, or metal bins. Without investing lots of capital in an airtight silo. Without a lot of expense.

Use the ChemStor way. Apply ChemStor® liquid preservative from an approved applicator right at your storage. Shell it, treat it, store it. To keep all year, if you need to! Wet corn that's palatable, tops in feed efficiency. And that keeps for weeks after rolling or grinding for feeding, so you save daily mixing.

The ChemStor way, you harvest corn early, with less field loss, treat and store as fast as you bring it in. At a cost usually lower than drying. See us now. Get all the facts on a better way to store wet corn.

Lancaster Co. towns researched

NEW YORK, N.Y. - The early struggles of Lancaster County towns is clearly presented in a specially researched study completed by Treasure Index, a national fact finding publication. The findings give a graphic picture of the towns that pioneered their way through the 1800's and earlier. Towns established in the 1900's are not included in the study.

The results show that 199 towns were established during those early years and 20.6 per cent couldn't cope with the demands of progress. This is 15 per cent below the national average. Sixty of the original total are still functioning fully. Ninety-eight more experienced difficulties, lost public and commercial facilities, populations ebbed and postoffices suspended. These bravely continued to function however, despite the loss of momentum. The remaining 41 towns ran into trouble and began to drop by the wayside. They are no longer on recent maps and are now ghostly shells of their historic pasts. At least three are uninhabited and completely abandoned.

The data takes form in three units including a 2-color county map which accurately positions the location of the various towns identified as abandoned towns, ghost towns, partially functioning towns and fully functioning towns. Supplementing the county map is a series of mini-maps showing the number and kind of structures remaining in key ghost towns. The third unit is the population report giving the number of inhabitants at the height of the ghost towns' bloom. The three units of the Lancaster County study are available complete for $6.75. Other Pennsylvania Counties already researched include Chester, York, Montgomery and others, plus hundreds of counties in states throughout the United States. Also published recently is the abandoned town report identifying some 300 towns without inhabitants in Pennsylvania.

For more information, write: Treasure Index, Box 101, Bronx, N. Y. 10468.

Dr Owen Thomas, (far left) Chairman of the Poultry Science Department at the University of Maryland answers questions about poultry nutrition directed to him by a group from the People's Republic of China here for a nationwide tour

Chinese tour Md. campus

COLLEGE PARK, Md. - A 15 member delegation from the People's Republic of China paid a visit to the University of Maryland College Park campus recently to talk with agricultural engineers and poultry scientists about mechanization of agriculture.

The university was the first stop on a nationwide tour. The visit is part of an exchange program sponsored jointly by the National Academy of Sciences, the American Council of Learned Societies, and the Social Science Research Council.

Upon arrival at the university, the delegation was greeted by Dr. Francis Stark, provost of the division agricultural and life sciences, and Dr. John Curtis, director of the Maryland Cooperative Extension Service.

Following introductions and the answering of questions dealing with the general structure of the university, the delegation was divided into two groups. Dr. W. L. Harris, chairman of the Department of Agricultural Engineering took one group. He and his staff explained the manner in which agricultural information is passed along to farmers and interested individuals through the Cooperative Extension Service delivery system.

Dr. Owen Thomas, chairman of the poultry science department, led the second group in discussion about the functions of his department and answered questions about management practices dealing with poultry production.

The two groups re-joined each other at the site of a mechanical composting of animal waste experiment being conducted by the Agricultural Experiment Station. The members of the delegation asked several questions about the operation of the system and the use of the final product.

Members will now visit several tractor manufacturers in different parts of the country, a commercial broiler operation, the National Tillage Laboratory in Auburn, Ala., and several fruit and vegetable farms in California.

The Chinese hope to use the information they gather on their stay in the U.S. to help China maintain her self sufficiency in agricultural production, according to Hsiang Nan, chairman of the tour group.

Screwworm elimination may be reality

NEW YORK, N.Y. - The dream of screwworm eradication held by livestock producers in the United States and Mexico moved a giant step closer to reality when the President of Mexico Luis Echeverria and U.S. Secretary of Agriculture Earl L. Butz dedicated a new, sterile screwworm fly facility in Tuxtla Gutierrez, Mexico.

The ceremonies marked a milestone in the 1972 agreement between the two countries establishing a joint Mexico-U.S. commission for the eradication of screwworms. Commission members estimate, once the plant is in full production, eradication of the destructive livestock pest will be possible in five to seven years.

According to Dr. F. J. Mulhern, administrator of USDA's Animal and Plant Health Inspection Service (aphis), the keys to screwworm eradication are rancher cooperation and the sterile male technique.

If animals are inspected frequently for wounds, and infested wounds are treated with an approved insecticide, screwworm populations can be kept at relatively low levels. At this point, the sterile male technique takes over," he stated.

The new Tuxtla Gutierrez plant has the capacity to rear and sexually sterilize over 300 million screwworm flies weekly. These flies - in combination with another 200 million reared and sterilized weekly at APHIS' Mission, Tex., facility - will be released over infested portions of the U.S. and Mexico to mate with native, fertile flies. No offspring result from such matings. Thus, screwworm populations drop with each generation until eradication is achieved.

The Commission's schedule calls for eradication of infestations in northern Mexico and Baja California first. Then, sterile flies from the Tuxtla Gutierrez and Mission plants will push the pests southward, until a new barrier zone can be established across the Isthmus of Tehuantepec in southern Mexico.

The new Tuxtla Gutierrez sterile fly production plant is the largest constructed in the world, and the only one designed and built specifically for sterile fly production.

Construction of the 18,000 square meter plant - and supporting buildings such as the administration building, warehouse, and motor pool - began in July 1973 and was essentially completed by July 1976.

The estimated cost of the totally equipped facility is $14 million, exclusive of the site, which was donated by the Governor of Chiapas to the Mexico Secretariat of Agriculture and Livestock (SAG) for use by the joint commission.

When in full production, the plant will employ over 500 workers, plus a small complement of U. S. and Mexican supervisors. The entire program - with U.S. and Mexico employees scattered throughout Mexico - will number over 75 Americans and an equal number of Mexican government counterparts, plus 1300 Mexican Joint Commission employees.

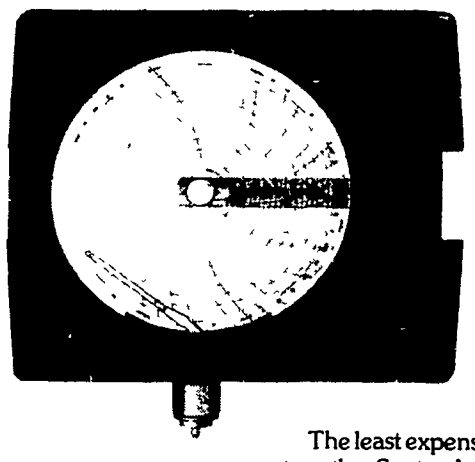
WHO'S MINDING THE MILK?



If you depend upon your milk check for a living, who's minding your milk?

The least expensive, one-shot insurance you can get is the Sentinel — the 10-inch recorder which charts temperature of your milk-cooling or holding tank. Here's what it provides:

- Permanent proof that proper temperature was maintained
- Record of cooling equipment efficiency
- Cleaning temperature recording on the same chart.

The Sentinel is also available with provision for actuating an alarm or warning light if pre-set temperature is exceeded.

Remember — if it prevents the loss of only one tank of product, the Sentinel has paid for itself. It minds your milk.

All-American starts Monday

HARRISBURG - The barn will be filled to near capacity when the Pennsylvania All American Dairy Show opens its doors on Monday at the Farm Show Building, here Entries for the show closed September 1 with cattle numbers approaching 2,300, near last year's record number

"It looks like a full house all the way," said Charles A Ille, show manager "There will be more commercial exhibits, there is a lot of foreign interest, and if phone calls and letters can be believed, we should set an attendance record, too I think this will be the best All American ever staged here at the Farm Show Building"

Hundreds of dairymen from Pennsylvania, the United States and around the globe assemble in Harrisburg each fall for the Pennsylvania All-American Dairy Show, an international show of dairy cattle sponsored by the Pennsylvania Department of Agriculture, the Pennsylvania Dairy and Allied Industries Association, and the Farm Show Commission A mix of dairy show, trade fair, education and entertainment, the All-American has something for everyone

The Pennsylvania All-American Dairy Show will be held September 20-24 and the public is invited to attend any day from 8 a m to 8 p m , starting with a Family Day Preview on Sunday, September 19 Dairy cattle shows are the main event, with the Pennsylvania Junior Dairy Show on Monday, the Eastern National Brown Swiss Show on Tuesday and the Eastern National Holstein Show on Thursday and Friday

A free arena attraction, the Keystone State Championship Pony Pulling Contest, is scheduled for Tuesday, September 21 beginning at 5 p m and continuing through three weight classes Other evening events are Brown Swiss and Holstein sales on Monday and Thursday evenings respectively The new Pennsylvania dairy princess will be chosen on Wednesday evening at the Penn Harris Motor Inn

Milking Shorthorns will show on Tuesday, Guernseys on Wednesday, Jerseys on Thhursday and Ayrshires on Friday A detailed program may be obtained from the Pennsylvania All-American Dairy Show, Farm Show Building, Harrisburg, PA 17120 or by calling 717-787-2905

DAYS GONE BY Throughout South Dakota are tumbled-down remains of towns that shaped the West The ghost towns and abandoned mines whisper tales of the days when fortunes in gold were won or lost in the famous Black Hills Many of the towns are still accessible to modern-day explorers

Jill Harnish, daughter of Ed Harnish, Christiana R1, found herself a seat on top of Bob Ford's 255 pound pumpkin, the biggest pumpkin on display at the Solanco Fair.

Price gap wide

WASHINGTON, D C - "Consumers and farmers would both be better off if the meat trade would lower its present near-record margins for handling beef and pork," says Don Paarlberg, the U S Department of Agriculture's director of agricultural economics.

Beef and pork prices at the supermarket are down from last year, but not nearly as much as cattle and hog prices on the farm. Price spreads between farm and consumer have increased 16 per cent for beef and 31 per cent for pork since July 1975.

Since cattle prices started to decline in July 1975 farmers' prices have dropped 26 per cent. However, consumer prices for beef have declined only 14 per cent.

The spread between cattle prices and consumer beef prices has widened 9 cents a pound since July a year ago and is now at a near-record spread of 64 cents a pound Preliminary data indicate that spreads in August remained wide as cattle prices continued to drop

At the same time, cattlemen are operating at a loss.

Department of Agriculture figures show that typical Corn Belt cattle feeders have lost money continually since early 1972 except for the period May to December 1975. Presently Corn Belt feedlot owners are losing more than $65 per head. Likewise, cow-calf herds are also losing money selling young feeders for feedlot finishing. Cattlemen have reacted by selling off cows, thereby increasing meat supplies which has depressed farm cattle prices even more.

Present indications are that farmers who are feeding out cattle already in feedlots will continue to lose money until the end of the year.

Price spreads between farmers and consumers are also wide for pork. In July farm-retail spreads increased seven cents over June. Early estimates for August indicate that farm-retail spreads for pork widened further. Consumer pork prices in July were only slightly lower than a year ago, but farm hog prices were down 15 per cent. The farm-retail price spread had widened 31 per cent.

Department of Agriculture figures indicate that hog farmers have been making money. But the outlook for fall and into 1977 suggests a drop in hog prices with hog raisers losing money, particularly if the price spread between farmers and consumers stays at near-record levels.

How low hog prices slip will depend in part on the farm-retail price spread. Price spreads usually widen when farm prices are falling. The marketing spread is expected to continue relatively wide over the next several months, even though marketing costs per pound of pork probably will be lower.

"Retailers could improve the situation for farmers and consumers by promoting beef and pork and reducing their prices more quickly in line with lower wholesale meat prices," says Dr. Paarlberg.

THE GOOD WORD
from the Bible

How often are we reminded that Jesus came to bring salvation to all mankind? Always, when critics reminded that he associated with, or gave aid and comfort to someone considered an outcast or a sinner, Jesus remained undeterred, by word and example setting them aside "For the Son of man is come to seek and to save that which was Lost" St Luke 19 10

How slow many of us are to forgive the transgressions and weaknesses of our neighbor! We profess to be Christians, we go to church regularly, yet we fall short in the everyday practice of religion We find it so difficult to forgive, to reach out the helping hand to someone in need

Zacchaeus, the man in the tree, was a publican (a tax collector), he was rich, he was despised To Jesus, he was a soul in search of salvation, a man of small stature who climbed a tree to see the face of goodness and hope

Let us, like Jesus, not turn away from those who need

Lower speed limits paying off

The gasoline shortage and the national 55 mph speed limit are considered the principal reasons why traffic deaths have dropped more than 10,000 since 1972

Nevertheless, traffic crashes have killed more than 2 million Americans since the first death was recorded in 1899 In this Bicentennial Year alone, fatalities are expected to exceed the number of Revolutionary War battle deaths by more than 10 times.

The number of crash deaths is influenced by numerous accident exposure factors which, in combination, increase or reduce the chance of fatality.

The gasoline shortage reduced deaths because fewer people were travelling fewer miles. The 55 mph speed limit is cutting deaths because traffic moves at a more uniform pace, reducing the chance of collision. And at lower speeds crash injuries are less severe.

Many factors affect the chance of a fatal accident, like nighttime driving conditions, the safety features built into a roadway or vehicle, even the weather.

Several measurement rates have been developed to compare the severity of the crash problem under different risk conditions and to show trends While not perfect, the most familiar of these is the Mileage Death Rate, or MDR, which is the number of fatalities per 100 million vehicle miles of travel

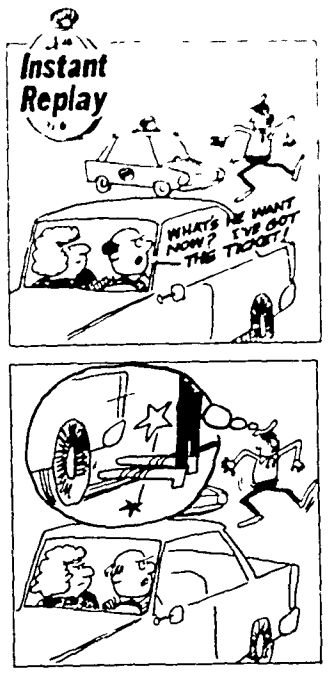
The following chart illustrates trends in traffic deaths, vehicle mileage and the MDR during the last 25 years

In the 22 years preceding 1973, vehicle mileage increased an average of 5.0 percent per year, deaths 2.0 percent per year. Thus the MDR declined by more than half.

Since 1973, mileage has dropped and rebounded. Deaths are down dramatically, and the MDR has dropped nearly a full point to 3 47, lowest in history

To emphasize the importance of reduction in the MDR, if the rate had stayed at the 1950 level of 7.59 deaths last year would have totaled nearly 100,000 instead of the actual 45,600. This reduction in deaths occurred despite a three-fold increase in exposure associated with vehicle mileage during the 25-year span.

The following table shows the relative hazard for 1974 under daytime and nighttime conditions in both urban and rural areas.



Adams County poultry judges on top

GETTYSBURG - Adams County's 4-H Poultry Judging Team placed first in the Northeast United States 4-H Poultry Judging Contest recently in Springfield, Mass. By winning the state 4-H contest earlier this month at Penn State, Darlene Resh, Dillsburg and Bob and Tom Trone, East Berlin represented Pennsylvania in this contest.

The contest sponsored by the Northeast Poultry Producers Council, consisted of competition between 4-H and FFA teams representing the various states in the NEPPCO 14 state membership area.

Bob Trone received the third highest individual score in the contest while his brother Tom placed fifth and Darlene Resh placed sixth in the competition. The second place team was from West Virginia with Virginia placing third.

The team was accompanied to Springfield by their coach, County Agent John Schwartz. They will now be going to Louisville, Kentucky to participate in the National 4-H Poultry Judging Contest in November. The Adams County Poultry Association and the Pennsylvania Poultry Federation sponsored the team by providing travel expense funds.

Ephrata Fair schedule posted

EPHRATA Pennsylvania s largest street fair The Ephrata Fair - will begin this coming Tuesday and run through Saturday Besides the usual exhibits, there will be the Miss Lancaster County Pageant (see separate story on the girls elsewhere in this issue) and nightly entertainment

On Thursday evening The Red Thomas Show will come to the Fair, offering its version of country music to the multitudes Sunny Miller and the Happy Valley Boys will liven things up on Friday evening, while The Johnny Schmokers take the stage on Saturday

Another highlight of this - the 58th annual Ephrata Fair - will be a colorful Bicentennial Parade to be held at 7 p m , Wednesday (Rain date - September 23) Special awards for BICentennial Theme floats, etc will be presented The parade is comprised of high school bands, marching groups, floats, Miss Lancaster County Pageant contestants, Lancaster County Shrine Oriental Band, and service bands, which attracts more than 65,000 people

Visitors to the fair will see many displays of crafts, art, models, needlecraft, also products from farms, orchards and gardens - flowers, vegetables, fruit, home baked and canned goods, which are displayed in store windows, railroad station building, exhibits tent and the basement of the J J Newberry Store

Tent City" located in the Ephrata Community Park area will conduct livestock judging Displayed in Tent City will be found the cattle, sheep, baby beef, swine, poultry, grain, seed, forage and tobacco

A carnival spirit will prevail on the giant midway, complete with rides for children and adults, eating stands and amusements of all sorts, along with free entertainment

On Thursday afternoon, between the hours of 1 to 5 o'clock thousands of children jam the rides area of the midway, known as "Kiddies Day", when a special reduced rate is offered to them, to enjoy the chills and thrills of the ferris wheels, merry-go-rounds and others dear to the hearts of kiddies

Many contests are programmed which draw several thousand persons There will be tractor driving, garden tractor pulling contests, a pig chase and a cow milking contest

On Saturday afternoon starting at 2 o'clock, one of the fair's major attractions - the Baby Parade - is held Thousands line the parade route to see the fancy costumes of the tots and the elaborate floats in which many of them ride

On Saturday night at 8 p m the annual Miss Lancaster County Scholarship Pageant is held in the Ephrata High School

Research funded

BOISE, Idaho Nine nutrition research grants have been awarded by the National Live Stock and Meat Board for the 1976-77 academic year

The research program was discussed by Dr William C Sherman in a session of the Nutrition Research Committee at the Meat Bord's 54th annual meeting here

The grants will provide information on adequate levels of protein consumption for maintenance and immunity, factors contributing to elevated serum cholesterol, effects of dietary fiber on health and effects of polyunsaturated fat consumption

Six of the grants were for continuation of research already supported by the Meat Board

Cloister FFA members get Lions' share

Presenting members of the Cloister FFA Chapter with a check for $100 was the highlight of the Baron Stiegel Lions Club's Farmers' Night, held recently at the Brickerville Fire Hall. Among those honored, left to right, were Rick Strauss, Sheryl Bollinger, Hans Groff, Lamar Groff, John Weiler, Clyde Watts — Lions president, Ron Martin, Curtis Martin, Tony Eberly, and Jay Oberholtzer. The $100 check was given by the Lions to help cover travel expenses for upcoming trips the boys earned in judging competition.

Dairy production up in all categories

HARRISBURG - Milk production in Pennsylvania during August totaled 643 million pounds, up eight per cent from a year earlier according to the Crop Reporting Service.

The number of milk cows in the Commonwealth during August qas 711,000 head, up 8,000 or one per cent from a year earlier.

Milk production per cow averaged 905 pounds in August, up seven per cent from last year.

United States milk production during August totaled 10,132 million pounds, up six per cent from a year earlier. U.S. MILK PRODUCTION PER COW AVERAGED & ⅛ ⅞ POUNDS, UP SEVEN PER CENT FROM A YEAR AGO AND SIX PER CENT ABOVE August 1974. Milk cows on farms totaled 11,047,000 head, down one per cent from both a year ago and August 1974.

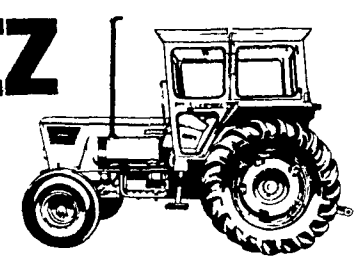
Deutz (SAY DOYTZ) AIR-COOLED DIESEL-POWERED TRACTORS

Direct air cooling eliminates major causes of costly down time And it permits higher internal cylinder temperatures for more complete combustion —less carbon build up and smoke—more hours per gallon We ll be glad to arrange for a demonstration

Deutz (SAY DOYTZ)

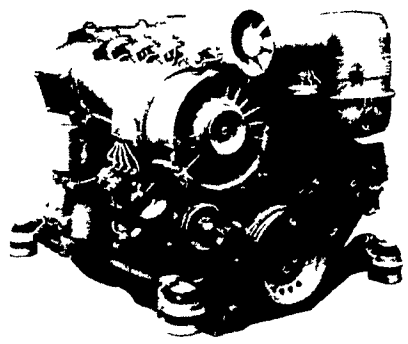


BIG FUEL-SAVING TURBO-CHARGED AIR-COOLED DIESEL

130 PTO HP STRONG

The Deutz D 130 06 uses less fuel than any tractor in its class And it comes with these outstanding features as standard equipment hydrostatic power steering hydraulic brakes 16 forward and seven reverse gears synchro-mesh transmission independent pto, differential lock heavy duty swinging draw bar independent parking brake Deutz safety cab and four-wheel drive available as optional equipment

COST



CUTTER

The cost of diesel fuel has jumped nearly 70 percent since October, 1973 and it's still about three cents a gallon cheaper than gasoline. Higher fuel costs call for a closer look at total operating costs when you buy engines. Deutz air-cooled engines use 20 to 40 percent less fuel than most water-cooled diesel engines - far less than gasoline engines. And they are competitively priced. So hadn't you better buy or specify the cost cutter - Deutz? 10 to 500 bhp.

VISIT OUR DISPLAY AT THE EPHRATA FAIR - SEPT. 21 TO 25

Okay, be afraid of thunderstorms

For a single household, a single family, they can produce as much tragedy as war

By DIETER KRIEG

EDITOR'S NOTE: This is the sixth article in a continuing series of reports on the weather.

We were all asleep before it happened. But not for long. A vicious storm was approaching.

Suddenly a loud and swift crack of lightning slashed into one of two majestic maple trees in front of our home in southern Lancaster County. One of its huge limbs was amputated and the shreds of bark, twigs, and leaves were strewn across the yard. On its way to the ground, the trunk-sized limb caught a power line and left us without electricity. That resulted in our having to milk over 100 cows by hand that morning.

Every reader of this newspaper has possibly had similar experiences. Some could recall far worse tragedies as thunderstorms annually kill people and livestock and set barns on fire. Crop damage is also not to be forgotten. It's no wonder that weather experts flatly state:

For a single household, a single family, they can produce as much tragedy as war. The average thunderstorm carries with it the equivalent power of a one megaton atomic bomb.

It is estimated that some 1800 thunderstorms are in progress over the Earth's surface at any given moment. In the United States alone, they produce more damage, on the average, than either hurricanes or tornadoes. The latter, incidentally, is an offspring of the thunder storm, and is, in fact, its most violent form. In addition to the vicious tornado, thunderstorms are frequently associated with hail, lightning, high winds, and heavy rains.

Few people probably understand the immense dimensions of activities that go on above them when a thunderstorm rolls into the area. For example, while the cloud's base might be 2000 feet from the ground (that's roughly twice as high as the tallest skyscrapers in the world) its mass of energy stretches upwards for 40,000 feet or more. The temperature at the bottom of the cloud might be close to 70 degrees Fahrenheit, while at the tip it's 60 below zero. Violent air currents stir within, carrying with it moisture in any form from vapor to ice, and generating high voltage electricity in the process.

Thunderstorms develop as the result of a low pressure area somewhere. This causes winds to sweep in from surrounding areas, and as the air flow reaches the center, it shoots upward. This updraft drives warm air beyond condensation levels and a gigantic cloud is formed. While the updraft is in progress, it draws in additional air through the cloud's sides along the way. A classic convection current is born as warm air rises and draws on neighboring air for additional support.

Some 40,000 to 50,000 feet above the surface there are high altitude winds. A mature thunder cloud will reach that level in time, and once it happens, the horizontal crosswinds will siphon air off the top and help feed the monster's power through a chimney effect.

That isn't the end of the developing storm's reasons for gathering phenomenal amounts of energy. Remember the moisture that is carried within the cloud.

It's common knowledge that it takes considerable heat to boil away a potful of water. Reversing this, one might begin to fathom the energy which is released when vapor is liquified. With tons of water suspended within the cloud, a fantastic amount of heat is generated when water vapor is raised to saturation levels. This exchange of energy plays a significant role in feeding the updrafts. As a result, more air is drawn in, the cloud goes higher, moisture is formed, particles are super cooled, and hailstones the size of grapefruits might be formed. What keeps the hail aloft for so long are the swift upward drafts. Most of a thunderstorm's cloud is in fact at altitudes where freezing occurs. Only about the bottom half or third is known to have temperatures exceeding 32 degrees Fahrenheit.

Other factors which play a role in creating thunderstorms are also basically of a heating and cooling nature. The base of a cloud, for example, might be picking up heat reflected from Earth's surface. Gradually, the atmospheric instability required for the birth of a thunderstorm is happening. The warmed air rises, and surrounding air rushes in to replace it. These upward drafts are simply the results of differences in temperature between one area and another.

A different example of this happening is when warm air is forced upwards by the intrusion of a cold air mass. Or the top of a cloud might be losing heat quite rapidly, thus creating a suction on air below. Any temperature changes or instabilities will require that the warm portions of air rise, and cooler parcels move in to "support" it from below.

Obviously, this process can't go on forever. And it doesn't.

Eventually the system breaks on account of its own "greed." Thus far it has drawn air upwards, carrying moisture to altitudes of close to eight miles. A point is reached when there is just "no more room" for more and the moisture (in the form of rain, snow, or hail) falls out of the cloud. For much of the time prior to this moment the precipitation had actually just fallen within the cloud itself, never reaching the ground because of strong updrafts.

As the moisture falls out, it reverses some of the air movement within the entire system. Now there's a downdraft developing. This explains the sudden cooling and intensifying winds we all experience when a thunderstorm reaches "old age." As was the case with the updrafts, the downdrafts also draw in additional air from outside the cloud itself. This entrained air intensifies the storm as it progresses. The proportions and magnitudes of the movements are so immense that a powerful field of electricity is formed and hence we have the phenomenon of lightning.

The sudden change in temperature on the ground (caused by the thunderstorm cloud "springing a leak" and releasing its precipitation and cooled air) is said to be Nature's warning that the storm is in its most violent phase. Shortly after the cool air sweeps in, the storm unleashes its full force in the form of lightning, hail, heavy rain, high wind, or the tornado.

After a short time the system dies completely, leaving behind it a path of destruction which can resemble a battlefield.

To be continued next week.

Rain, rain and more rain, caused many potential visitors to stay away from the Ephrata Fair last year, but the ducks enjoyed it all the more, often walking right up to edge of the tents. It was the kind of weather which fair participants hope will not repeat in 1976, for in addition to keeping attendance low, it forced evacuation of many of the lower tents.

THE TOP PERFORMERS
TODD HYBRID SEEDS

SEED CORN Varieties with winning profitable yields.
HAY-CHOW Green chop, hay, haylage or grazing. A sweet stemmed variety.
SILO-CHOW High quality, more palatable forage.

What's New

NEW V-CHISEL PLOWS

DMI, INC., Goodfield, Ill., has recently introduced a new line of mounted type, V-Chisel plows. The new, DMI V-Chisel plows, Model MV, are available in three basic expandable models with variable shank spacing allowing the farmer to match his DMI V-Chisel to various soil conditions and tractor horsepower.

The manufacturer states that the V-shaped beam, welded cross-bracing, and heavy duty hitch components give the DMI V-Chisel the stamina to plow through fields up to 20 inches deep - thus allowing the farmer to plow faster, use less fuel and increase yields.

The DMI V-Chisel models include a basic five beam model, a basic seven beam model, and a basic nine beam model, all of which have brackets for 20 inch or 30 inch shank spacing. The five shank and seven shank beam models can be expanded respectively into seven and nine shank plows with the addition of optional wing extension kits. All welded, heavy construction allows the DMI V-Chisel plows to rip through the toughest soil conditions and handle the high horsepower of today's tractors. The beams are made of wall tubular steel with welded, heavy duty shank mounting brackets of thick steel angles.

THE FARMERS TV SHOW
DON'T MISS
U.S. FARM REPORT

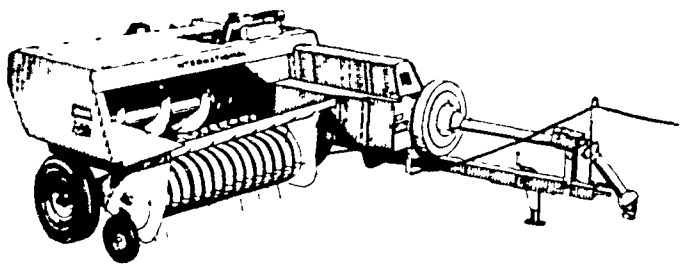
with Orion Samuelson, television's leading weekly agribusiness report. Saturday's at 1:00 P.M. on channel 8.

Here's one program that keeps you in touch with what's happening in your business.

- Price Trends and What's Behind Them
- USDA News and What it Means to You
- Innovations in Agriculture
- Trends in the Weather by National Regions
- On-Location Reports From all Over the Country
- Editorial Comment
- And Lots More

It's the weekly farm news program that follows the stories you need to know about most.

USE IH WAIVER OF FINANCE AND SAVE



International Hay Line

Thinking about adding new equipment to your hay tool line-up? Then, check out what International has to offer in mowers, rakes, mower-conditioners, conventional and big-round balers. Whether you're a big commercial grower, or produce only enough hay for your own use, you're sure to find just the equipment you need.

- Balanced-head mowers in mounted, semi-mounted and trailing models, glide through crops up to 8 mph
- 990 mower-conditioner the great quality and time saver, in 7 or 9-ft cutting widths
- 35 parallel-bar rake choice of ground or exclusive hydraulic reel drive
- 430/440 balers with 17 and 19-ton per hour capacity twine or wire tie
- 241 Bigroll baler builds the best round bale you can find cures fast, stays weatherproof

Also:
- 105 & 110 Forage Boxes
- Windrowers
- Forage Harvesters
- Bale Movers & Unrollers

Maryland 4-H'ers score at Timonium

TIMONIUM, Md Western Maryland and Eastern Shore 4-H members garnered a big share of the honors in 4-H agriculture judging contests early this month at the Maryland State Fair here

And Harford County, in the Upper Bay area, regained its traditional strong showing in the 4-H livestock judging competition

Washington County continued at the top of the heap in senior 4-H horticulture judging for the sixth consecutive year, and it added new laurels this year in senior 4-H poultry judging

Central Maryland's Montgomery County stormed back into first spot in senior 4-H dairy cattle judging after finishing second last year And neighboring Frederick County retained first-place in junior 4-H dairy cattle judging

But two upper Eastern Shore girls from Kent County teamed up to finish 1-2 for top individual honors in senior 4-H dairy cattle judging They were Pennie Moffett of Chestertown and Lee Hill of Kennedyville Both are 18-year-old graduates of Kent County high school

Miss Moffett was first-place individual over-all and first in Jersey judging and in oral reasons She tied for second in total reasons Meanwhile, Miss Hill was first in total reasons, second in Ayrshire judging, and second in oral reasons She was also second in the over-all individual standings

Lee was Maryland Farm Queen in 1974, and Pennie was Miss Congeniality in this year's state dairy princess contest

They are members of the Kent County High School FFA team which will compete next week (Sept. 20) in the invitational youth dairy cattle judging contest at Harrisburg, being held in conjunction with the 13th annual Pennsylvania All-American Dairy Show.

And they will have the opportunity to represent Maryland in national 4-H dairy cattle judging competition next month (Oct. 4) during the North American Dairy Show at Columbus, Ohio.

Pennie and Lee helped their sex to repeat last year's achievement when girls also captured top individual positions in all four sections of senior 4-H agricultural judging competition at the Maryland State Fair and the top two positions in both senior 4-H dairy cattle and livestock judging.

Again, boys did somewhat better in the junior classes.

Maryland's reigning lamb and wool queen, Linda Clarke, 16, of Uniontown, was second high individual in senior 4-H livestock judging. She won first-place honors in swine judging and was fourth in sheep judging This feat upheld a tradition of state agricultural princesses performing well in livestock or dairy cattle judging at the state fair

High-ranking teams and individuals in each 4-H agricultural judging contest at this year's Maryland State Fair were as follows

HORTICULTURE

Senior teams - 1 Washington County, 2 Howard County; 3 Carroll County; 4 Talbot County, 5 Queen Annes County

Senior individuals - 1 Teresa Bargiel of Maugansville, 2 Stephen Haynes of Calverton; 3. Jonathan Haliscak of Lexington Park.

Junior teams - 1 Charles County; 2. Washington County; 3. Howard County; 4 Cecil County; 5. Frederick County.

Junior individuals - 1. Sam Brown of Rising Sun; 2. Linda Schukraft of Hagerstown; 3. Paul Kelly of Waldorf.

POULTRY AND EGGS

Senior teams - 1. Washington County; 2. Montgomery County; 3. Cecil County; 4. Frederick County; 5. Prince Georges County.

Senior individuals - 1. Karen Serkiz of Damascus; 2. Daniel Rohrer III of Hagerstown; 3. Beth Stauffer of Smithsburg.

Junior teams - 1. Baltimore County, 2 Cecil County, 3 Montgomery County, 4 Prince Georges County, 5 Frederick County

Junior individuals - 1 Stephen Connor of Sandy Spring, 2 Marilyn Kondner of Parkton, 3 John Stubbs of Sandy Spring

LIVESTOCK

Senior teams - 1 Harford County, 2 Montgomery County, 3 Carroll County, 4 Baltimore County, 5 Frederick County

Senior individuals - 1 Anya McGuirk of Bel Air, 2 Linda Clarke of Uniontown, 3 Jack D Shanks, Jr, of Damascus

Junior teams - 1 Harford County; 2 Howard County; 3 Carroll County; 4 Frederick County; 5 Washington County.

Junior individuals - 1 Karen Holloway of Darlington, 2 Cheryl Lin thicum of Dayton, 3 Gary Ruby of Hampstead

DAIRY CATTLE

Senior teams - 1 Montgomery County, 2 Howard County, 3 Carroll County, 4 Kent County, 5 Frederick County

Senior individuals - 1 Pennie Moffett of Chestertown; 2 Lee Hill of Kennedyville; 3 Steve Walbert of Clarksville

Junior teams - 1 Frederick County, 2. Queen Annes County; 3 Carroll County, 4. Kent County; 5 Cecil County

Junior individuals - 1 Patty Kahler of Keymar; 2 Kevin Leaverton of Centerville; 3 Mark Hill of Kennedyville

Three win twice

THE BUCK - Three tractor pullers each won two classes at the Buck Tractor Pulls, here, last Saturday The double winners were The Stauffer Brothers with their Deutz 9006, Glenn Darnell with his Cockshutt in the modified class, and Leonard Thomas with his John Deere 4020 Thomas, from Boonesboro, Md, won the 12,000 pound super stock class, which was swept by Maryland competitors

Following are the results:

7000 super stock

1. Tony Stauffer, New Holland, Pa. Deutz 9006, full pull and 253-10; 2. Leonard Thomas, Boonesboro, Md., JD 4020, full pull and 207-10; 3. Tim Stauffer, Ephrata, Deutz 9006, 287-11.

7000 modified

1. Glenn Darnell, Laytonsville, Md., 290-11; 2. Les Houck, Kinzers, Cockshutt with two -440 Dodge engines, 265-5; 3. Greg Manners, Ringoes, N.J. Massey 55 with two-440 Dodge engines, 258-5.

9000 super stock

1 Leonard Thomas, 296-7, 2 Clarence Leggett, Boonesboro, Md, John Deere 4020, 284-5; 3 Robert Riggs, Brookville, Md, 282 9

5000 super stock

1 Tim Stauffer, 276-20; 2. Ray Brubaker, Quarryville, AC 180, 252-10; 3. Dave Moore, Boonesboro, Md., John Deere 4010, 237-10

9000 open

1. Glen Darnell, 253-1; 2. Galen Spickler, Mt. Joy, 229-8; 3. David Becker, Mt. Joy, 224-3.

5000 modified

1. Ivan Barnsley, Laytonsville, Md., Farmall with 440 Dodge, full pull and 269-5; 2. Ted Owens, York, Massey 44 with 454 Chevy full pull and 262.3; 3. Nathan Wolfe, Bedford, IH with 413 Chrysler, full pull and 262-3.

12000 super stock

1. Leonard Thomas, full pull, 293-2; 2. Robert Riggs, Brookville, Md., JD 4320, full pull and 254-9; 3. Thomas Bedgar, Freeland, Md., Farmall 856, 290-6.

Timber sale points given

There is a need for good standing timber for the lumber industry. Farmers often have control and need to be aware of several considerations when contracting to sell sturdy timber.

1. Agreements should be in writing — not word of mouth.
2. All parties involved should be listed.
3. Description of timberland be included.
4. Definition of the kind of timber being sold including stump height, minimum long length and top log diameter.
6. Land protector dealing with water, trails, roads, fences, etc.
6. Residue treatment should be spilled out. Fire protection responsibilities and trash disposal need be considered.
7. Liability insurance, timber payment, time limitation, should not be overlooked in the contract.

York Fair

Chester County goats dominate

By DIETER KREIG

YORK - Goat breeders from southern Chester County won all of the grand championship awards at the York Fair's goat show this year The Richard Stoneback and Jane Walker families, both from Oxford, dominated events in which 85 goats were entered in competition Five breeds - Alpine, La Mancha, Nubian, Saanen, and Toggenburg - were represented

All goats entered in the show were registered with the American Dairy Goat Association, under whose rules the show was conducted Judging was done by Ann Miller of Philadelphia, who is officially licensed by the ADGA.

Jane Walker, who became interested in goats five years ago when a 4-H goat club was formed near her former home in Bucks County, told LANCASTER FARMING on Monday night why she has become an enthusiastic goat breeder and exhibitor.

"La Manchas have a nifty personality," the mother of five children began, while confessing that she's had a love for animals since she was a toddler. Explaining further, she said: "They're the most intelligent of all breeds, and they seem to get into the most mischief - they're door unlatchers and string untiers They seem to be the breed that sneaks through the door when you open it "

But, surprisingly enough, Mrs Walker announced Nubians have always been my favorite ' She owns 23 goats in all - mostly La Manchas, some Nubians and one Alpine Describing the Nubians as a more highly strong breed of goats, Mrs Walker points out that "if you love your animal, they'll return it " Within the past five years she has become so involved with her goats that a number of prizes have been won and the herd has increased from two to over 20 - of which five are milking Her son, Scott, has shared her interest in this relatively novel business-hobby and is the owner of the grand champion La Mancha shown here last week. The Stonebacks believe this animal may have a good chance of placing in national competition and have offered to take "Tia" along with their show string. The national goat show is being held in Santa Rosa Calif. later this year.

According to Mrs. Walker, there's a big market for goats' milk and prices per quart might run as high as they are per gallon for cows' milk. "It's very good for people with ulcers and some babies who can't drink cows' milk," Mrs. Walker said. "Goats' milk doesn't curdle in your stomach like cows' milk does," she explained.

"Coco" was the top Nubian goat at the York Fair. Owned by Jane Walker of Oxford, "Coco" was one of 85 goats entered in the show.

It isn't just goats' milk which is expensive. A goat which has won her share of ribbons at national shows can command a price of $1500 and up, Mrs. Walker reported. Although she did not reveal the prices she paid for her first goats, she admitted she was in for "a rude awakening" when the talk centered on prices.

Goats are becoming more and more popular, the accomplished show woman proclaimed. She considers the Nubians to be the biggest breed, while the La Manchas from Spain are the fastest growing. The number of entries at the York Fair might be interpreted as sizable by most people, but Mrs. Walker pointed out that there were 451 goats entered in the show at Timonium, Md., and 500 might have been there if some people hadn't cancelled.

Mrs. Walker had 10 entrants at the York Fair.

York FFA awards presented

YORK - Scott Hunt, a 1976 Graduate of Eastern High School, was recently selected by York County teachers of agriculture to receive the Carroll F. Thompson Scholarship Award. Scott lives at York R1 and is the son of Mr. and Mrs. Walter Klahold. He will be attending the Penn State York campus in the agricultural business curriculum.

Other scholarship award winners in the York County FFA Association were:

Rickey L. Ruppert, 1531, George Street, Dover, son of Mr. and Mrs. Millod Ruppert. Rick will be attending the University Park campus of Penn State University in the agricultural business management curriculum. Rick is a 1974 graduate of Dover Area High School.

Bruce V. Miller Red Lion, son of Mr. and Mrs. Dale V. Miller, and a 1974 graduate of Red Lion Area High School. Bruce will be attending Penn State in a dual major of agricultural education and food science.

William M. Spahr, a 1976 graduate of Dover Area High School is the son of Mr. and Mrs. William H. Spahr. Bill will be attending the Mont Alto campus of Penn State in the forestry science curriculum.

Jeffrey L. Keeney 2826 Vireo Road a 1974 graduate of York County Area Vocational Technical School was the fifth award winner. Jeff is the son of Mr. and Mrs. Clyde L. Keeney and will be attending Penn State in the nursery management curriculum.

The teachers of agriculture in York County high schools and York County FFA members would like to thank all individuals and organizations who have contributed to the Carrol F. Thompson Scholarship Fund. Any further contributions may be made payable to York County FFA Scholarship Fund, in care of Richard M. Coons, Teacher of Agriculture Dover Area High School Dover, PA 17315.

Bank goes electronic

LANCASTER — National Central Bank has become the first bank in the Third Federal Reserve District to be certified by the Third District Automated Clearing House (3 DACH) to begin operation of an electronic funds transfer system under requirements which become mandatory September 30.

Certification by the 3DACH enables the bank to offer a wide range of new checkless services to customers, including automatic payroll deposits by an employer into the checking and-or savings account of an employee

Top sale animal:

Web-Ru Greet Greta shown above was the top sale animal at the Franklin - Cumberland County Holstein Breeders Sale held Tuesday, September 7th, at the Shippensburg Fair Grounds. The cow was consigned by Webster Fischer & Sons, Crystal Springs, Pa., and was purchased by Jack Sunday, Carlisle R1 for $1600 The 48 head - cows, calves and heifer averaged $874. Three animals sold for amounts over $1400 and 12 head sold for amounts over $1050. The sale was co-sponsored by the Cumberland County Holstein Club and Franklin County Holstein Club.

Good salesmanship rewarded

Good salesmanship was rewarded at the York Fair on Wednesday when Doris Van Hyning presented a check for $100 to Tim Eisenhart of the York County 4-H Council. The presentation was made in appreciation of the help the York County Conservation District received from the County's 4-H'ers in distributing some 40,000 trees to York County landowners. Mrs. Van Hyning is executive assistant of the conservation group.

Cattle marketer ready

ADAIR, Iowa — A corporation has been formed to market for the first time in this country purebred Norwegian Red cattle.

It is the Nored Corporation, based here, which is the sole authorized marketing agent for the North American Norwegian Red Association. Ronald R. Hagelman, Jr., of Adair, is president.

Norwegian Reds were first imported in 1973, and tests since their introduction indicate excellent weight gains and exceptional conversion on high roughage for the breed.

Other characteristics of the breed include great length of body and rump, small calving size, good mothering ability and excellent fertility.

Norwegian Reds have been developed in Norway over a 40-year period utilizing a very selective and vigorous breeding program.

Cattlemen called to hearing

PITTSBURGH - Producers of beef cattle, and dairymen can express their views on a proposed research and information order for beef, authorized by a federal law enacted last may.

The proposed order would provide for a nationally coordinated research and information program for beef to be financed by an assessment up to one-half of one percent of the value of each animal slaughtered, with provisions for a refund to producers not wishing to participate.

Public hearings are being held to enable USDA to determine whether the proposed order furthers the objectives of the enabling legislation. A meeting on September 28th is scheduled here at 1112 Federal Building, 1000 Liberty Avenue. All testimony will be taken under oath, with cross-examination permitted. Those submitting reports or similar material must provide five copies.

The proposal was made to the United States Department of Agriculture by the Beef Development Task Force, composed of various national and state beef and dairy organizations.

ONLY BROCK has all this.

Full Range Of Bin Sizes And Styles
6 models 28 sizes 6, 7, 9 and 12 foot diameters
Capacities range from 3 to 55 tons

Completely Galvanized Bin
Every part, from lid to boot, including legs and braces, is fully galvanized

Better, Built Bin
Heavier gauge steel, higher tensile steel, better galvanized finish makes BROCK the finest in its field

New All Out Boot Design
With a new one piece injection molded transition for new easier feed down

Ground Level Operated Lid
Lid opens or closes easily with the pull of a chain

Precision Fabrication
A new plant using the latest manufacturing methods produces a more accurately punched more beautifully formed easily erected bin

Brock Auger Delivery System
A single motor delivery system for poultry hog and cattle feeding

Brock Leadership
Brock leads all others in the feed bin business You are years ahead with Brock

Top cow at Jersey sale brings $1800

By JOANNE SPAHR

LANCASTER Eighteen hundred dollars was the top price received for an animal at the Pennsylvania State Jersey Sale held at the Guernsey Sale Pavilion, here, last Saturday The animal which sold for that amount was a five-year-old cow that had freshened three days before the sale Rated "excellent," her record includes an estimated 11,530 pounds of milk and 619 pounds of butterfat. A daughter of J.F D Empire and Sunset Ridge Milkboy Pat, she took first place in the three and four year old class at the Troy Fair Consigned to the sale by Eugene and Brian Harris, Sunset Ridge, Milan, she was purchased by James Kelley and family, Canton R1.

The next highest priced animal at the sale was Huntsdale Nancys Beth, consigned to the sale by Huntsdale Stock Farm, Carlisle, Pa. This two-year-old is a daughter of Nancy's Sleeping Advancer and Huntsdale Betsey Epic, and is due on October 13 to Advancer Sleeping Milestone Her sale price was $1525 She was purchased by Denise McConaughy of Smicksburg, Pa

The James Kelley family also purchased the third highest priced animal, Surville Honeymoon Beth, a four-year-old consigned to the sale by Clyde and Robert Robison, Coal Center, Pa The animal brought $1425

Other top prices were $1400 for a three-year-old, $1325 for a three-year-old, and $1025 for a two-year-old

The sale averaged $848.68 and the top buyer was James Kelley and family with a total of $7625 for six head.

S Braden King, Boonsboro, Md., who was auctioneer for the sale, stated that in his opinion, the sale had "very, very active bidding" and fine quality animals. A crowd of several hundred people showed up to participate in the auction

Before the bidding began, trophies were handed out for the top producer from last year's sale The animal was Bryncoed Filma Fida, a two-year-old, whose actual milk was 13,810 pounds and 576 of butterfat Her mature equivalent milk records were figured at 17,124 pounds with 697 butterfat Her consignor to last year's sale was Sam Williams and her buyer was Walebe Farms, Inc , Collegeville, Pa

The second highest producing animal from last year's sale was Chocolate Thurl of Ogston, consigned to the sale by John Bishop VI, Ogston, Columbus, N J. She was purchased by Walebe Farms Her records are 13,291 actual milk and 555 pounds of butterfat, while her mature equivalent was figured at 17,012 pounds of milk and 694 pounds of butterfat.

The top priced cow at the Pennsylvania Jersey Sale was Sunset Ridge JFD Laurel, shown here with (left to right) S. Braden King, auctioneer and contender for the cow; Brian Harris, consignor; Debbie Kelley, Mike Kelley, Mrs. Janet Kelley, and James Kelley, buyers. Although King was auctioneer, Norman Kolb of New Holland Sales Stables did his bidding, since King was also contender for the animal.

York Fair

Fair selects youth of year

YORK - Brian Livingston, son of Mr. and Mrs. Paul Livingston of East Berlin, was is York County's Outstanding FFA member of 1976.

The award received by Livingston is an all expense paid trip to the National FFA Convention and American Royal Livestock Show which are held in Kansas City, Missouri in early November. The person to receive the award, which is sponsored annually by the York Fair, was selected by judges: Robert Deck of the Lincoln Intermediate Unit; Leo Rutter, representing the York Fair management; and Ed Heindel of the York office of the Production Credit Association.

Livingston is a senior at Dover High School where he is serving in the capacity of president of the FFA Chapter. He is also the County FFA reporter. He has been actively involved in county contests such as parliamentary procedure, dairy judging and livestock judging. He is a member of the American Hereford Association and the American Yorkshire Club.

Livingston's farming project includes three Hereford beef cattle and 17 head of Yorkshire swine. He has shown some of his livestock at the York Fair and during the 1975 York Fair he was reserve champion in the FFA Swine Fitting Contest.

Each year one member from each of the seven York County schools having an FFA program may compete for the award. The basis for selection of the award winner is on: (1) participation at the York Interstate Fair; (2) leadership; (3) scholarship; (4) project program; (5) participation in County and State FFA Activities and (6) personal interview.

Carlisle man discussed regional agribusiness

CARLISLE - Raymond W. Peterman, of Peterman Farm Equipment Inc., here, recently discussed agribusiness in his region with William K. Mounfield, president of Massey-Ferguson Industries Ltd., at the Toronto meeting of the Massey-Ferguson U.S. Dealer Council.

Peterman and 15 other dealers represent a national body of more than 1400 dealers across the 50 states. He himself acts for dealers in Delaware, District of Columbia, Maryland, New Jersey, Virginia and West Virginia, as well as Pennsylvania.

Purpose of the Council is to communicate customer and dealer needs and ideas to Massey-Ferguson marketing, manufacturing and engineering executives, and for company managers to reveal upcoming plans, programs and product developments. Members serve two years.

Agriculture gains importance

STATE COLLEGE - Two researchers from Purdue University say that there has been a growing economic interdependence among countries since World War II, with trade expanding more rapidly than world GNP. The U S has not been immune from this trend, and has now become almost as dependent on its trade sector as Japan and the European Community as a whole They made their statements at an agricultural economics conference held here this summer

U S agriculture has become especially integrated with the world economy. The share that agricultural trade makes up of the Gross National Product from that sector has doubled in the period 1950-53 to 1970-74 The U S. has shifted from a position of playing little role in the international grain markets in the decade of the 1930's to a position in which it now supplies over half of world exports. And the agricultural sector now make a major contribution to our trade balance While trade in non-agricultural products has been running a large deficit on our trade accountts, trade in agricultural products is running an increasingly larger surplus over the years.

As possible explantions for this trend Brandao and Schuh focus on the past investments of the U S. in agricultural research and Technology, and on the tendency of other countries - especially the developing countries - to neglect their agriculture and concentrate on industrial develpment The marked recent decline in productivity growth in U.S. agriculture and the failure to sustain past investments in agricultural research and development have sobering implications for a country that has become increasingly dependent on agricultural exports to finance its growing import bill.

Charity auction slated

HERSHEY — Friends of the Four Diamonds Fund will sponsor a benefit auction Saturday, October 2, beginning at 9:30 a.m at Hershey Highmeadow Camp. Auctioneer will be "Jake" Gerberich

The Four Diamonds Fund was established at The Milton S. Hershey Medical Center of The Pennsylvania State University in 1973 for the purpose of providing relief from the extraordinary financial burdens of families of children with cancer who are treated at the Medical Center.

Contributions of items to be sold at the auction are now being sought. Used furniture, accessories, antiques, dishes, glassware, produce, etc. (but not clothing) are all welcome.

Donors may contact a member of the auction committee for pick-up of items. Committee members are Helen Hahn, 566-2715; Violet Lehman, 566-2083; and John A. Meyers, 367-3479.

All support for the Four Diamonds Fund comes from private contributions, profits from special programs such as concerts, bake sales and athletic events conducted by church, school and civic groups and from gifts in memoriam and in honor of birthdays and anniversaries.

Proceeds from a similar Four Diamonds Auction last year netted $1,562. To date, allocations ranging from $51 to $2,416 have been given to 39 families. Gifts are processed and the fund is coordinated by the office of gifts and endowments at the Medical Center.

The York County 4-H Petting Zoo was a popular exhibit at the fair this year. A break from the midway rides and food, it gave non-farm children a chance to get in touch with nature.

Petting zoo draws kids

YORK — "C'mon, Alison, look at the little piggies," coaxed one mother from the outside of the fence with a gleam in her eye and a camera in her hand. Another mother got concerned and reprimanded, "Bobby, don't be so rough."

These were typical remarks heard at the Old McDonald's Farm tent last week at the York Fair. Because, in this particular case, the Alison's and Bobby's weren't just walking around the animal pens looking at the livestock with their parents. Instead, they were getting a first-hand touch and feel of a real life duck, lamb, goat, calf, piglet, cat, pigeon, and rabbit — and much more. Old McDonald's Farm was a petting zoo sponsored by the York County 4-H clubs.

According to Tim Markovits, assistant county agent, the tent was achieving a relatively high degree of success. Sunday had been a particularly good day with the tent full most of the day, and the succeeding days also had high turnouts.

Those working the tent felt that it provided a refreshing change from the cotton candy and rides of the midway, and some cheap entertainment. Cost of admission was 20 cents.

"A lot of parents bring their children down here to pet the animals," remarked one of the workers, "And, they're not necessarily farm children, either," he added.

The third year for the project, this year's organizer was Roxanne Price. All of the proceeds will go to the York 4-H center.

High slaughter to continue

DENVER, Colo. - Monthly cow slaughter rates continue to run ahead of previous projections, the American National Cattlemen's Assn. points out, but the kill levels now are less than the record highs reached during the latter part of 1975.

ANCA noted in its monthly report on the cow herd that cow slaughter in July totaled 810,000 head. This was 19 per cent below the level of July last year, but it was seven per cent greater than the previously projected total for July. For the Jan.-July period, U. S. cow slaughter totaled 5,890,000 head - eight per cent more than earlier projections and four per cent greater than in the same period of 1975. (The projections are monthly and annual cow slaughter rates previously estimated by Cattle-Fax economists as being needed to balance cow herd size with beef demand and today's production cost levels.)

Adverse economics, dry weather in some areas and high roughage costs are expected to result in a continued high rate of cow slaughter in the months ahead, said Wray Finney, ANCA president. It appears that total cow slaughter in 1976 will be substantially more than the 91.7 million head estimated early this year, but it will be less than the 11.5 million total reached in 1975. The cow herd as of Jan. 1, 1977, may be down from a year earlier by four to five per cent totaling 52 to 53 million head.

"All of this means," Finney said, "that the cow herd is getting back to a size more nearly in line with demand. However, even with sustained demand for beef, we must recognize that average production costs for both producers and feeders now are so much higher than they were a few years ago that our prices must average much higher than historically adequate levels.

"Therefore, in view of the fact that - regardless of the volume we produce - the public spends no more than a certain percentage its disposable inco ef, it may be that herd size will ha se even more e anticipated

York Fair

Fruits and nuts winners posted

YORK - In the Fruits and Nuts department of the York Fair, this year, there was stiff competition, as there was in every other department of the fair In the apple class of the fruits division, Earl Brown Orchards, Loganville, took most of the first place awards with 18 firsts The orchard also took the majority of the peach top placings with eight out of 15 awards

The special award in apples for the grand champion bushel basket went to Goodling's Fruit Farm

Walter Raab, York, took the award for the best fruit display The names of the first place winners in the various fruit divisions follow

Apples

First place winners in the apple division were. David Brown, Loganville; Earl Brown Orchards, Loganville; Treva Markey, York; David Brown, Loganville; Albert Leight, York; John Dietz, York; Paul Harman, York; Joseph Raab, Dallastown; Alfred Horne, York; Spencer Harding, Red Lion; Joseph Raab, Dallastown; Bartons Fruit Farm, Stewartstown; Gary Ness, Seven Valleys; Alfred Home, York.

Peaches

Earl Brown Orchards; Barbara Humer, Craley; E. Conley, York; Carl Harding, Red Lion; Mary Raab, York; Bonnie Markey, York.

Nectarines

Bartons Fruit Farm, Stewartstown.

Pears

Earl Brown Orchards; Carol Markey, York; Elaine Fitz; Linda Brown, Loganville; Barry Jacobs, York; Jane Lehman, York; Jean Castriota, Red Lion; George Shearer, York; Mary Raab, York; Walter Raab, York.

Tempting sight.

Plums

Alfred Horne, York; Raymond Anderson, Dover; Lloyd Shaffer, York; Joel Wicken, Shrewsberry; Treva Markey, York.

Quinces

Henry Gibson, York.

Persimmons

Raymond Wallick, York; John Gross, Spring Grove; Vaughn Rimel, Hanover.

Berries

Ethel Druck, Dallastown; Gary Simpson, Etters; R. Wofgang, York; Mary Miller, Thomasville; May Poff, York; Florence Sipe, Mt. Wolf; Beatrice Smith, York; Mrs. Robert Campbell, York; David Myers, Red Lion; Rae-June Douglas, York; Ted Berkheimer, York; Mary Messersmith, York; Mrs. John Lambert, New Freedom; Jean McDowell, Dallastown; Mrs. Spencer Welsh, York; Lottie Berhkeimer, York.

Grapes

Carl Miller, York; Richard Naylor, York; Russell Eppley, York; Marie Sipe, York; Mrs. John Lambert, Red Lion; Gary Simpson, Etters; John Rudacille, Seven Valleys; Henrietta Leight, York; Raymond Wallick, York; Raymond Anderson, Dover; Raymond Wallick; Margaret Lambert, New Freedom.

Nuts

Mrs. Kenneth Wire, Dover; Erma McDowell, Dallastown; Grace Slonaker, York; Gary Simpson; Roy Jenkins, Red Lion; Melissa Cook, York; Sherry Grove, York; George Slonaker, York; Troy Wilt, York; George Pifer, Dallastown.

PDGA "Big Weekend" now

LEBANON — The Pennsylvania Dairy Goat Association will hold their fourth annual Big Weekend at the fairgrounds in Lebanon, Pa. today and tomorrow. Highlight of the weekend event will be an open consignment sale of dairy goats from Pennsylvania and several neighboring states, starting at 2:00 p.m. on Saturday, Sept. 18th. Consignors are asked to registertheir sale animals by 1:00 p.m. on Saturday.

An ADGA sanctioned dairy goat show, open to all exhibitors, will be held at 9:00 a.m. on Sunday and will be judged by Mrs. Martha Griner of Bordentown, N.J. A 6:30 a.m. breakfast meeting of the Penna. Dairy Goat Assn. is scheduled for Sunday at Karinch's Motel restaurant in near-by Quentin, Pa.

A banquet will be held tonight at 6:00 p.m. to be followed by a discussion and demonstration of artificial insemination in dairy goats at 8:00 p.m. The banquet will be served at the Treadway Inn in Lebanon.

Although sponsored by the Pa. association, the Big Weekend is open to everyone. In past years, participants have come not only from Pa. and neighboring states but also from more distant states such as Iowa and Georgia. Visitors who just wish to look at or to talk about dairy goats are welcome at the fairgrounds both days.

For general information about the Big Weekend, call Dr. Ed Watson in West Chester 215-486-0859.

Some recent studies say dietary cholesterol may have little to do with heart attacks. An advisory panel on nutrition for Britain's department of health and social security reported in 1974 that it found no evidence connecting egg eating to heart disease.

Following are the percentages of by-products used in the total ration by animals in 1971 poultry, 35.6; swine, 14.9; dairy cattle, 10.4; beef cattle on feed, 8.0; and all beef cattle, 4.1. Poultry are using by-products at the highest level in their rations where it is about one-third of the total feed.

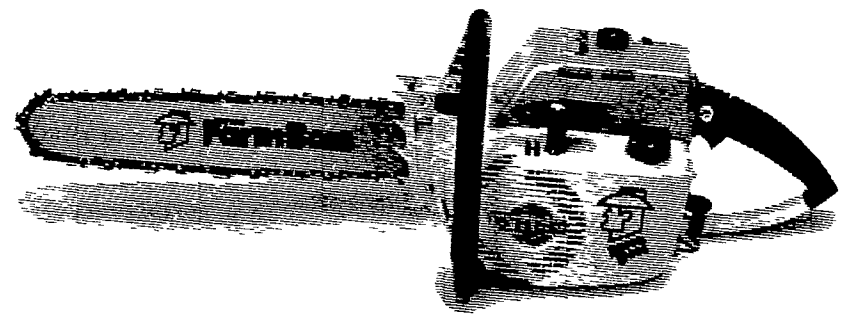
WE HAVE THE FARM BOSS AND IT IS A STIHL.



IT STARTS EASIER.
Because of a hotter spark, better carburetion and a flood-free design.
IT'S MORE RELIABLE.
Because it has longer-wearing moving parts that won't break down.
IT'S MORE POWERFUL.
Because it has the biggest power to weight ratio of any popular saw.
IT'S QUIETER.
Because its large baffled muffler is more than just a tin box.
IT COSTS LESS.
Because a saw that'll last about twice as long will only cost about half as much.
Over $30 worth of free accessories including a spare cutting chain really make the Farm Boss a Stihl.

GERMANIA DAIRY AUTOMATION

TAKE YOUR CHOICE . . . From a complete line of Automatic Take-offs

Only from Germania . . . The right take-off for every herd size, every milking parlor and every stanchion barn.

NEW

Germania AirMatics
MODEL C

NO-ARM TAKE-OFF

NEW

Germania AirMatics
MODEL D

NO TAKE-OFF TAKE-OFF

MODEL C

Model C is a no-arm take-off. As the cow milks out, the vacuum shuts off and a stainless steel chain retracts the milker from the udder. By correctly timing the retracting in relation to shutting off the vacuum, the milker is gently removed from the udder before it has time to fall on the floor — with plenty of time to spare.

Milk flow sensor, vacuum shut-off, air controls and retract mechanism of this machine are identical to Model B.

Model C works in all milking parlors and stanchion barns in use in America today. It is particularly useful in herringbone barns with very short cow distances. It works excellently in milking parlors where cows are milked from between the rear legs. All of its components are assembled in a single compact package. It mounts on the rump rail behind the splash shield, well protected from the cows. Because of its compact size, Model C does not take much space from the milker's work area.

MODEL D

Model D is an automated vacuum shutoff. It does not have a retract mechanism, and so we call it a "no take-off take-off." As the cow milks out, the vacuum shuts off and the claw will drop off the udder unless a claw support arm or something comparable keeps it from falling.

Model D uses the same components as B and C, minus the retract mechanism.

Model D is intended for Surge side-opening barns using the Surge support arm. Also, for stanchion and flat barns where the DeLaval back cord is routinely used. The unit is extremely compact, 4" × 4" wide by 24" high. And since it does not have a retract mechanism, it doesn't matter where it is located in relation to the cow. It can be mounted anywhere on the milking stall. Directly above the udder is a good place, as is the center of the stall or the curb directly above the low line.

SHOULD YOU BUY A TAKE-OFF WITH ARM OR WITHOUT ARM?

HERE IS WHAT YOU MUST KNOW:

The no-arm take-off has these advantages.

— They take less space
— They cost less money
— They are easier to install They are also easier to work with in awkward parlors, *i e*, in very narrow stalls or in side-openers where gate handles may be in the way, and so on

They also have one distinct disadvantage In most cases, the hose support arm will stay underneath the cow You'll have to go back to pull it out of the way

Automatic Take-Offs with arm have these advantages.

— If, for whatever reason, the milker is kicked off or falls off the udder, it will fall to the floor sucking air and dirt if you are using a no-arm take-off With an arm take-off, the unit is caught, the teat cups fall over, shutting the air flow off
— With certain udders the claw just won't stay on In these cases, the arm can be raised slightly, holding the claw up Without the arm, the operator would have to hold the unit until the cow is milked out
— With the retract arm, you don't need to bother with the hose support arm
— And, you don't need a second man, either If a heifer kicks so much you can't get the milker on, get her tail over the rump rail and hold it with one hand Attach the teat cup with the other The arm holds the claw up — just like a second man Works very nicely
— The continuous "squawking" of teat cups can be stopped by slightly lifting the retract arm
— Some cows are used to additional weight on top of the milking claw for complete milkout In these cases, the arm can be lowered onto the machine, simulating weight

*(We strongly recommend **not** to use the arm **routinely** as described in the last two paragraphs, but it can be used this way occasionally to resolve a temporary condition)*

Whether you choose take-offs with or without arm depends on your specific situation and what you want to achieve. Automatic take-offs with arm are recommended in most situations because of their advantages in operation. They also are more efficient. If space is limited and money is short, choose the no-arm take-off. Either way your dairy will benefit from take-offs — and in every case GERMANIA has a take-off for you.

These forty girls will be competing for the coveted title of Pennsylvania Dairy princess on September 22. From left to right they are: row one, kneeling - Susan Murray, Somerset County; Melonie Wood, Fayette Co.; Janet Minner, Mercer Co.; Carol Walter, SUN Area; Angie Smith, Blair Co.; Deborah McDonnell, Montgomery Co.; Cindy Rutter, York Co.; Vanessa Follett, Erie Co.; Tyla Troyer, Crawford Co.; Linda Kline, Clarion-Venango Co.'s; Eileen Crider, Franklin Co.; Eloise Pifer, Jefferson Co.; and Nedra Yoder, Berks Co. In row two, standing Wendy Graves, Columbia-Luzerne Co.'s; Carol Yeager, Chester Co.; Mary Ann Klinger, Adams Co.; Carrie Smith, Washington Co.; Wanda Herman, Bradford Co.; Nancy Ellinger, Mifflin Co.; Charlene Maust, 1975-76 Pa. Dairy Princess; Debbie Shambaugh, Perry Co.; Cathleen Vernon, Tioga Co.; Kathleen Schiever, Butler Co.; Pam Curtis, Warren Co.; Sharon Bishop, Bucks Co. In row three, standing - Ruth Behrer, Hundtingdon Co.; Corrine Dunlap, Indiana Co.; Debra Kreider, Lancaster Co.; Carol Heisler, Schuylkill Co.; Robin Haffey, Beaver-Lawrence Co.; Diana Young, Susquehanna Co.; Beth Hull, Bedford Co.; Ginger Young, Clearfield Co.; Terri Weight, Centre Co.; Rose Marie Brandt, Lebanon Co.; Peggy Staub, Cumberland Co.; Linda Jarrett, Lycoming Co.; Donna Brandt, Dauphin Co.; Lynn Brown, Sullivan Co.; Mary Delbaugh, Juniata Co.

State dairy princess to be chosen on Wednesday.

HARRISBURG - This Wednesday night, 40 hopeful and qualified county dairy princesses will match wits, dairy knowledge, and promotional skills to win the coveted title of Pennsylvania Dairy Princess at the Penn Harris Motor Lodge in Camp Hill.

Held in conjunction with the All American Banquet, the pageant is in its 20th year.

The competition for the title gets underway on Tuesday morning when each girl will undergo a 10 minute interview period. Then, on Tuesday evening, all the contestants will be taken to dinner at Newberry Farms where they will be called upon to give impromtu speeches.

On Wednesday, however, the actual rigorous competition starts with each princess giving a prepared three-to-five minute speech or skit to the judges. When all the presentations are through, a rehearsal for the evening's events and a reception for all the past dairy queens, or milkmaids, as they were formerly called, will take place.

The pageant, itself, immediately follows the All American banquet at approximately 7:30 p.m.

Part of the evening's entertainment will be a presentation of the top five skits or speeches judged in the morning. The two winners of a dairy scrapbook contest will also be announced. The culmination of the evening will occur, however, when Charlene Maust, 1976 Pennsylvania Dairy Princess, hands her title over to the princess for the coming year.

The contestants, chosen this summer in county pageants, have been busy promoting milk for the past three months and preparing themselves for Wednesday's event. During July, they also attended a three-day training seminar at York College, where they were instructed in matters of health, beauty, poise, and dairy-related activities.

For most of the summer, each county princess has been participating in county fairs, dairy field days, and various other milk promotions.

"Some of them have been on television and radio, already," explains Karen Laughman, southeast coordinator for the dairy princess contest. "And, many of them have been doing mall and supermarket promotions," she adds.

And, while the top contenders will win monetary awards at Wednesday's pageant, Mrs. Laughman believes that "it's the honor of being dairy princess and the rewards of the year that follows" that makes being the state princess such an appealing goal for each girl.

Judges for the event will come from Ohio, New York, New Jersey, and Maryland.

Farm Price Index shows sharp decline

WASHINGTON, D.C. - The fruit crop price index advanced 15 per cent. The dairy products, commercial vegetable and poultry and egg price indexes each advanced 2½ per cent. That was the good news for farmers for August. The bad news was that meat animal prices declined six per cent - hitting a 16-month low. Feed grain prices dropped seven per cent, oil crop prices nine per cent, food grain prices 11 per cent, cotton prices 15 per cent.

As a result, the over-all Index of Prices Received by Farmers declined eight points (four per cent) to 187 per cent of its Jan.-Dec. 1967 average. The decline was the sharpest since the 4½ per cent drop that occurred between May and June of 1974 - 27 months ago. It also left the index seven points (nearly four per cent) below that of August 1975 - the first it's been below that of a corresponding month a year earlier since last December.

The Index of Prices Paid also declined one point from the revised July index. At 195, it was still 11 points (six per cent) above a year earlier.

With Prices Received down sharply and Prices Paid down only a point, the Ratio of Prices Received to Prices Paid declined three points to 96. It had been 105 a year ago.

Hog cholera embargo modified again

HARRISBURG — The Pennsylvania Department of Agriculture has further modified an embargo against swine from New Jersey, imposed last month because of an outbreak of hog cholera, lessening restrictions for the movement of slaughter-ready swine from areas not under quarantine, according to Secretary Raymond J Kerstetter

The modification, effective now, provides that

- No swine of any type from premises under state-federal quarantine in New Jersey may be moved into the Commonwealth,

- No feeder and breeding swine from New Jersey may be consigned to Pennsylvania auctions until further notice. Feeder and breeding swine can be shipped directly to farms if a prior permit is obtained from the director of the department's Bureau of Animal Industry and if they have been examined by an accredited veterinarian and accompanied by a valid interstate health certificate,

- Slaughter-ready swine from premises not under state-federal quarantine in New Jersey may move directly from premises of origin or an approved assembly point to approved Pennsylvania auctions or an approved slaughtering establishment within the commonwealth They do not require a permit but do require an owner-shipper statement listing the number of swine, name and address of owner and the approved auction or approved slaughtering establishment to which they are consigned

An embargo on New Jersey swine had been in effect since Aug 3 when an outbreak of hog cholera was reported on a Belleplain farm The embargo was first modified Aug 16

Modified swine embargoes also are in effect against swine from Massachusetts and New Hampshire

According to Kerstetter, Pennsylvania has had no reported cases of hog cholera and the disease appears to have been contained in the other states by state and federal officials

Though hog cholera is usually fatal among swine, the disease cannot be transmitted to other animals or humans Therefore, the embargoes had permitted the movement of slaughter-ready swine under certain conditions

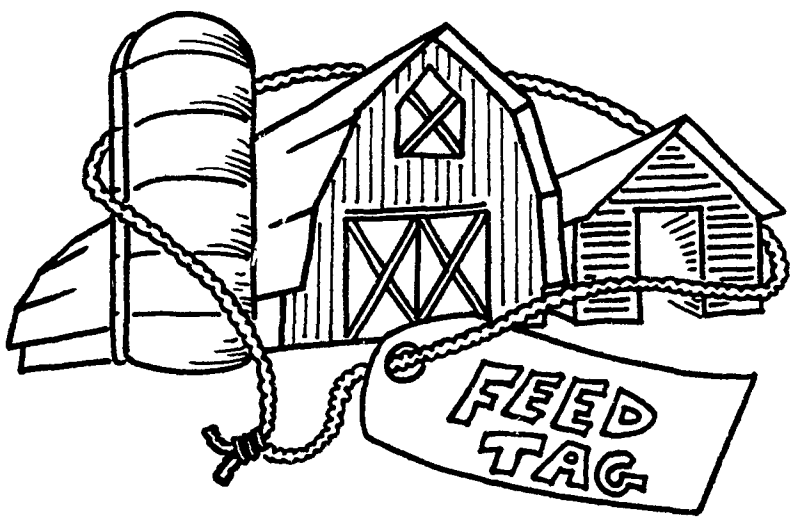
AGRI-KING
KEY TO PROFIT

WHAT IS AGRI–KING?
WHAT MAKES THIS COMPANY DIFFERENT?

This is the second in a series of six articles aimed at answering these and other questions of interest to you, the farmer. The first article is available on request. Call 717-394-3047.

WHAT IS A BALANCED RATION?



Most people in the feed industry talk only about protein when considering a balanced ration. But to AGRI-KING a balanced ration means much more. Yes, balancing protein is important, but calcium, phorphorus, energy, vitamins and trace minerals must also be considered in the right amounts and ratios according to the needs of your breed of cattle and your milk production.

The only way to keep your total feed ration in balance is to periodically test the grain and roughages that are being fed, because these make up 85-90% of what you feed the cow. Only after the nutrient content and the amounts of these roughages being fed are determined, are we ready to start balancing your grain mix according to the needs of your cows. By using standard book value figures for the feeding value of your grains and roughages you have only a one in one thousand chance of having a balanced ration.

The protein, calcium, phosphorus, vitamins, trace minerals and energy are all interrelated in their work. It's a chain in which it takes one to utilize the other, and this chain is only as strong as its weakest link. Thus a well balanced feeding program contains the right amounts of protein (not too much but yet enough), the right amount of minerals (not too much, but yet enough), the right amount of vitamins (not too much, but yet enough), and the right amount of energy (not too much, but yet enough) to reach the high level of production and maintain the cows health we desire.

THIS FALL GIVE YOUR COWS A BREAK – CONTACT YOUR LOCAL AGRI–KING SERVICEMAN FOR MORE DETAILS ON BALANCING YOUR RATION THE AGRI–KING WAY!

York Fair

The amounts of fruits, vegetables, and flowers shown at the York Fair rivaled the numbers shown annually at the Pennsylvania St. te Farm Show.

"Look at the fat two-legged giraffes!"

It isn't all fun at games at the York Fair, as Greg Bankert, 5, and a friend, Eddy Fry - (who claims to be from California) - demonstrate.

An impressive Angus show heavily influenced by U.S. breeding highlighted the 1976 International Exposition of Livestock at Esteio, Brazil. All class winners and champions were imported from the United States or sired by bulls owned in the U.S.

Corn roots rated

OMAHA Neb Vaugh Kinney, University of Nebraska junior has a sore back and sees corn roots in his sleep He has dug washed and rated over 2 000 corn roots from fields in three states as part of a research project in corn rootworm control

Corn rootworms are a major problem for farmers throughout the Corn Belt and entomologists are reporting a build up in rootworm populations which will carry into next year

Kinney's assignment is for FMC Corporation, manufacturer of Furadan corn rootworm insecticide He has dug up roots from more than 100 field plots on which different rootworm control materials have been applied He then assists an entomologist in scientifically grading the damage as a measure of effectiveness of the various treatments Roots are rated on a scale of 1 to 6, using a system devised by scientists at Midwestern universities

Editor's Quote Book

As you cherish the things most worthwhile in your family life, cherish the things most worthwhile in your company

Wm B Given Jr

Vaughn Kinney rates corn roots for corn rootworm damage. Here he compares a 6 rated root - badly damaged by rootworms - with a 2 rated root from the row alongside and protected with a soil insecticide.

Losses diminishing

The preliminary report of the 1974 census offers some interesting figures on the number of farms in Hunterdon County, New Jersey. It lists 1,038 farms. This compares with 1,027 for the 1969 census and 1,031 for the 1964 census. For the 1959 census it was 1,481 and 20 years ago in 1954 it was 2,204. It seems the big drop in farms occurred between '54 and '64. Since '64 the numbers have leveled out.

Acreage-wise in 1954 there were 187,159 acres in farming. The 1974 count lists 109,134. The big drop in acres also came between '54 and '64 when it went from 187,159 to 128,045 in '64. The year 1969 showed 113,819 acres, a 4,000 acre drop. The loss in farm acres from '64 to '69 was some 15,000 acres and between '59 and '54, 35,000 so that the acreage loss in this last census period has indeed diminished.

Affirmative nod given to Meat Board plans

BOISE Idaho Positive response to increased levels of investment has strengthened our potential to expand consumer-oriented marketing education research and promotional programs, to benefit the entire livestock and meat industry,' said Marie Tyler Bismarck, N D treasurer of the National Live Stock and Meat Board Mrs Tyler stated at the Meat Board's annual meeting held here Aug 22-25, that the rapid response of producers, feeders and packers is giving the program a needed boost "

At the Meat Board's midyear meeting in February the directorate voted to establish new levels of producer investment The increase is the first since 1962 when the rates of three cents for cattle one cent each for hogs and sheep were inaugurated

The new rates of 10 cents on cattle four cents on hogs and two cents of that for the Meat Board

Founded in 1922, the Meat Board is a non-profit service organization working for the red meat industry, supported through investments of producers, feeders and packers These investments are made at the time the animals are marketed Packers also invest funds based on slaughter

The Meat Board sponsors extensive promotion, consumer education and research programs. Much of the nutritional information regarding meat in the diet that is available today came from research sponsored by the Meat Board; it also produces a full range of educational materials and consumer publications.

The Meat Board is governed by a directorate of producers, feeders, packers and livestock marketers along with meat retailers, purveyors and quantity foodservice operators. This broad representation assures a meeting-ground to serve the needs of the whole industry and the consumers of the nation.

MUELLER FRE-HEATER™

EXPLANATION OF THE REVOLUTIONARY NEW MUELLER "FRE-HEATER™" FOR THE DAIRY FARM

Bulk milk coolers on modern dairy farms remove heat from the milk promptly after it is produced To accomplish this requires refrigeration machines and they are generally of the air-cooled type. Air-cooled condensing units literally "throw away" this valuable heat.

On these same farms, large amounts of hot water are needed for "prepping" the cows, washing the milk cooler, the pipeline milker, other equipment, and the milking parlor itself. It is also advantageous to heat the cows' drinking water in winter.

The Mueller Fre-Heater conserves energy and provides "free" hot water by capturing the heat now wasted!

HERE'S HOW IT WORKS:

Rather than using noisy, dust-creating fans with fragile, dirt collecting air-cooled condensers, the refrigerant is routed to a specially designed condenser/heat exchanger and its heat is transferred to the water.

A thermostatically controlled valve delivers 145° F water to the storage tank

In addition to the thermostatic valve, a mixing valve is provided to permit "prepping" temperature water.

Thus, the Fre-Heater delivers two temperatures of water — prepping and washing.

Tests indicate the Fre-Heater consumes 10% less power than an air-cooled system . . . and you get Free Hot Water!

ELIMINATES REFRIGERATION SERVICE PROBLEMS!

The most common causes of slow cooling in bulk milk cooling systems are related to the air-cooled condenser

Three things which frequently reduce the efficiency are
1 Poor air circulation and recirculation
2. Fan motor failures
3 Dirty or clogged condenser fins

Air-cooled condensing units are generally installed out of doors in order to assure adequate air supply to the condenser. This exposes the compressor to extreme ambient temperatures. Starting problems and compressor failures have resulted and air-cooled condenser units are always noisy

The Fre-Heater eliminates these problems because:

- There is no air-cooled condenser
- The Fre-Heater is installed indoors.
- There are no fans to generate noise.
- The head pressure is very stable — assuring longer compressor life.
- There are no cold weather starting problems, plus

. . . the Fre-Heater conserves energy and produces Free Hot Water!

Save Energy and get FREE HOT WATER... with the revolutionary...

Welk takes top honors for fifth straight year

QUARRYVILLE - For the fifth year in a row, Maurice Welk, Quarryville R2, has had the grand champion and senior champion Holstein in the Solanco open Holstein show Wissler-Run Star Man Bon Bon, a seven-year-old with an excellent 91-2E rating, is the animal who has done it again for him this year Her record is 20,000 pounds of milk with 700 pounds of butterfat And, according to Welk, if she goes through her present lactation period, she will have given over 100,000 pounds of milk in her lifetime.

Wissler-Run Star Man Bon-Bon took the grand champion of the Holstein open show for the fifth straight year. Her owner, Maurice Welk, Quarryville R2, has also had the best dairy herd at the show for seven consecutive years.

Although he's taken the title so many years in a row, Welk says he can't resist bringing her next year, partly because "she knows when it's time for the fair," and partly because he's got a competitive spirit.

This is Welk's seventh year of showing at Solanco and he has taken best dairy herd every year.

Warren Schmuck, Peach-bottom R1, who had the junior champion, admitted to being a bit surprised at taking the title. Warren is mainly an Ayrshire breeder, and had only one Holstein entered in the show. Altogether, the family had 16 animals entered in the colored breeds.

Lovdal Royal Milly, the Holstein senior yearling that took the title for Schmuck, has improved quite a bit from last year. At that time, she placed sixth out of twelve.

This year Warren didn't have nearly the amount of competition as he had before, however. For some inexplainable reason - possibly silo filling and a combination of many other factors - the Holstein head count was down from other years.

Results from the open show are as follows.

Junior Calf

1. Gary Akers, Quarryville; 2. Debra Hershberger, Quarryville.

Intermediate Calf

1. Chuck Groff, Quarryville; 2. Jeff DeLong, Peach Bottom.

Senior Calf

1. Steve Spayd, Quarryville; 2. Karl Herr, Kirkwood.

Junior Yearling

1. Gary Welk, Quarryville; 2. Gary Welk.

Senior Yearling

1. Warren Schmuck, Peach Bottom; 2. Carl Kreider, Quarryville.

Two-Year-Old

1. Tom Denlinger, Ronks; 2. Carl Troop, Quarryville.

Three-Year-Old

1. Tom Denlinger, 2. Gary Akers.

Aged Cow

1. Maurice Welk, Quarryville; 2. Maurice Welk.

Open Get of Sire

1. Gary Akers.

Dairy Herd

1. Maurice Welk, 2. Carl Troop

Dam-Daughter

1. Maurice Welk, 2. Carl Troop

Best Udder

1. Tom Denlinger, 2. Maurice Welk.

The Champions

Reserve grand champion and reserve senior champion went to Tom Denlinger, Gap R1, with Cherrycrest Spanky Star. The animal is a three-year-old who also took best udder of the show.

Kreideracres Kenny Sapphire, owned by Carl Kreider, Quarryville R1, was reserve junior champion. A senior yearling, her sire was Penn-Octo Kenny.

Best Three Females were owned by Carl Troop.

HOLSTEIN JUNIOR SHOW

Warren Schmuck, took junior division Holstein honors along with junior champion of the open show on Wednesday afternoon. His one Holstein animal, Lovdal Royal Milly, was the key to his success.

Reserve junior champion of the show was Chuck Groff, Quarryville, with Groffdale Ideal Rhoda, an intermediate calf.

Linda Akers took both champion fitter and champion showman honors with her senior yearling, Solanco Acres C Cross Janet.

The results from the junior show are as follows.

Holstein Junior Show

Junior Calf Class

1. Debra Hershberger, 2. Samuel Long, 3. Nancy Akers.

Intermediate Calf

1. Chuck Groff, 2. Jeff Delong, 3. Mark Welk.

Senior Calf

1. Steve Spayd, 2. Doug Hershberger, 3. Ronald Clark

Senior Yearling

1. Warren Schmuck, 2. Linda Akers, 3. Richard Drumm.

Two-Year-Old

1. Susan Hess, 2. Doug Hershberger, 3. Danny Hershberger.

Junior Calf

1. Doug Hershberger.

Showmanship

1. Linda Akers, 2. Warren Schmuck, 3. Samuel Long.

Best Fitting Animal

1. Linda Akers, 2. Samuel S. Long, 3. Chuck Groff.

The top three fitters in the junior division were Linda Akers, first place, Sam Long, second, and Chuck Groff, third.

The champion and junior champion of the 4-H and FFA show were Warren Schmuck, champion (right), and Chuck Groff, reserve champion (left). Chuck's reserve champion was Groffdale Ideal Rhoda, an intermediate calf.

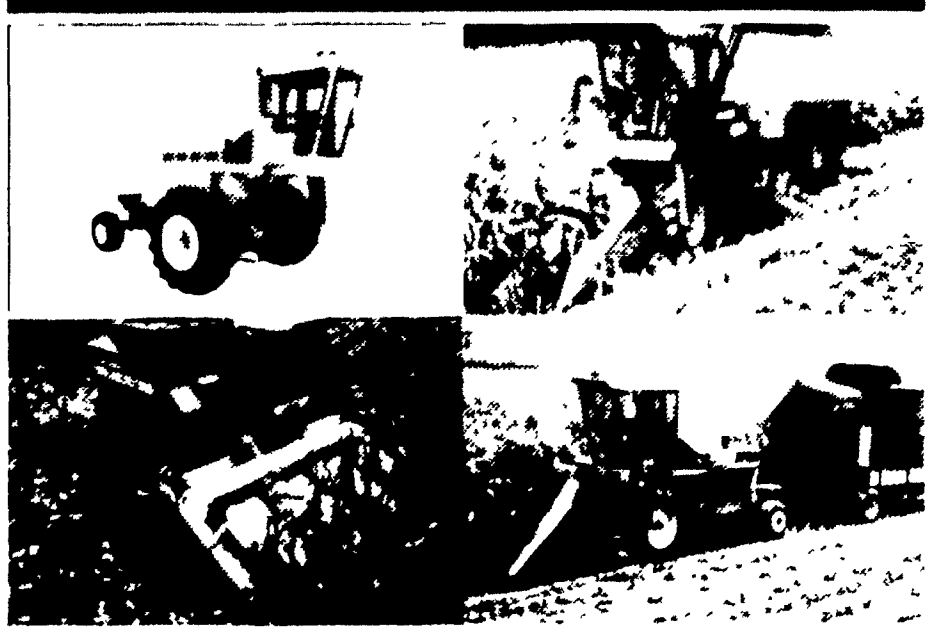
New Idea's Uni-System



If you haven't seen Uni lately, you haven't really seen Uni at all.

Just about the only thing that has stayed the same over the years is the "system." The idea of an interchangeable Power Unit which you switch from one Uni harvesting unit to another. Everything else about Uni has changed—for the better.

For example, there's the big new No. 717 Uni-Combine. It has 20% more capacity than the popular No. 710, and handles up to six 30" rows of beans, or four wide rows of corn.

And the new Uni-Picker. It features improved capacity, and it's more reliable than ever. It's still the only self-propelled picker on the market.

The improved Superchopper has a bigger 21' wide cutterhead and wider feed rolls for high-speed feed and big capacity.

The new diesel Power Unit has a rugged 256 cu. in. turbo-charged engine with 95 *available* PTO horsepower. Easily handles the Uni-Picker, both Uni-Combines, and Uni-Sheller.

See for yourself. Then you'll be telling your neighbor, "If you haven't seen Uni lately, you haven't really seen Uni at all."

New Idea's NEW Uni-Picker

Here comes a NEW Uni-Picker

This big, all-new Uni-Picker is more reliable than ever. What's more, it offers greater operator convenience and capacity. For example, the longer, wider wagon elevator now has a convenient, reliable hydraulic drive—with in-cab controls. Drives have been simplified, the corn saver improved, and the huge husking bed has its rolls "packaged" in sets of four to permit quick, one-man removal. In all, the new Uni-Picker harvests more corn non-stop, requires less maintenance, and is built to last longer than its popular predecessors.

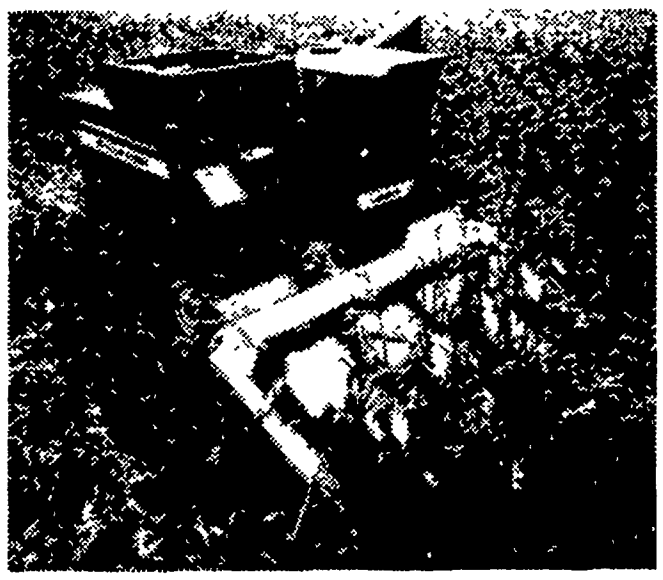
There are 6 good reasons why a Uni-Picker can handle large fields, and big, heavy, "down and tangled" yields — and they're the 6 Uni Cornheads. There are 5 stripper plate cornheads—2-row wide, 3 row wide 3-row narrow, 4-row wide, and 4-row narrow — and one snapping roll cornhead — the 4-row wide Superpicker.

For big capacity and reliable picking, you just can't beat New Idea's Uni-Picker.

AVCO NEW IDEA UNI-SYSTEM

Uni-System just plain makes more sense.

New Idea's NEW Uni-Combine



20% more capacity

That's what you'll get when you move up to this big, new No. 717 Uni-Combine. A full 20% more overall capacity than the popular No. 710 Uni-Combine. This new combine has more open concave area, longer walkers, a bigger shoe area, and a larger grain tank.

All this means you can now harvest up to 4 wide rows of corn, or six 30" rows of beans. And, because it's made by New Idea, this new Uni-Combine will do an exceptional cleaning job under all field combining conditions.

For even more capacity, add New Idea's exclusive Uni Bin-Stretcher. This unique new rear auger unloader lets you harvest half-mile long rows of 150-bushel corn —4 rows at a time—down and back, without stopping to unload. It's a real time-saver.

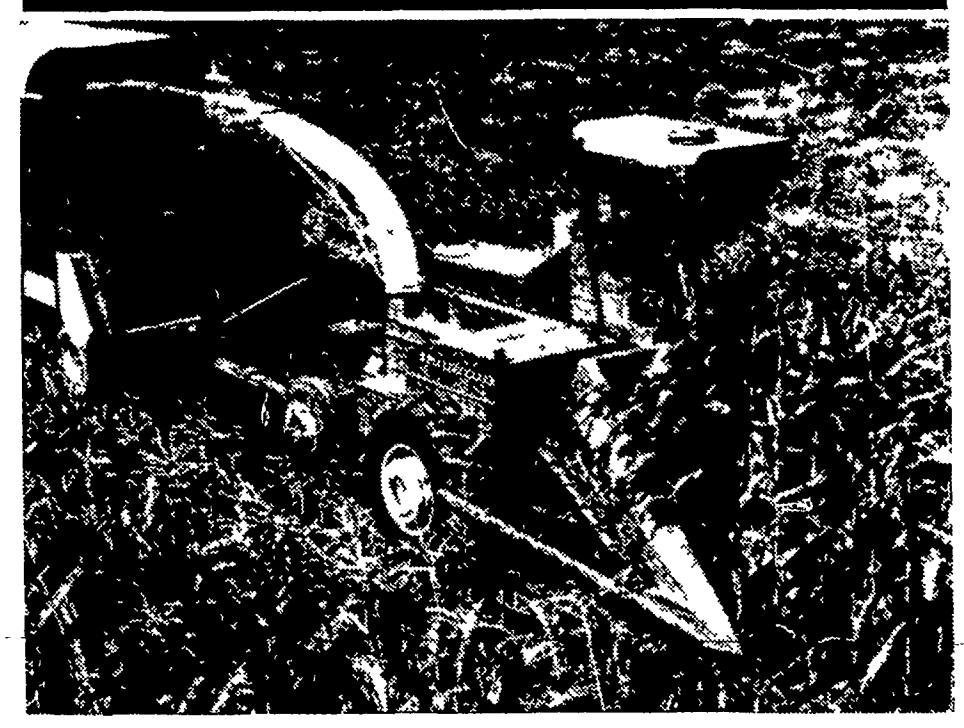
PRE-SEASON SPECIALS

Take early delivery on an Avco New Idea Manure Spreader.

NO Interest or Finance charges until NOV. 1, 1976.

Terms Available.

New Idea's Uni-Forage Harvester



Superchopper

Reliable. A real performer.

Today there's a really dependable forage harvester in the field! It's the new generation of choppers from Uni-System, the No. 1 self-propelled forage harvester on the market.

We call it the Superchopper.

If you liked Uni choppers before, wait till you see this one in action. See its reliability . . . its added convenience . . . and yes, its 15% greater capacity.

Bigger, heftier cutterhead. Broader, wider design for even smoother flow of material.

Let us show you this great Superchopper. But before you buy, be sure you've got enough forage boxes to handle the greater volume.

SEE DEALERS ON OPPOSITE PAGE.

Warren Schmuck, Peach Bottom R2, (left) took junior champion of the open Holstein show and junior division champion with Lovdal Royal Milly, his only Holstein at the Solanco Fair. Milly is a senior yearling. Carl Kreider, (right) Quarryville, R1, had the reserve junior champion Holstein of the open show. His senior yearling was Kreideracres Kenny Sapphire. In the junior division of the Solanco Holstein Show, Linda Akers, 14, Quarryville, was champion showman with her senior yearling, Solanco Acres C Cross Janet. Warren Schmuck (middle) took second place in this category, and Sam Long (left), Peach Bottom R2, was third with Milk-Along Velma Challenger.

Solanco 4-H exhibit winners posted

QUARRYVILLE - Although 4-H dairy, swine, sheep, and beef seem to get the most attention at fairs, there are always other, more domestic 4-H entries which virtually go unnoticed. Usually, these can be found in the horticulture tents or in other housed-in areas. For those 4-H girls who are sometimes bypassed, the following winners have been posted from this year's Solanco Fair.

4-H Sewing

Head scarf - Janine Klossin, Debbie Larmie, Lori Metzger; Poncho - Janine Klossin, Karen Blizzard, Lori Metzgar; Tote Bag - Lori Metzger; Slippers - Janine Klossin, Debbie Larmie, Lori Metzger; Stitch your own Skirt - Kim Michels, Lisa Bilheimer, Ann McSparran; Gathered Skirt - Glenda Deiter, Jane Harrington; Stitch-an-outfit - Jill Frey, Konnae Zeigler, Nancy Akers; Overalls - Kathy Hastings; School Outfit (Set-in-sleeve) - Anita Braightmeyer, Pam Kreider, Joan Frantz; Shirt - Debbie Krantz, Sandy Moore; Create with Fabric (Long Dress) - Daisy Perry, Tammy Herr; Separates - Sandy Hastings; Two Piece Ensemble (cotton) - Beverly Hershey, Kim Schubert; Blend - Debbie Krantz, Linda Akers; Three Piece ensemble (Blend) - Sandy Moore, Laurie Walton.

4-H Flowers

Marigolds - Kathy Hastings, Daisy Perry, Sandy Hastings, Cathy Powers; Zinnias (Large) - Daisy Perry, Zinnias (Small) - Sandy Hastings, Kathy Hastings; Chrysanthemums - Daisy Perry, Kathy Hastings; Aster - Sandy Hastings; Dianthus - Daisy Perry; Dahlia - Daisy Perry; Petunia - Daisy Perry; Gladiolus - Daisy Perry; Ageratum, - Daisy Perry; Snapdragons - Daisy Perry.

4-H Canned Goods

There was only one entry in 4-H canned goods. Vicki Peters took a blue ribbon for her jelly.

Electrical rationing found expensive

UNIVERSITY PARK - Agricultural commodity prices would increase substantially if energy rationing were applied to agricultural production, according to an Iowa State University study. Results of the research were reported here last month at the annual meeting of the American Agricultural Economics Association by researchers Dan Dvoskin and Earl O. Heady. A small reduction of five per cent in the amount of energy available to agriculture through rationing would increase agricultural commodity prices 26 per cent. The increase would occur because of farm input shortages and inefficient allocation of agricultural production.

Another potential energy policy analyzed was that of doubling energy prices by 1985 to also reduce energy use in agriculture by five per cent. Under this policy alternative, commodity prices would increase only 13 per cent.

Dvoskin and Heady said this research indicates that a policy of energy rationing would require more land and water (for irrigation) to be used in farming than would the high energy price policy when maintaining future foreign and domestic food needs. They conclude that energy rationing is an expensive way to allocate scarce energy resources for farm production.

Federal orders keep the milk flowing

WASHINGTON, D C - The neatly stacked cartons of milk on the supermarket shelves signify a reliable supply of one of nature's most valuable gifts an essential life sustaining and promoting fluid

Where does it come from? All of us know that the placid cows, patiently chewing on their cuds, supply us with this essential food But how does it get to consumers? And how is a steady supply of this highly perishable commodity assured?

The marketing of milk is a highly complicated process A key factor assuring the consumer a reliable supply is the market regulating system called milk marketing orders It is administered by the Agricultural Marketing Service of the U S Department of Agriculture.

Milk's unique characteristic is its perishability Cows give milk every day, but milk is not produced in the same quantities throughout the year Thus, the dairy farmer's basic dilemma: If enough milk is produced to meet consumers' needs for milk in the Fall, more milk will be produced in the Spring than is needed for fluid use. In the past, this put him at the mercy of plant operators who - until the advent of cooperatives and the federal milk marketing system - could pretty much dictate the price he would receive. Since the supply was almost always greater than the demand, the farmer had little choice but to acquiesce. A dairy farmer cannot "hold back production" of his cow - and this basic biological fact often proved to be his undoing.

The problems began coming to a head after World War I, and various farmers adopted different methods of coping with the situation. Bruce Snow of Dairylea, one of the nation's oldest and largest cooperatives, tells of how some farmers adopted the device of the milk withholding strike. Simply put, they stopped the trucks of other farmers and emptied their milk cans, often violently.

During the Great Depression, an upstate New York farmer named Archie Wright formed the Farmers Union of New York (now defunct and unrelated to any organization bearing a similar name). While never large, its members made themselves heard. A period of particularly low prices led to a bitter strike. (In those days dairy farmers were getting less than $1.50 for 100 pounds of milk.)

Dariylea, organized in 1907 to give the farmers greater leverage vis-a-vis the handlers, shared many of Wright's aims, but disagreed totally on tactics Dairylea said that the strike would accomplish nothing except money lost through spilt milk

"We organized two milk strikes ourselves," said Bruce Snow, "one in 1916 and the other in 1919 The first was moderately successful and the second not successful at all We quickly learned that the benefits were very temporary we got nothing long term out of either strike."

Farmers opposed to the strike formed convoys of tank trucks to get the milk through, and these convoys had state troopers at both ends Violence was sporadic, but the bitterness was intense and of long duration, for whichever tactic the farmer adopted, his basic problem of seasonal surpluses remained

The involvement of the federal government in milk pricing arrangments reflected both the wishes of dairy farmers and consumers to eliminate the chaotic situation just described and restore orderly conditions This led eventually to the adoption of the federal regulatory system, to be explained in the paragraphs that follow (The handler still decides who will ship to him, but the farmers now have the alternative of cooperatives Enforcement by the federal government of marketing and pricing plans pioneered by cooperatives allowed dairy farmers through their cooperatives to achieve some leverage in what had been a one-sided situation)

Milk marketing orders were established to regulate the handlers, not the farmers They are established at the request of the dairymen - not foisted upon them by USDA

What, exactly, is a "milk marketing order?" It is a regulation that spells out how milk from farmers shall be priced in the sale to processors. A particular "order" covers a particular geographic area (there are now 52 in the United States) and they regulate the price of milk paid to farmers by milk dealers. While administered by the federal government, they must be voted on and approved by producers. They do not set retail prices The federal government is involved because it alone has the authority necessary to institute a pricing system for milk moving in interstate commerce.

Recommendations for order provisions must be made on the basis of the record obtained at a public hearing. The provisions of orders, like other legal instruments are complex and technical Therefore, without expertise on orders and milk marketing, it is difficult to undertake the analyses and develop evidentiary testimony to support changes in the order The cooperatives, however, can provide such expert testimony at these hearings and this is one of their many benefits to dairy farmers

Robert Pardoe, an officer with the Dairylea Cooperative and a diary farmer himself, lives on the same 260-acre farm in central Pennsylvania that his father farmed before him and he knows, all too well, how difficult times were for the farmers during the Depression and before

Instead of being forced to leave the dairy farm, however, he is able to obtain a reasonable family living from it This is so because of the stability that orders provide, this stability makes it possible to plan ahead because orders provide a reasonably accurate idea of what lies ahead "Otherwise my son would be reluctant to take over the operation in the future - which he now plans to do " And the unique pricing system of the marketing orders, as well as his membership in a cooperative, are key factors in his farm's propserity

Legislation permitting the establishment of marketing orders was passed in 1937 The law mandated pricing raw milk according to its use and provided for separate orders tailored to the conditions of various marketing areas In paactice these orders are designed to assure adequate supplies of fluid milk for various metropolitan areas of the nation. Within these areas, processors who sell milk must pay a higher price for milk used in fluid form (or bottled milk) than for milk used in dairy products such as butter and cheese

All the money paid by the regulated processors is put into a pool and is then distributed equally among all the dairy farmers delivering to the regulated processors. The Milk Marketing Administrator conducts an audit and verification program to make sure that the producers are being paid no less than the established minimum prices.

What does this mean to Robert Pardoe? "It means that I get a 'blend' price for my milk. This is an average of the prices of fluid and manufacturing milk based on their uses in this market. The marketing order assures me this price because my milk is part of the regular supply for the New York-New jersey market."

His share in the value of the higher priced milk is not a government "handout." Robert Pardoe's milk may not always get into the bottle, but, and it is an important "but," it meets the additional stringent sanitary requirements laid down for fluid milk. It is also available for the local fluid milk market when needed.

If it is eligible for fluid use, why isn't it sold as such? The reason can be found in the basic laws of supply and demand, as applied to milk, as well as in milk's perishability. While consumption of bottled milk is rather stable, its production is seasonal. And plants normally bottle only four or five days a week. Therefore, all fluid markets are faced with excess supplies on weekends and during part of the year. The reserve must be used in manufactured dairy products or it will be lost. This reserve is necessary if adequate supplies of milk for city markets are to be assured.

The federal milk order program can be viewed as an example of a real success story of a government program operating in a complex field. The program has provided all concerned - and this includes consumers - with an effective means of resolving, or at least substantially mitigating, some of the problems inherent in milk production and marketing. It has provided, for this purpose, the power and responsibility of a cabinet officer acting under specific guidelines set forth by Congress and the restraint of the federal courts to review and resolve conflicting points of view.

This view is not held universally. Of late, there has been complaint voiced by some consumer groups that the orders have resulted in high milk prices and have imposed significant social costs on society. But no one who remembers the disastrous Depression days would want to return to the conditions that produced the current system in the first place.

Society must face the fact that no one produces milk out of charity - farmers have huge expenses and must be assured of fair prices in order to stay in operation.

Consumer interest in the orders, however, can be beneficial because it will result in wider knowledge of the subject. With this information in hand, many questions now troubling consumers will disappear.

The milk marketing system - like any system - can be improved upon continually. But its basic premise - that consumers benefit from a steady and plentiful supply of milk - is as valid today as it was when the system was inaugurated.

EDITORIAL

You and five acres

EDITOR'S NOTE The following editorial was furnished by the National Cotton Council and is based on information furnished by the U S Department of Agriculture It's reprinted here because it's likely to be of interest to farmers and can be helpful in talking about agriculture to those who aren't very familiar with it

Whether you know it or not you've got a big stake in five acres of land You don't own it nor pay taxes on it, but chances are if you realized how vital it is to your well being you'd be doing everything you can to see that the fellow who's taking care of it for you gets the right kind of en couragement

That five acres is the amount of farmland each one of us depends on for most of the food we eat, a lot of the clothes we wear, and much of the lumber that goes into the roof over our heads

It's the farmer, of course, who takes care of that five acres and sees that it produces the food, fiber, and forestry products each of us needs To do this requires the farmer's hard work, know-how, and an investment of $2,294 in those five average acres.

Last year, as an average consumer, you paid him $427 54 for doing this Three-fourths of what you paid him went for production expenses That left him $74 37 — less than 3½ percent return on his investment — and he threw in his own labor.

Fortunately, your farmer friend out there has been increasing his efficiency at a rapid pace. Fifty years ago, it took an average 10 acres of cropland to meet your needs.

Today, on just five acres, he can produce about three times as much wheat as you can eat, twice as much rice about 40 percent more cotton and soybeans that you can use and a fourth more feed grains than it takes to feed the livestock and poultry which produce your meat milk and eggs

Since you can't use all the food feed and fiber raised by your farmer friend on those five acres he looks for an export market overseas If he finds it, he can increase his production and spread his costs over more acres If he doesn't, then he has to cut back his production and this means his cost of producing a bushel or a bale of your food or fiber goes up As this happens, the farmer's incentive to stay in the business of producing your food and fiber just naturally goes down

That's why each of us needs to be concerned about whether the farmer taking the risk on our five acres of land is going to be able to maintain the fertility of his soil and invest in the mechanization and new techniques necessary to maintaining our supply of food, fiber, and forestry products

He's doing a good job of it now, but as population grows and demand increases, we're going to have to share part of that five acres with other people. Somehow we are going to have to find ways to make our farm acreage even more productive than it is now

Seeing that the farmer has the equipment, supplies, know-how, and incentive to do the job is where you come in.

Getting involved on the side of the farmer on public issues that affect his ability to produce efficiently and profitably isn't meddling. It's minding your own business.

BAKING SODA STEER? This white Charolais steer was not fed baking soda. But he might have been. Nutrition studies now being conducted at several university experiment stations indicate that baking soda (sodium bicarbonate) helps prevent acidosis and other stress conditions, improves rate of gain and increases feed efficiency in high grain, low or poor roughage diets for beef cattle. In 10 recent studies, feeding low levels of baking soda in various beef rations resulted in average savings of 9.6 cents per head daily as compared to control animals. One-tenth of a pound of baking soda per head daily seemed to give the best results for 500-800 lb. steers.

The Healing of a Child

And when they were come to the multitude, there came to him a certain man, kneeling down to him, and saying,

Lord, have mercy on my son for he is lunatic, and sore vexed for oft times he falleth into the fire, and oft into the water

And I brought him to thy disciples, and they could not cure him

When Jesus answered and said, O faithless and perverse generation, How long shall I be with you? How long shall I suffer you? Bring him hither to me.

And Jesus rebuked the devil, and he departed out of him and the child was cured from that hour.

Drought killing some U.S. farms

WASHINGTON, D C — Drought conditions are more serious and widespread than previously indicated, with important economic implications, according to the results of the Agriculture Council of America's special Farm Line ' held last week to discuss the drought

The drought has just about wiped out the cattle industry in South Dakota and in many counties in Wisconsin and Minnesota and will soon affect these areas total economy no matter when the rains come

Farming in South Dakota is at a standstill with little bank money for farm loans and absolutely no new Federal crop insurance applications being taken

This and similar disaster conditions in the upper Midwest, parts of the Southern Delta region and in other spotted areas were voiced by farmers and farm businessmen who talked with a panel of drought assistance experts representing Federal agencies on ACA's toll free Farm Line

For others also, farmers crop insurance is unavailable Many banks won t make operating loans to farmers who can t insure against crop losses

The severe financial implications of the widespread drought were driven home in an unusually large number of calls to the panel of experts, which included USDA s William Walker, assistant secretary for Rural Development, and Seeley Lodwick associate administrator of the Agricultural Stabilization and Conservation Service

Walker, who still farms in Tennessee, talked with Iowa s Deputy Commissioner of Agriculture Thatcher Johnson who said the depleted ground moisture could have ramifications where there is already more than a billion dollar crop loss Walker assured Johnson that he would try to be responsive '

Many Upper Midwest farmers, saying that conditions are worse than the 'Thirties', are poorly cushioned financially because higher operating expenses have left little margin for savings against "dry days," one Minnesota banker said

Flying over some sections of Minnesota and South Dakota, one can see the farms are devoid of livestock, he said.

Joe Dabler, a banker and cattle farmer from Canistota, South Dakota, said "that eighty per cent of the state's cattle have been liquidated and farm-related businesses suffered a 45 per cent drop in sales, and could worsen by spring."

In Miller, the largest cattle county in South Dakota, the livestock market has sold forty per cent more cattle since June than in any previous year. Normally cattle sales "here are slow at this time," said Jay Anderberg, owner of Miller Livestock Market, "but 13,500 head went through here Wednesday." The prices are holding up but the cattle are "thinner and younger," he said.

Typical of a pattern of farm communities during hard times the real economic consequences are yet to come Schools supported by taxes from an agricultural base will have to operate on less as will the farmers and businesses, he said

ACA Chairman E E Shug' Hatcher said Caller response may have been the highest we've ever experienced All ten phones were in constant operation and we ran well beyond the normal four hour period We know many people were unable to get through but there was no way we could alleviate the jam up "

Repeated many times, they said, 'We don't want hand-outs " But they did ask that the government make money "available to them when it rains, "when it gets good again" and farming operations can continue

As a non-political and non-legislative organization, ACA operates the Farm Line not to advocate any particular position of its own, but strictly to provide a forum for the discussion of major agricultural issues Earlier programs covered topics such as estate taxes, government regulation, land use and resource allocation. ACA WATS lines were busy from the beginning to end of each session as callers spoke directly with experts on the subject.

The Agriculture Council of America, founded in 1973, is made up of individual farmers, farm and commodity organizations and companies that supply the farmers. Its purpose is to improve communication between farmers and urban consumers.

All types ovens need preventive care

No matter what kind of oven you have, it occasionally will need cleaning. Sometimes that simply means pushing a button if you've got the self cleaning or continuous cleaning variety, or it could mean elbow grease and a confusing array of oven cleaners. In any case doing it right will prolong the life of your oven.

According to Coral Morris, extension home management specialist at the University of Delaware, each of the three types of ovens needs special attention. In the continuous-clean oven, the special surface contains oxidizing agents and a series of tiny "hills and valleys" giving the porcelain finish a slightly rough porous look. This finish helps dissipate grease and most soils while the oven is in use.

With the continuous clean oven, both **time** and **temperature** are important factors in the oxidation of soils. It works most efficiently at higher temperatures for longer periods of time. In general, says Ms. Morris, this oven will provide carefree service if the user occasionally wipes out the whole interior surface with a nylon pad and plain water, blotting it dry and then running the oven for two hours at 475 degrees F.

One essential guideline to follow is that of protecting the oven bottom from massive spillovers. Heavy spillovers, says the home management specialist, can destroy the oxidizing action by glazing over or "varnishing" and not allowing air to penetrate the soils.

Another caution from the home management specialist is that commercial oven cleaners SHOULD NEVER BE USED on continuous-cleaning oven interiors. If a massive spillover does occur, check your instruction book for directions on cleaning.

Self Cleaning

In the self-cleaning system, high heat actually burns off food spills. Temperatures of from 850 degrees F. to a little over 1000 degrees F. literally incinerate the spatters and spills, leaving nothing behind but a white ash.

This undoubtedly saves the user plenty of elbow grease, but you can't expect the oven to perform miracles, says Ms. Morris. To help your oven do a good job of cleaning itself, wipe up excess grease and spillovers to avoid overloading the smoke eliminator. If the oven is not totally clean after the cleaning cycle is completed, it could mean it needed more time and the cycle should be lengthened next time, or it could mean the oven isn't being self-cleaned often enough.

As with continuous-clean ovens, NEVER USE A COMMERCIAL OVEN CLEANER on a self-cleaning interior. For one thing, it isn't necessary, and for another, under the high heat of a cleaning cycle, even a residue of oven cleaner could become aggressive enough to etch the porcelain enamel finish.

Standard Ovens

The third type of oven, the kind you clean yourself, does not have to be the "salt-mine" labor that television depicts so readily. To keep up with your standard oven, do just that — keep up with it. The oven user who makes oven cleaning an annual event is making it much harder than necessary. If you wash the broiler pan thoroughly and wipe out the oven with a sudsy cloth after each use, you'll probably never have a strenuous oven-cleaning job to do, says Ms. Morris.

To speed up those neglected cleaning jobs, though, place a dish of ammonia in the oven overnight. This should loosen the soil and make cleaning easier the next day.

Large spillovers can be removed by using a single-edge razor blade — in one of those holders available in hardware stores — and with a slanting motion, scraping up all the residue. Commercial oven cleaners can be used for those oven jobs that got away from you, but be sure to follow all directions. The chemicals in them can harm other kitchen surfaces if they come in contact with them.

Lots of Fish

The world's seas and rivers yield 25,000 known kinds of fish.

New Enzyme

Scientists have discovered a new enzyme in human sperm with qualities that could be useful in rape investigation and in the study and control of male fertility. The discovery opens up a possibility for the development of tests that could be used to sharpen evidence or help to clear innocent suspects in rape cases.

Giant Galaxy

A supergiant elliptical galaxy may contain more than ten trillion stars and measure 300,000 light years across.

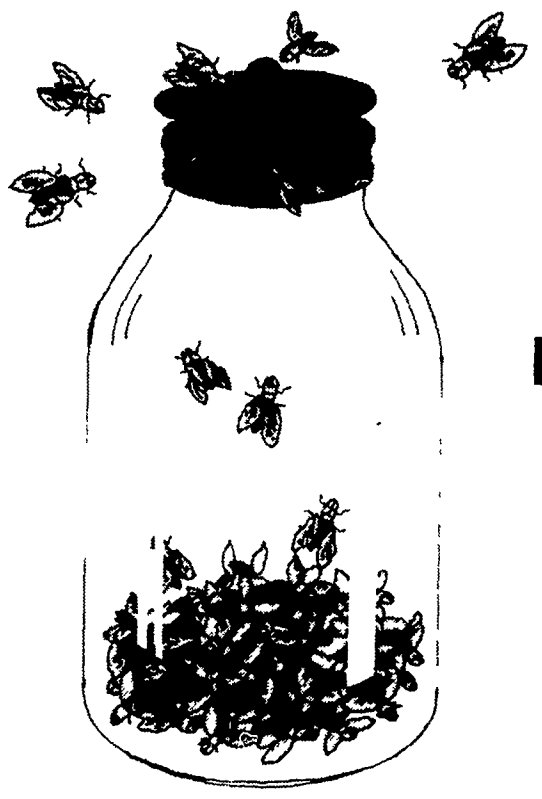
THE GREATEST FLY-TRAP EVER!



AS ADVERTISED IN ORGANIC GARDENING

ONLY $2.05

NO POISON — NO INSECTICIDE

Nothing moves (except the flies trying to get in). This trap fits standard 2¾" canning jars and many others (mayonnaise, pickle, etc.). For use around patios, porches, barns, milk houses, dog kennels, while camping, trailering. A satisfied customer writes: "Your fly trap is great. Please send two more." Send check for $2.05 (two for $3.75) plus tax if applicable. SATISFACTION GUARANTEED. M&H Mfg. Co., PO Box 46A, Cheyney, PA. 19319

Farmers now have eyes in the sky

By KENT MILLER
USDA

High flying satellites feed their data collecting sensors as indiscriminately as a great white shark plows through a school of small fish Both simply gulp up everything in their paths without comprehension In the satellite's case, it will take man's ingenuity and some simple on-the-ground checking to make the massive information collection effort pay off

LANDSAT I, launched in July 1972, and LANDSAT II, put aloft in February 1975, circle the earth in continuous 580-mile-high polar orbits, covering the entire United States every nine days The two space vehicles scoop up nearly unbelievable amounts of raw reflections from earth, record the findings on board, and then periodically dump the data on ground stations.

Scientists hope the information will aid them in forecasting earthquakes and resource explorers feel satellite data may help locate deposits of needed ores and minerals

Agricultural experts are investigating the satellite data for its potential in determining land use and estimating crop acreages and production With currently available technology, it still takes a man on the ground to check on what the satellite "sees" Also, satellite feedback has been ruled out for estimating numbers of livestock or poultry Cattle,, hogs, and chickens don't show up in a satellite scene that may cover 100 square nautical miles. About the smallest discernable area for land evaluation is five acres

The U.S Department of Agriculture's Statistical Reporting Service, the agency responsible for official government crop and livestock estimates, is working with satellite data provided by the National Aeronautics and Space Administration to determine the satellite's role in improving agricultural estimates The focus is on land classification projects Determining what land is planted to crops, used for range, or given to nonagricultural uses forms a basic part of the agency's estimating program

Right now, reliance is on medium altitude photographs secured by aircraft However, much of this photography isn't current enough for survey purposes and covers only limited areas

The LANDSAT's, with their wide area coverage repeated at frequent intervals, offers the potential for up-to-date land use classification, and preliminary research indicates this could produce more precise crop estimates.

However, thanks to farmers' cooperation over the years and proper surveying procedures by SRS, estimates of acreages and production of major crops have proven quite accurate. The degree of accuracy is better at the national level than for individual States or counties.

Improving all levels of estimates by current SRS methods - these would include more farmer contacts through the mail and in person - could prove extremely costly. Satellite imagery, properly refined, might hold the answer. This forms the second thrust of SRS's remote sensing research

While the LANDSAT's haven't shown much promise in determining crop yields, they can, with reasonable accuracy, help identify crops and indicate planted acreage for the Nation and the harder to estimate States and counties This assumes little interference from cloud cover at crucial crop development times

The satellites identify individual crops by measuring the solar energy reflected from each Different crops reflect varying amounts of energy, and these signals, which are picked up by the LANDSAT's, become what researchers call the crop's "signature" Once the signature of a given crop is known, technicians can identify other areas where the same crop is planted

But the system isn't foolproof. During the various stages of the growing season, one crop's signature may be about the same as another's, making it difficult to tell the two apart. This is the case, for example, with early season corn and soybeans. Correct crop classification may range from 50 percent to 95 percent, depending on the field size, type of crop, time of season, and other factors.

The satellite does not take a "picture" of the crop or land in the usual sense of the word, but rather, it measures reflected solar energy and transmits this to ground stations as digital information which is converted to a rough reflection of what the satellite saw

That's why researchers need 'ground truth' This is the actual on-the ground observation of what crops are planted where SRS researchers use ground observations to "train" computers to identify crops and land use from the digital information transmitted by satellite

Information gathered on the ground also serves as a check on the accuracy of the satellite and computer results

This summer, SRS field representatives are gathering ground data on crop acreage and land use in Kansas, Illinois, and California for comparison with satellite information This marks the first attempt to classify LANDSAT imagery for entire States on a complete coverage basis

Improvement in processing satellite data has helped make this large scale project possible STS now relies on a major network of computers in Ames, California, to handle information

It takes this computer network only two minutes to process a 10,000 square nautical mile image containing 7½ million data points Back in 1972, smaller computers required eight hours to do the same job

But despite this increasing sophistication, data collection from satellites will never completely replace personal contacts with farmers to prepare agricultural estimates At this point, for example, researchers do not expect space imagery to ever record livestock and poultry numbers and ground observations will always be necessary to train the computers to classify the same field crops

What's New

Bin Wagon

Parker Industries announces it is now producing and taking orders for its new 600 bushel bed and gear.

The "6600" has been thoroughly tested over a torturous test track.

By utilizing the "6600" with, for example, a John Deere Model 7700 whose grain tank capacity is around 170 bushels, you can make two extra passes through the field before taking your "6600" to the elevator.

Specifications of the 600 bed unit are as follows: 16 feet long by nine feet wide by nine feet three inches high; weighs 5,260 pounds.

The bed itself is mounted on a solidly constructed steel frame and six tires are mounted on a unique independent rubber suspension system.

FOR THE DISCRIMINATING DAIRYMAN
M—R—Y HOLSTEINS

Good Selection of Quality Registered and Grade Holsteins

REGISTERED CATTLE

Select from a group of classified cattle to 87 points with good production and bred to popular sires. Due to freshen next 6 weeks.

Other Registered Holsteins available. These are cattle that are unclassified but have good production and are represented by the popular sires:

- Seiling Rockman
- Elevation
- Arlinda Chief
- R Maple

GRADE HOLSTEINS

Select from a nice group of grade first, second and third calf springers. These are young cows that carry a lot of dairyness and would make fine herd replacements. Due in next 60 days.

Your Complete Satisfaction is Guaranteed.

SUPER HIGH ENERGY

TOP MILK PRODUCTION

UNIQUE FORMULATION

NEW

HI-O COW CHOW 36

Dairy Concentrate with Milk Power

MORE MILK + HIGHER TEST – when mixed with grain according to approved formulas. HI-O COW CHOW 36 produces a superior, nutritionally balanced milking ration. In early tests, increases in milk production have ranged from 1 to 5 pounds per cow per day when compared to soybean premix, competitive supplements, and Purina Cow 38. All herds showed increases in initial tests. Increases in fat test as well as milk production have been reported by some dairymen.

FREE

GET ONE FREE BAG OF A PURINA CALF PRODUCT WITH EACH TON OF NEW PURINA HI–O COW CHOW CONCENTRATE 36

For a limited time only we are offering a free bag of either Nurse-Gro (25 lbs.), Nursing Chow (25 lbs.), Calf Startena (50 lbs.) or Calf Growena (50 lbs.) with each ton of Hi-O Cow Chow 36 you purchase.
This new dairy concentrate contains a unique blending of extra energy ingredients plus vitamins and minerals to give your milking ration the extra "Milk Power" that means extra milk and extra income. Call or come in today for your coupon.
Offer Starts Sept. 1, 1976. Expires Oct. 31, 1976.
